ignited to conquer and consume darkness of thought In the midst of standing within the shadows of doubt and fear the light that resonated inward was set free upon the soil from which thought springs forth Within the vastness of the universe nature taunts man to reconnect to a forgotten power as the fluttering wings of the butterfly soaring above the winds of change is likened to the phoenix rising from the ashes only to emerge with renewed spirit and hope Whispers of generations past tap into the conscious of a people connected to all that is in the stillness of the moment they await another sign Foretelling of things to come within the skies the rainforest echo s the cries of the ancestor s warnings They communicate telepathically no words spoken the energy spoke for them instead Connecting with nature while giving homage to the trees firmly rooted within the earth s surface the spark within man began to dim the I am would venture deep within the psyche of man Why and how did man lose touch with the essence of such a powerful inner strength Is it possible to transform thinking to connect to the I am The Power of Self is not just a book about transforming and evolving this book is about intimacy with self far beyond merely knowing self which is key to becoming more aware and self empowered     The Solutions Focus Paul Jackson, Mark McKergow, 2011-02-22 The revolutionary yet radical alternative the solutions focused approach to discovering what works at work     Classroom Management Robert T.
