Selfable Take Control Of Your Life:

Selfable Barbara Burley,2000-08-01 **Facing the Truth of Your Life** Merle Yost, LMFT,2018-01-05 Among the messages that fly in the face of the usual feel good sentiments of self help books Yost offers readers real challenges to their belief systems People download much of what their parents have programmed them with consciously or unconsciously over generations Much of it is no longer useful and is in fact destructive for relationships in today s world Forgiveness is too often used as a cure all that will make pain go away It won t Confronting and working through emotional pain is the path to healing and happiness Outdated religious mores can actually prevent victims from healing About the Book Facing the Truth of Your Life will help the reader reframe their view of themselves and their place in life creating the space to explore and question what they think they know in short to face their real truth With short life stories exercises and chapters covering spirituality being a victim how to parent healthy children the many faces of shame and how it complicates all of our relationships Facing the Truth of Your Life challenges the reader to address many of the things we do to prevent our feelings and keep from knowing ourselves Facing the Truth of Your Life is about walking through your pain It is about understanding how you became you how to discard what you were taught about yourself and how to find out who you really are Sacro-Egoism John S. Knox,2016-05-10 Sacro Egoism The Rise of Religious Individualism in the West discusses the relationship between secularization participation in religious practices and belief and the emergence of radical individualized expressions of faith in the West Using McMinnville Oregon as a case study it presents the data collected and analyzed from several churches denominations and spiritual settings in that unassuming town and compares it to the results of Heelas and Woodhead s Spiritual Revolution project arriving at a provocative conclusion Rather than abandoning Christianity for alternative spirituality practices McMinnville citizens still feel strongly about their Christian faith taking their spiritual walk to a more personal level than ever before in church history Utilizing both quantitative and qualitative research along with personal stories of faith and exploration from McMinnville residents themselves Sacro Egoism The Rise of Religious Individualism in the West tells a story of radical individualists who have become the highest religious authority in their lives even over the church the Bible and traditional Christian society **The Trained Nurse and Hospital Review** ,1895 *Women, Love and Learning* Alison Mackinnon,2010 This book tells the story of a generation of American and Australian women who embodied and challenged the prescriptions of their times In the 1950s and early 60s they went to colleges and universities trained for professions and developed a life of the mind They were also urged to embrace their femininity to marry young to devote themselves to husbands children and communities Could they do both While they might be seen as a privileged group they led the way for a multitude in the years ahead They were quietly making the revolution that was to come Did they have the best of all possible worlds Or were they caught in a double bind Sylvia Plath s letters tell of her delighted sense of life opening before her as a college girl Her poetry however tells of anguish of reaching for distant goals Drawing on interviews

surveys reunion books letters biographical and autobiographical writing from both American and Australian women this cultural history argues that the choices that faced educated women in that time led to the revolution of the late 1960s and 70s Something had to give There are lessons here for today's young women facing again conflicting expectations Is it possible they ask to have it all

Neurobiology and Treatment of Traumatic Dissociation Ulrich F. Lanius, Sandra L. Paulsen, Frank M. Corrigan, 2014-05-13 Encompassing the contributions of expert clinicians and researchers in the area of traumatic stress and dissociation this volume is the first to integrate current neuroscience research regarding traumatic dissociation with several cutting edge approaches to treatment providing a comprehensive neurobiologically based treatment approach The text discusses current neuroscientific research regarding traumatic stress and dissociation that includes attachment affective neuroscience polyvagal theory structural dissociation and information processing theory yielding a comprehensive model that guides treatment and clinical interventions for traumatic dissociation It then integrates this model with stage oriented treatment and current therapeutic interventions including EMDR somatic and body psychotherapy approaches Ego State Therapy and adjunctive pharmacological interventions Readers are given hands on practical guidance regarding clinical decision making enabling them to make sound choices about interventions that will facilitate optimal treatment outcomes

Key Features Provides a broad based treatment approach to traumatic stress syndromes and dissociation Offers accessible current research in the basic neurosciences relevant to our understanding of attachment traumatic stress and dissociation Includes practical suggestions for integrating EMDR somatic and body psychotherapy approaches with Ego State Therapy and adjunctive pharmacological interventions Integrates concepts from the affective and cognitive neurosciences and the study of consciousness Presents a comprehensive neurobiological model that accounts for the therapeutic effects of both somatic therapies and EMDR as well as adjunctive pharmacological interventions

Embodied Aesthetics in Drama Education Matthew DeCoursey, 2018-12-13 If it is a good thing to use drama for education there must be something specific about drama that makes it good for the purpose It has power of some kind it makes things meaningful that would otherwise be meaningless or things memorable that would otherwise be forgettable Or perhaps it enables independent thought in an area that would otherwise become mere rote learning Many practitioners believe that drama has the power to develop learner autonomy or even to give learners power over their lives In the last twenty years a widespread view has developed that this something that creates the benefit of drama is aesthetics There are many views of aesthetics but what unites them is the special significance that art has for our lives This book is about the relation between aesthetics and education in the use of drama Within it philosophy appears as the essential connecting discipline between the practice of arts based education and our advancing knowledge of the interrelations of cognition emotion and embodiment Matthew DeCoursey argues that the power of dramatic art is to be found in its bodily emotional nature Drawing on recent work in the aesthetics of theatre he shows that much of the power of theatre can be attributed to a specific range of ideas

and techniques notably including double meaning making aesthetic focus and dramatic tension Finally the author relates different forms of drama education to different educational results holding that the conventional improvised forms are neither superior nor inferior to scripted theatre but merely serve different purposes Among those educational results discussed are the emancipation sought both by Rancière and by many practitioners of applied theatre but also curricular areas including language education

The Art of Losing Control Jules Evans,2017-04-25 Since the Enlightenment western culture has written off ecstatic experience as a form of mental illness But why should rationality be considered the highest part of human nature when we are capable of so many more states of experience Piecing together interviews analysis of ancient and modern philosophy and his own eclectic encounters with the sublime philosopher Jules Evans mounts an investigation into what we can gain from mastering the art of losing control From Aristotle and Plato to the Bishop of London

and Sister Bliss radical jihadis to Silicon Valley transhumanists The Art of Losing Control is a funny life enhancing journey that will change the way you think about how you feel *Scientific American* ,1896 **Religion** Meredith B.

McGuire,2008-04-10 In this insightful examination of religions in their local and global context the author shows how analyzing religions social context helps us understand individuals lives social movements national and ethnic politics and widespread social changes Well researched and theory based the text is filled with intriguing anecdotes empirical data thought provoking discussions of both mainstream and nonofficial religions and historical and contemporary examples that illustrate the interplay between religion and society across cultures This volume takes an integrated approach to examining religion and includes cross cultural historical and methodological viewpoints Readers will learn to identify the complex interactions between religion and societal contexts as well as the ways in which these interactions shape individuals communities national politics and the world **The Many Faces of Philosophy** Amélie Oksenberg Rorty,2004-08-19 This

historically based collection of philosophers reflections the letters journals and prefaces that reveals their hopes and hesitations their triumphs and struggles their deepest doubts and convictions allows us to witness philosophical thought in process Ranging from Plato to Hannah Arendt with contributions from 44 philosophers Augustine Maimonides AlGhazali Descartes Pascal Leibniz Voltaire Rousseau Hobbes Hume Kant Nietzsche Kierkegaard Wittgenstein among others this remarkable collection documents philosophers claim that they change as well as understand the world In her introductory essay Witnessing Philosophers Amelie Rorty locates philosophers reflections in the larger context of the many facets of their other activities and commitments **Philosophy and the Metaphysical Achievements of Education** Ryan

McInerney,2021-06-17 Tracing the deep connections between philosophy and education Ryan McInerney argues that we must use philosophy to reflect on the significance of educational practice to all human endeavour He uses a broad approach which takes in the relationships governing philosophy education and language to reveal education s fundamental achievements and metaphysical significance The realization of educational ideals and policies are read alongside growing skepticism regarding the theoretical and practical significance of philosophical thinking and the emphasis on resource efficiency and measurable outcomes which characterise schooling today It is from this context that McInerney defends the value inherent to the philosophy of education Drawing upon contemporary continental and analytic thinkers including Nietzsche Gadamer and Wittgenstein McInerney charts the role of education in shaping the child s metaphysical transformation through language acquisition Connecting early years and primary school education McInerney pinpoints rationality as the crucial factor which produces critical thinking beings He presents the pursuit of philosophically minded education as a rational pursuit which enables us to philosophise and educate others in turn dispensing with the epistemological and conceptual foundationalisms of the past **The School Review** ,1906 [The New World](#) ,1840

Trekking to Mindfulness and Self-Development Rae Mundy,2018-05-09 This book is about the ups and downs of life

it gives ways to self development and mindfulness using techniques and health practices to bring about a change of heart mind and soul Rae could not accept that the spiritual way was only about faith in God She knew there were other factors There was something else going on that allowed her to connect to the no local phenomena It must have God in it but not as a man sitting in heaven controlling everything that is just a fairy story She decided to look at other ways to explain it and came to science physics quantum physics consciousness holographic universe particles waves and the max plank scale of energy connectedness and the unified field These subjects were scary and it has taken her forty five years of study personal experience and practice to understand enough to write this book in laymans terms easy reading for people like her She learned it understood it and then wrote it in her own words The groundwork is done and what has come out of it is this little book explaining how to break habits of a lifetime and understand the workings within that gave her the nonlocal awareness She has cut through the red tape and has achieved an understanding of nonlocal awareness information written in her own way
