these values with the commercial aspects of his production geared at an expanding art market of well to do buyers excavating the apparent contradiction inherent in the two pursuits In the end she suggests the emphasis on the authentic voice was marketed to a broad field of anonymous buyers Though her primary focus is on Chen Hongshou Bentley s investigation ultimately concerns not only this individual artist but also the effect of early modern changes on an artist s mode of working and his self image in the West as well as the East The study touches upon expanding international trade and the rise of middle class art markets including print markets not only in China but also in the Dutch Republic in circa 1630 1650 Bentley investigates the specific rhetoric of different categories of images including Chen s non literal figurative works literal commemorative portraits his printed romance drama illustrations and his printed playing cards Bentley s investigation takes in issues of studio practice including various types of image replicati *The Figurative Works of Chen Hongshou (1599-1652)* Tamara Heimarrck Bentley,Hongshou Chen,2012 Despite the importance of Chen Hongshou 1599 1652 as an artist and scholar of the late Ming period until now no full length study in English has focused on his work Author Tamara H Bentley takes a broadly interdisciplinary approach treating Chen s oeuvre in relation to literary themes and economic changes and linking these larger concerns to visual analyses In so doing Bentley sheds new light not only on Chen but also on an important cultural moment in the first half of the seventeenth century when Chinese scholar artists began to direct their work towards anonymous public markets **Chinese Philosophy of History** Dawid Rogacz,2020-10-15 Challenging the Eurocentric misconception that the philosophy of history is a Western invention this book reconstructs Chinese thought and offers the first systematic treatment of classical Chinese philosophy of history Dawid Rogacz charts the development from pre imperial Confucian philosophy of history the Warring States period and the Han dynasty through to the neo Confucian philosophy of the Tang and Song era and finally to the Ming and Qing dynasties Revealing underexplored areas of Chinese thought he provides Western readers with new insight into original texts and the ideas of over 40 Chinese philosophers including Mencius Shang Yang Dong Zhongshu Wang Chong Liu Zongyuan Shao Yong Li Zhi Wang Fuzhi and Zhang Xuecheng This vast interpretive body is compared with the main premises of Western philosophy of history in order to open new lines of inquiry and directions for comparative study Clarifying key ideas in the Chinese tradition that have been misrepresented or shoehorned to fit Western definitions Rogacz offers an important reconsideration of how Chinese philosophers have understood history **Zhou Zuoren and an Alternative Chinese Response to Modernity** Susan Daruvala,2020-03-23 This book explores the issues of nation and modernity in China by focusing on the work of Zhou Zuoren 1885 1967 one of the most controversial of modern Chinese intellectuals and brother of the writer Lu Xun Zhou was radically at odds with many of his contemporaries and opposed their nation building and modernization projects Through his literary and aesthetic practice as an essayist Zhou espoused a way of constructing the individual and affirming the individual s importance in opposition to the normative national subject of most May Fourth reformers Zhou s work presents an

alternative vision of the nation and questions the monolithic claims of modernity by promoting traditional aesthetic categories the locality rather than the nation and a literary history that values openness and individualism
