Britain's domestic history and its relationship with its Empire with Europe and with the United States **Same Sex, Different Politics** Gary Mucciaroni, 2009-05-15 Why is it so much harder for American same sex couples to get married than it is for them to adopt children And why does our military prevent gays from serving openly even though jurisdictions nationwide continue to render such discrimination illegal Illuminating the conditions that engender these contradictory policies Same Sex Different Politics explains why gay rights advocates have achieved dramatically different levels of success from one policy area to another The first book to compare results across a wide range of gay rights struggles this volume explores debates over laws governing military service homosexual conduct adoption marriage and partner recognition hate crimes and civil rights It reveals that in each area the gay rights movement's achievements depend both on Americans' perceptions of its demands and on the political venue in which the conflict plays out Adoption policy for example generally takes shape in a decentralized system of courts that enables couples to target sympathetic judges while fights for gay marriage generally culminate in legislation or ballot referenda against which it is easier to mount opposition Brilliantly synthesizing all the factors that contribute to each kind of outcome Same Sex Different Politics establishes a new framework for understanding the trajectory of a movement Rethinking Commodification Martha Ertman, Joan C. Singing Out Heather MacLachlan, 2020-12-01 Can you change the world through song This appealing idea has long been the professed aim of singers who are part of choruses affiliated with the Gay and Lesbian Association of Choruses GALA Theses choruses first emerged in the 1970s and grew out of a very American tradition of often gender segregated choral singing that explicitly presents itself as a community based activity By taking a close look at these choruses and their mission Heather MacLachlan unpacks the fascinating historical and cultural dynamics behind groups that seek to change society for the better by

encouraging acceptance of LGBT identified people and promoting diversity more generally She characterizes their mission as integrationist rather than liberationist and zeroes in on the inherent tension between GALA's progressive social goals and the fact that the music most often performed by GALA groups is deeply rooted in a fairly narrowly conceived tradition of art music that identifies as white Euro centric and middle class and that much of the membership identifies as white and middle class as well Pundits often wax eloquent about the power of music asserting that it can in some positive way change the world Such statements often rest on an unexamined claim that music can and does foster social justice Singing Out GALA Choruses and Social Change tackles the premise underlying such claims analyzing groups of amateur singers who are explicitly committed to an agenda of social justice
