Hanaway, 2012-03-19 Persian has been a written language since the sixth century B.C. Only Chinese, Greek and Latin have comparable histories of literacy Although Persian script changed first from cuneiform to a modified Aramaic then to Arabic from the ninth to the nineteenth centuries it served a broader geographical area than any language in world history It was the primary language of administration and belles lettres from the Balkans under the earlier Ottoman Empire to Central China under the Mongols and from the northern branches of the Silk Road in Central Asia to southern India under the Mughal Empire Its history is therefore crucial for understanding the function of writing in world history Each of the chapters of *Literacy in the Persianate World* opens a window onto a particular stage of this history starting from the reemergence of Persian in the Arabic script after the Arab Islamic conquest in the seventh century A.D. through the establishment of its administrative vocabulary its literary tradition its expansion as the language of trade in the thirteenth century and its adoption by the British imperial administration in India before being reduced to the modern role of national language in three countries Afghanistan, Iran and Tajikistan in the twentieth century Two concluding chapters compare the history of written Persian with the parallel histories of Chinese and Latin with special attention to the way its use was restricted and channeled by social practice This is the first comparative study of the historical role of writing in three languages including two in non-Roman scripts over a period of two and a half millennia providing an opportunity for reassessment of the work on literacy in English that has accumulated over the past half century The editors take full advantage of this opportunity in their introductory essay PMIRC volume 4 *Knowledge-Power/Resistance* Vinod Kumar Rawat, 2014-10-22 Schools, Colleges, Universities and Educational institutes that is knowledge factories apart from producing self-governing citizens and skilled docile workers function as minute social observatories that indirectly monitor their families Michel Foucault delineates power in terms of Pastoral church and salvation Sovereign visible and verifiable Disciplinary invisible and unverifiable Bio power reproduction and individualization Psychiatric normal and abnormal and Governmentality sovereignty discipline and government By applying Foucault's theory the research investigated the relevance of the Francis Bacon's popular dictum Knowledge is Power and Dr B.R.
