**Life Visible** Yoshiaki Toyama, Atsushi Miyawaki, Masaya Nakamura, Masahiro Jinzaki, 2019-10-02 This open access book describes marked advances in imaging technology that have enabled the visualization of phenomena in ways formerly believed to be completely impossible. These technologies have made major contributions to the elucidation of the pathology of diseases as well as to their diagnosis and therapy. The volume presents various studies from molecular imaging to clinical imaging. It also focuses on innovative creative advanced research that gives full play to imaging technology in the broad sense while exploring cross disciplinary areas in which individual research fields interact and pursuing the development of new techniques where they fuse together. The book is separated into three parts the first of which addresses the topic of visualizing and controlling molecules for life. The second part is devoted to imaging of disease mechanisms while the final part comprises studies on the application of imaging technologies to diagnosis and therapy. The book contains the proceedings of the 12th Uehara International Symposium 2017 Make Life Visible sponsored by the Uehara Memorial Foundation and held from June 12 to 14 2017. It is written by leading scientists in the field and is an open access publication under a CC BY 4.0 license.

Red God Xiaorong Han, 2014-11-07 The career of communist revolutionary Wei Baqun one of China's three great peasant leaders and man of the southern frontier Robin Hood style revolutionary Wei Baqun is often described as one of China's three great peasant leaders alongside Mao Zedong and Peng Pai. In his home county of Donglan where he started organizing peasants in the early 1920s Wei Baqun came to be considered a demigod after his death a communist revolutionary with supernatural powers. So much legend has grown up around this fascinating figure that it is difficult to know the truth from the tale. Presenting Wei Baqun's life in light of interactions between his local community and the Chinese nation Red God is organized around the journeys he made from his multiethnic frontier county to major cities where he picked up ideas methods and contacts and around the three revolts he launched back home. Xiaorong Han explores the congruencies and conflicts of local regional and national forces at play.

during Wei Baqun's lifetime while examining his role as a link between his Zhuang people and the Han majority between the village and the city and between the periphery and the center

**HypnoBirthing, Fourth Edition** Marie Mongan, 2015-12-08 HypnoBirthing has gained momentum around the globe as a positive and empowering method of childbirth. In fact, more than 25,000 books were sold in 2014 through the author's website alone, and according to Nielsen BookScan, over 70,000 were sold through reporting retailers since its publication in 2005. Here's why HypnoBirthing helps women to become empowered by developing an awareness of the instinctive birthing capability of their bodies. It greatly reduces the pain of labor and childbirth, frequently eliminates the need for drugs, reduces the need for caesarian surgery or other doctor-controlled birth interventions, and it also shortens birthing and recovery time, allowing for better and earlier bonding with the baby, which has been proven to be vital to the mother-child bond. What's more, parents report that their infants sleep better and feed more easily when they haven't experienced birth trauma.

HypnoBirthing founder Marie Mongan knows from her own four births that it is not necessary for childbirth to be a terribly painful experience. In this book, she shows women how the Mongan Method works and how parents they can take control of the greatest and most important event of their lives. So why is birth such a traumatic event for so many women? And why do more than 40% of births now end in caesarian section, the highest percentage in history? The answer is simple: because our culture teaches women to fear birth as a painful and unsettling experience. Fear causes three physical reactions in the body: tightening of the muscles, reduced blood flow to the birthing muscles, and the release of certain hormones which increase the pain and discomfort of childbirth. This is not hocus pocus; this is science.
