# Selfdetermination Of Peoples

**Jörg Fisch**

## **Selfdetermination Of Peoples:**

Self-Determination of Peoples Antonio Cassese,1995 The self determination of peoples is a major issue in the world community both radical and subversive it serves to grant statehood to oppressed peoples but also to disrupt existing State structures This book the first comprehensive legal account sets out to trace how this political ideal has turned into an international legal standard Scrutinising State practice through national digests and UN proceedings the author pinpoints the limits within which this political postulate has gained a foothold in the body of international law and assesses the extent to which it has had an impact on existing legal norms This is primarily a legal inquiry which however looks at law within its historical and political context and given its judicial underpinning makes an important contribution to the study of the interplay of law history and politics in international relations The Self-determination of Peoples Wolfgang F.

Danspeckgruber,2002 Focusing especially on the era since the Cold War political scientists other scholars and government officials examine both empirically and conceptually the causes and impacts of people striving for self determination and autonomy They consider the legal political administrative ethnic cultural economic and strategic dimensions and try to consider examples from all major regions Annotation c Book News Inc Portland OR booknews com **The Right of**

**Self-Determination of Peoples** Jörg Fisch,2015-12-09 The right of self determination of peoples holds out the promise of sovereign statehood for all peoples and a domination free international order But it also harbors the danger of state fragmentation that can threaten international stability if claims of self determination lead to secessions Covering both the late eighteenth and early nineteenth century independence movements in the Americas and the twentieth century decolonization worldwide this book examines the conceptual and political history of the right of self determination of peoples It addresses the political contexts in which the right and concept were formulated and the practices developed to restrain its potentially anarchic character its inception in anti colonialism nationalism and the labor movement its instrumentalization at the end of the First World War in a formidable duel that Wilson lost to Lenin its abuse by Hitler the path after the Second World War to its recognition as a human right in 1966 and its continuing impact after decolonization

**Self-Determination of Peoples and Plural-ethnic States in Contemporary International Law** Edward McWhinney,2007 In analysing the contemporary International Law principles as to Self determination of Peoples Dr Edward McWhinney gives a special attention to the crisis of multinational states A special concluding chapter draws on the empirical record of the historical often trial and error experience of the Succession states to the Versailles treaties settlements and to the assorted acts of Decolonisation of the former European Imperial Colonial powers **Self-determination of Peoples** Wolfgang F. Danspeckgruber,1986 **Peoples and International Law** James Summers,2014-04-09 Peoples and International Law is a detailed survey of the law of self determination with a focus on the concept of nations and peoples It engages with different aspects of this law with particular emphasis on the drafting and implementation of international

instruments The second edition includes new coverage of the Declaration on the Rights of Indigenous Peoples and the African and Arab charters It considers recent practice by the Human Rights Committee Committee on Economic Social and Cultural Rights and African Commission on Human and Peoples Rights dealing with the emerging political economic and environmental aspects of the right The book looks at the interaction of international law nationalism and liberalism in theories of nationhood and self determination as well as the historical development of the right and the decisions of international bodies Lastly it examines practice in this area including new developments in remedial independence and international territorial administration Also available in hardback

**Modern Law of Self-Determination** Christian Tomuschat, 2023-08-21 Modern Law of Self Determination examines the significance of the right to self determination in the new world order For decades self determination was seen as a right of colonial peoples Now the decolonization process has come to an end its scope and meaning need to be re examined Increasingly the ethnic groups within established nation States claim some separate political status In extreme cases of persecution of an ethnic group by a ruling majority secession may provide the only viable remedy to resolve the conflict However international law cannot promote a general Balkanization of the globe The legitimate interests of all ethnic groups should be accommodated within the framework of existing States Self determination which today is predominantly understood as implying a right to independent statehood may have to be re interpreted as conferring no more than a right to autonomy or federal statehood Such a conception is in line with a modern tendency that highlights the necessary internal dimension of self determination Modern Law of Self Determination is based on papers delivered at a conference in Bonn in August 1992 which have been updated and reviewed by the authors in light of the discussions following their presentation

*National Identities and the Right to Self-Determination of Peoples* Hilly Moodrick-Even Khen, 2016-06-10 In National Identities and the Right to Self Determination of Peoples Hilly Moodrick Even Khen revisits the legal right to self determination of peoples and suggests an integrative model for securing the cohesion of the various nationalities within multinational states The model set on both legal and political science theories departs from civic nationalism but calls to strengthen it with more immediate and emotional means such as shared national symbols and multicultural education Moodrick Even Khen explores the political history of Canada Belgium and Spain and touches upon other divided societies such as South Africa Northern Ireland and Cyprus Drawing upon these cases she suggests a future model for a cohesive society in Israel which is currently nationally divided between Arabs and Jews

**The Right to Development in the African Human Rights System** Serges Djoyou Kamga, 2018-01-29 The right to development RTD seeks to address global inequities hidden in world politics and global institutions through the game of influences played by powerful actors The negative impacts of the Atlantic slave trade colonialism and the subjugation of Africa through globalisation and its institutions are key factors that have caused Africa and African people claiming their RTD This book examines how the African continent protects the right to development examining the nature of the RTD and controversies

surrounding it and how it is implemented The book then goes onto explore the RTD at the regional level including through the jurisprudence of the African Commission and the African Court on Human Rights at the sub regional level including in sub regional courts and tribunals at the national levels through case studies and through the African Union governance institutions Through this examination the author unveils what are the prospects and challenges to the realisation of the RTD in Africa

**Encyclopedia of Human Rights** Edward H. Lawson,1996 Preface to the first edition

Peoples and Minorities in International Law Catherine Brölmann,René Lefebvre,Marjoleine Zieck,2023-12-11 The revival of group consciousness in Eastern European countries in the wake of the Cold War has put the protection of subnational groups high on the political agenda The present book bears witness to the renewed interest in the legal position of subnational groups in international law This book and the Conference at which provisional versions of most of the contributions were presented originate in perceived deficiencies of contemporary international law to protect subnational groups within a legal framework of which the principal subjects are states Divided into three parts the book commences with an analysis of the antagonistic relation between the right of peoples to self determination and the right of states to territorial integrity and the need to redefine these concepts in the post Cold War era The book continues with the highly controversial issue of the attribution of rights to subnational groups and the identification of subnational groups which would be entitled to such rights The second part deals with the identification and protection of peoples and minorities at different levels of organization viz subnational national and supranational This part is followed by an analysis of the modes and means by which international obligations vis vis subnational groups can be enforced Not only the judicial means are considered but also the justifiability of recourse to military means to the cause of subnational groups This book not only provides an in depth analysis of contemporary international law with respect to the protection of peoples and minorities but also of the law as it is developing in the post Cold War era

**The European Union as Protector and Promoter of Equality** Thomas Giegerich,2020-07-06 This book considers the European Union as a project with a major antidiscrimination goal which is important to remember at a time of increasing resentment against particularly exposed groups especially migrants refugees members of ethnic or religious minorities and LGBTI persons While equality and non discrimination have long been core principles of the international community as a whole as is made obvious by the UN Charter and the Universal Declaration of Human Rights they have shaped European integration in a particular way The concepts of diversity pluralism and equality have always been inherent in that process the EU being virtually founded on the values of equality and non discrimination The Charter of Fundamental Rights of the EU contains the most modern and extensive catalogue of prohibited grounds of discrimination supplementing the catalogue enshrined in the European Convention on Human Rights EU law has given new impulses to antidiscrimination law both within Europe and beyond The contributions to this book focus on how effective and credible the EU has been in combatting discrimination inside and outside Europe The authors present different mostly legal aspects of that topic and

examine them from various intra and extra European angles

**Examining Colonial Wars and Their Impact on Contemporary Military History** Madueño, Miguel, Guerrero, Alberto, 2023-03-28 Colonial wars have been a very active part of 19th and 20th century history and their importance has often been overlooked Their study and analysis in order to understand the contemporary world and current international relations is as necessary as it is interesting Examining Colonial Wars and Their Impact on Contemporary Military History approaches the phenomenon of colonial wars with the intention of understanding the most immediate past in order to analyze the contemporary and current scenarios with new tools It contributes to the dissemination of content without neglecting the considerations of social sciences and history with a compilation and analytical character Covering topics such as black market armaments imperialism and military history this premier reference source is a dynamic resource for historians anthropologists sociologists government officials students and educators of higher education librarians researchers and academicians *San min chu i, The three principles of the people* Yat-sen Sun, 1928

**SOCIAL AND ECONOMIC DEVELOPMENT - Volume VIII** Salustiano del Campo , Tomoko Hamada , Giancarlo Barbiroli, Saskia Sassen, Eleonora Barbieri-Masini, Paul Nchoji Nkwi, Owen Sichone, Abubakar Momoh, 2010-11-15 Social and Economic Development is a component of Encyclopedia of Development and Economic Sciences in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias The Theme on Social and Economic Development provides the essential aspects and a myriad of issues of great relevance to our world such as Socioeconomic Developmental Social Work Perspectives on Contemporary Socioeconomic Development Sustainable Development of Natural Resource Capital Sustainable Development Of Human Resource Capital Intellectual And Knowledge Capital For Sustainable Development At Local National Regional And Global Levels Economic And Financial System Development Information And Knowledge Institutional And Infrastructure System Development Information And Knowledge Basic Principles Of Sustainable Development Environmental Economics And Sustainable Development Implementing Sustainable Development In A Changing World Economic Sociology Its History And Development The Socioeconomics Of Agriculture Agricultural And Rural Geography Impact Of Global Change On Agriculture Human Nutrition An Overview The Role Of Inter And Nongovernmental Organizations Nongovernmental Organizations Social And Cultural Development Of Human Resources This 8 volume set contains several chapters each of size 5000 30000 words with perspectives issues on social and Economic Development These volumes are aimed at the following five major target audiences University and College students Educators Professional practitioners Research personnel and Policy analysts managers and decision makers and NGOs

**International Sustainable Development Law - Volume I** A. F. Munir Maniruzzaman, Aaron Schwabach, Arthur John Cockfield, A. Dan Tarlock, John C. Dernbach and Gabriela Maria Kutting, 2010-10-30 International Sustainable Development Law is a component of Encyclopedia of Development and Economic Sciences in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias The Theme on International

Sustainable Development Law reflects on the rights and duties of states and other actors in the development process The chapters range from International Development Law standard applications of economic theory to more radical approaches These three volumes are aimed at the following five major target audiences University and College Students Educators Professional Practitioners Research Personnel and Policy Analysts Managers and Decision Makers NGOs and GOs

**A Liberal Theory of Collective Rights** Michel Seymour, 2017-11-27 Most states are multination states and most peoples are stateless peoples Just as collectives can behave as sovereign states only if they are recognized by the international community liberal multination states must recognize stateless peoples in order to determine their political status within that state There is however no agreement on the kind of principles that should be considered especially under classical liberalism which gives individuals preeminence over groups Liberal theories that attempt to accommodate collective rights are often based on a comprehensive version of liberalism that subscribes to moral individualism Within such a framework they develop a watered down concept of collective rights In *A Liberal Theory of Collective Rights* Michel Seymour explores the theoretical resources of John Rawls's political liberalism and shows that this particular approach can accommodate genuine collective rights By Rawls's account Seymour explains peoples are moral agents and sources of valid moral claims and are therefore entitled to collective rights These kinds of rights translate in the constitution of the multination state to a true political recognition for stateless peoples Ultimately *A Liberal Theory of Collective Rights* answers three important questions Who is the subject of collective rights What is the object of collective rights And can they be institutionalized in real politics

**International Law in Domestic Courts** André Nollkaemper, August Reinisch, Ralph Janik, Florentina Simlinger, 2018-11-22 The application of international law by domestic courts has gained increasing attention in recent years In an ever more interconnected world domestic courts now make reference to judgments by foreign courts when faced with similar or identical legal problems involving international law Their judgments see increasing recognition of their pivotal role in shaping and interpreting international law Understanding them will be of use for any practitioner and scholar in international law *International Law in Domestic Courts* Oxford's online collection of domestic court decisions which apply international law has been providing scholars with at your fingertips access to analysis and commentary for more than a decade First established in 2006 it now includes over 1 700 judgments of cases involving international law related aspects from nearly 100 countries and continues to expand This Casebook is the perfect companion presenting a selection of the most important cases along with a commentary to give a holistic overview of the use of international law in national courts and how the jurisprudence has developed international law itself Practitioners students and academics will find this an invaluable resource when faced with the complex questions of applying international law in domestic courts

**The Division of Heaven and Earth** Shokdung, 2017-01-01 Author was disappeared from Tibet after publishing this book and the situation in Tibet continues to capture the world's imagination

**Exploring the boundaries of international law** The

Open University, This 15 hour free course introduced key concepts of international law such as legal personality status of the state sovereignty and jurisdiction

As recognized, adventure as capably as experience roughly lesson, amusement, as without difficulty as concord can be gotten by just checking out a book **Selfdetermination Of Peoples** as well as it is not directly done, you could agree to even more vis--vis this life, in relation to the world.

We come up with the money for you this proper as without difficulty as easy way to get those all. We have enough money Selfdetermination Of Peoples and numerous ebook collections from fictions to scientific research in any way. among them is this Selfdetermination Of Peoples that can be your partner.
