The Effectiveness of Job-Retention Schemes: COVID-19 Evidence From the German States Mr. Shekhar Aiyar,Mai Chi Dao,2021-10 Kurzarbeit KA Germany s short time work program is widely credited with saving jobs and supporting domestic demand during the COVID 19 recession We quantify the impact by exploiting state level variation in exposure to the pandemic shock and KA take up We construct a shift share measure of the labor demand shock and instrument KA take up using the pre existing state specific share of workers eligible for KA We find first that KA was crucial in mitigating unemployment absent its expansion the unemployment rate would have increased by an additional 3 pp on average at the trough of the recession Second KA also bolstered domestic demand the contraction in consumption could have been 2 to 3 times larger absent the program Finally we provide preliminary evidence on the sensitivity of the medium run reallocation of resources to the prevalence of jobretention schemes during the Global Financial Crisis

A Short History of Circuits and Systems Franco Maloberti,Anthony C. Davies,Yongfu Li,Fidel Makatia,Hanho Lee,Fakhrul Zaman Rokhani,2024-09-27 After an overview of major scientific discoveries of the 18th and 19th centuries which created electrical science as we know and understand it and led to its useful applications in energy conversion transmission manufacturing industry and communications this Circuits and Systems History book fills a gap in published literature by providing a record of the many outstanding scientists mathematicians and engineers who laid the foundations of Circuit Theory and Filter Design from the mid 20th Century Additionally the book records the history of the IEEE Circuits and Systems Society from its origins as the small Circuit Theory Group of the Institute of Radio Engineers IRE which merged with the American Institute of Electrical Engineers AIEE to form IEEE in 1963 to the large and broad coverage worldwide IEEE Society which it is today

This second edition commemorating the 75th anniversary of the Circuits and Systems Society builds upon the first edition's success by expanding the scope of specific chapters introducing new topics of relevance and integrating feedback from readers and experts in the field reflecting the evolving landscape of Circuits and Systems alongside the evolution of the professional society. Many authors from many countries contributed to the creation of this book working to a very tight time schedule. The result is a substantial contribution to their enthusiasm and expertise which it is hoped readers will find both interesting and useful. It is certain that in such a book omission will be found and in the space and time available much valuable material had to be left out. It is hoped that this book will stimulate an interest in the marvelous heritage and contributions of the many outstanding people who worked in the Circuits and Systems area. *The Birth of Intertextuality*

Scarlett Baron, 2019-11-01 Why was the term intertextuality coined? Why did its first theorists feel the need to replace or complement those terms of quotation, allusion, echo, reference, influence, imitation, parody, pastiche among others which had previously seemed adequate and sufficient to the description of literary relations? Why especially in view of the fact that it is still met with resistance did the new concept achieve such popularity so fast? Why has it retained its currency in spite of its inherent paradoxes? Since 1966 when Kristeva defined every text as a mosaic of quotations, intertextuality has become an all pervasive catchword in literature and other humanities departments yet the notion as commonly used remains nebulous to the point of meaninglessness. This book seeks to shed light on this thought provoking but treacherously polyvalent concept by tracing the theory's core ideas and emblematic images to paradigm shifts in the fields of science, philosophy, psychoanalysis and linguistics focusing on the shaping roles of Darwin, Nietzsche, Freud, Saussure and Bakhtin. In so doing it elucidates the meaning of one of the most frequently used terms in contemporary criticism thereby providing a much needed foundation for clearer discussions of literary relations across the discipline and beyond. John Edgar Wideman and Modernity Michel

Feith, 2024-01-12 The career of writer John Edgar Wideman has been the sort of success story on which America prides itself. Coming from an inner city African American neighborhood he studied at the Universities of Pennsylvania and Oxford, published his first novel at age twenty six, won two PEN Faulkner Awards as well as a MacArthur genius grant and has held several top teaching posts. But profound tragedy has also marked his life: both his brother and son received life sentences for murder and a nephew was killed at home after a bar fight. His life thus illustrates how the strictures of race temper American notions of freedom and opportunity. Wideman's engagement with race and identity has been nuanced and complex, taking the form of what Michel Feith sees as a critical dialogue with modernity, a moment in history which gave birth not only to the Enlightenment but also to American slavery and the conundrum of race. Feith argues that the key work in the Wideman oeuvre is *The Cattle Killing* (1996), his only historical novel whose threads include the 1793 yellow fever epidemic in Philadelphia, the 1856-57 Cattle Killing prophecy which wreaked havoc among the Xhosa tribe of South Africa and the contemporary situation of black ghettos in the United States. Unfolding within the early days of the American Republic, the

novel offers a window through which all of Wideman's works and their central concerns ghettoization imprisonment familial relationships emancipation and the diasporic sense of history can be understood With clarity and theoretical sophistication Feith offers provocative new readings of Wideman's texts from the Homewood books based on his youth in Pittsburgh to his haunting memoir *Brothers and Keepers* In the postmodern era Feith suggests critics of modernity are not in short supply but few have the depth rigor and thoughtfulness of John Edgar Wideman

Kierkegaard Bibliography Peter Šajda, Jon Bartley Stewart, 2016 **Volume 19, Tome II: Kierkegaard Bibliography** Peter Šajda, Jon Stewart, 2017-03-16 The long tradition of Kierkegaard studies has made it impossible for individual scholars to have a complete overview of the vast field of Kierkegaard research The large and ever increasing number of publications on Kierkegaard in the languages of the world can be simply bewildering even for experienced scholars The present work constitutes a systematic bibliography which aims to help students and researchers navigate the seemingly endless mass of publications The volume is divided into two large sections Part I which covers Tomes I-V is dedicated to individual bibliographies organized according to specific language This includes extensive bibliographies of works on Kierkegaard in some 41 different languages Part II which covers Tomes VI-VII is dedicated to shorter individual bibliographies organized according to specific figures who are in some way relevant for Kierkegaard The goal has been to create the most exhaustive bibliography of Kierkegaard literature possible and thus the bibliography is not limited to any specific time period but instead spans the entire history of Kierkegaard studies [A Study Guide for Elizabeth Bowen's "A Day in the Dark"](#) Gale, Cengage Learning,

Contemporary Rewritings of Liminal Women Miriam Borham-Puyal, 2020-01-15 This book explores the concept of liminality in the representation of women in eighteenth and nineteenth century literature as well as in contemporary rewritings such as novels films television shows videogames and graphic novels In particular the volume focuses on vampires prostitutes quixotes and detectives as examples of new women who inhabit the margins of society and populate its narratives Therefore it places together for the first time four important liminal identities while it explores a relevant corpus that comprises four centuries and several countries Its diachronic transnational and comparative approach emphasizes the representation across time and space of female sexuality gender violence and women's rights also employing a liminal stance in its literary analysis facing the past in order to understand the present By underlining the dialogue between past and present this monograph contributes to contemporary debates on the representation of women and the construction of femininity as opposed to hegemonic masculinity for it exposes the line of thought that has brought us to the present moment hence challenging assumed stereotypes and narratives In addition by using popular narratives and media the present work highlights the value of literature films or alternative forms of storytelling to understand how women's place in society their voice and their presence have been and are still negotiated in spaces of visibility agency and power
