**The Novel: An Alternative History, 1600-1800** Steven Moore, 2013-08-29 Winner of the Christian Gauss Award for excellence in literary scholarship from the Phi Beta Kappa Society. Having excavated the world's earliest novels in his previous book, literary historian Steven Moore explores in this sequel the remarkable flowering of the novel between the years 1600 and 1800 from Don Quixote to America's first big novel an homage to Cervantes entitled *Modern Chivalry*. This is the period of such classic novels as *Tom Jones*, *Candide* and *Dangerous Liaisons* but beyond the dozen or so recognized classics there are hundreds of other interesting novels that appeared then known only to specialists: Spanish picaresques, French heroic romances, massive Chinese novels, Japanese graphic novels, eccentric English novels and the earliest American novels. These minor novels are not only interesting in their own right but also provide the context needed to appreciate why the major novels were major breakthroughs. The novel experienced an explosive growth spurt during these centuries as novelists experimented with different forms and genres: epistolary novels, romances, Gothic thrillers, novels in verse, parodies, science fiction, episodic road trips and family sagas along with quirky unclassifiable experiments in fiction that resemble contemporary avant-garde works. As in his previous volume, Moore privileges the innovators and outriders, those who kept the novel novel. In the most comprehensive history of this period ever written, Moore examines over 400 novels from around the world in a lively style that is as entertaining as it is informative. Though written for a general audience, *The Novel: An Alternative History* also provides the scholarly apparatus required by the serious student of the period. This sequel like its predecessor is a zestfully encyclopedic, avidly opinionated and dazzlingly fresh history of the most elastic of literary forms.
