Selling Hollywood To The World:

Selling Hollywood to the World John Trumbour, 2007-09-21 The global expansion of Hollywood and American popular culture in the first decades of the twentieth century met with strong opposition throughout the world Determined to defeat such resistance the Hollywood moguls created a powerful trade organization that worked closely with the US State Department in an effort to expand the American film industry's dominance worldwide This book offers insight into and analysis of European efforts to overcome the American film industry's pre-eminence It focuses particularly on Britain Hollywood's largest overseas market of the interwar years France a nation with an alternative vision of cinema and Belgium which was entrusted by the Vatican with coordination of the international movement against depravity in films In contributing to the understanding of American popular culture at home and abroad this study demonstrates Hollywood's role in orchestrating the American Century *Hollywood's Embassies* Ross Melnick, 2022-04-26 Winner 2024 Culbert Family Book Prize International Association for Media and History Winner 2022 Richard Wall Memorial Award Theatre Library Association Beginning in the 1920s audiences around the globe were seduced not only by Hollywood films but also by lavish movie theaters that were owned and operated by the major American film companies These theaters aimed to provide a quintessentially American experience Outfitted with American technology and accoutrements they allowed local audiences to watch American films in an American owned cinema in a distinctly American way In a history that stretches from Buenos Aires and Tokyo to Johannesburg and Cairo Ross Melnick considers these movie houses as cultural embassies He examines how the exhibition of Hollywood films became a constant flow of political and consumerist messaging selling American ideas products and power especially during fractious eras Melnick demonstrates that while Hollywood's marketing of luxury and consumption often struck a chord with local audiences it was also frequently tone deaf to new social cultural racial and political movements He argues that the story of Hollywood's global cinemas is not a simple narrative of cultural and industrial indoctrination and colonization Instead it is one of negotiation booms and busts successes and failures adoptions and rejections and a precursor to later conflicts over the spread of American consumer culture A truly global account Hollywood's Embassies shows how the entanglement of worldwide movie theaters with American empire offers a new way of understanding film history and the history of U S soft power Movie Censorship and American Culture Francis G. Couvares, 2006 From the earliest days of public outrage over indecent nickelodeon shows Americans have worried about the power of the movies The eleven essays in this book examine nearly a century of struggle over cinematic representations of sex crime violence religion race and ethnicity revealing that the effort to regulate the screen has reflected deep social and cultural schisms In addition to the editor contributors include Daniel Czitrom Marybeth Hamilton Garth Jowett Charles Lyons Richard Maltby Charles Musser Alison M Parker Charlene Regester Ruth Vasey and Stephen Vaughn Together they make it clear that censoring the movies is more than just a reflex against indecency however defined Whether censorship protects

the vulnerable or suppresses the creative it is part of a broader culture war that breaks out recurrently as Americans try to come to terms with the market the state and the plural society in which they live **Selling War to America** Eugene Secunda, Terence P. Moran, 2007-08-30 Battles are won in combat Wars are won by winning the hearts and minds of the people *Selling War to America* provides a thought provoking look at the propaganda efforts the U S government has exerted to that end It begins with an examination of the government s campaign to instigate a war with Spain and ends with a review of the methods being used to encourage support for the War Against Terrorism The book analyzes each of these wars within the context of the techniques used to generate public support also examining the results of propaganda efforts both before and after each conflict From these historical analyses noting both the blunders and the triumphs of the past century the authors offer the keys to successfully persuading the American public to support wars that must be fought Lies were told and truths withheld because government and military leaders did not trust the American people to make appropriate decisions concerning our national security The attacks of September 11 2001 on The World Trade Center Towers and the Pentagon have summoned the American people to a war on terrorism The U S government is now trying to mobilize American public opinion to support this war But this is just the most recent example of how our government has sought to enlist broad public support for the wars it has waged The job of informing and persuading America to support its war efforts has become increasingly more challenging as media technologies like instant global coverage of television news and the Internet reach into every American home *Cultural Production of Hallyu in the Digital Platform Era* Dal Yong Jin, 2025-08-04 *Cultural Production of Hallyu in the Digital Platform Era* explores how histories industry structures and politics interact in the platformization of the Korean Wave Dal Yong Jin argues that while much research centers on the Korean culture takeover and the dominance of Korean products on premier global media platforms Korean cultural industries also experience reshaping and changing depending on the platforms often on the global stage Addressing the increasing significance of digital platforms this work examines the transformative roles of over the top streaming services Netflix Viki and V Live video sharing platforms such as YouTube and social media platforms such as TikTok and Instagram and the power relations between content producers information technology sectors the government creative laborers and audiences in the globalization of Korean culture and media By developing critical cultural industries studies as a new theoretical framework *Cultural Production of Hallyu in the Digital Platform Era* explores the ever growing Korean Wave phenomenon with the advent of global digital platforms [The Shock of America](#) David Ellwood, 2012-07-19 An ambitious original book describing a century of Europe coping with America its inventions personalities films armies business and politics These decades reveal how much emotional energy Europeans invested in finding their own ways to reconcile tradition and modernity under the pressure of the ever evolving American challenge *The Divo and the Duce* Giorgio Bertellini, 2019-01-15 At publication date a free ebook version of this title will be available through Luminos University of California Press s Open Access
