workers *Mental Health Care for Elite Athletes* Claudia L. Reardon, 2022-10-05 This book examines the nuances and specifications of mental health in elite athletes. It meets the market need for a reference that utilizes a narrow scope to focus on the unique nature of this demographic's mental health. It enriches the understanding and appreciation of mental health symptoms and disorders in elite athletes and thus the ability to appropriately address those issues. The book first addresses the essential topics necessary for an authoritative resource on mental health such as general mental health disorder symptoms, diagnoses, and treatment. Subsequent chapters then dive into the very specific issues affecting elite athletes including the adverse effects of overtraining, sports-related concussions, behavioral addictions, and psychological responses to injury and illness. Closing chapters then analyze mental health disorders and issues specific to diverse demographics such as youth athletes, Paralympic athletes, and athletes of various ethnic and religious backgrounds. Timely and essential. *Mental Health Care for Elite Athletes* is an invaluable reference for a variety of healthcare professionals who work with elite athletes and interested non-medical members of the athlete entourage such as coaches and family.

Biopsychosocial Assessment in Clinical Health Psychology Frank Andrasik, Jeffrey L. Goodie, Alan L. Peterson, 2015-01-05 Filling a key need, this practical volume provides state-of-the-art approaches and tools for evaluating both health-related behaviors and psychosocial aspects of medical illness. The book begins by presenting a comprehensive biopsychosocial assessment framework. Evidence-based strategies are described for assessing such key lifestyle factors as tobacco use, alcohol, and other drugs, physical activity, and social support. Behavioral, cognitive, and emotional issues associated with a range of specific medical conditions including cancer, cardiovascular disease, diabetes, chronic pain, and others are addressed. Chapters on assessment of specific populations cover pediatric patients, older adults, ethnic/racial minority groups, organ transplant, and bariatric surgery patients, and primary care.

Sexual Offending Amy Phenix, Harry M. Hoberman, 2015-12-07 This expert reference provides a broad, comprehensive review of the major domains of sexual offending. Beginning with an integrated etiological model of sexual offending, chapters follow addressing the primary predisposing conditions related to sexual offending, e.g., pedophilic, hebephilic, paraphilic, rape, and non-contact paraphilic disorders, hypersexuality, and personality factors. In addition, special subgroups of sexual offenders, females, youth, and the intellectually disabled, are considered. Both broad and specific perspectives on the assessment of sexual offenders are provided. Overviews are offered of clinical and forensic evaluations of such offenders and the utility of structured psychological assessment. A novel conceptual model of risk assessment is proposed. More specifically, each of the primary approaches or instruments related to risk assessment of sexual offending are addressed: the Static risk assessment measures, the Sex Offender Risk Appraisal Guide, structured professional judgment, and the varied measures of dynamic or criminogenic needs assessment. Finally, multiple aspects of management of sexual offenders are discussed, including models of psychosocial treatment, the question of the effectiveness of such treatment, biological interventions, civil commitment, circles of support, and the containment approach to community management.

Chapters are authored by both prominent experts and experienced professionals for a breadth of perspective Among the topics covered Pedophilic Hebephilic Rape Paraphilic Disorders and the variety of Non Contact sexual offending conditions Personality related conditions their association with sexual offending motivators and disinhibition in context Disorders of hyper sexuality Assessments of sexual offenders including the role of psychological testing clinical interview approaches as well as forensic evaluations Conceptual models of risk assessment discussion of specific static dynamic structured clinical risk assessment approaches Models of reviews of treatment outcome with sexual offenders including psychotherapy psychopharmacology and castration the containment approach civil commitment circles of support Overview of public policy issues an evidence based perspective on sex offender registration and residential restrictions This breadth of material in Sexual Offenders will help practitioners gain multiple levels of clinical insight as well as giving them up to date practical tools and techniques for working with this problematic class of individuals
