The Choice

Nicholas Sparks, 2015-12-22 Opposites attract in this moving 1 New York Times bestseller of love lost and found between a medical student and the man who captures her heart Travis Parker has everything a man could want a good job loyal friends even a waterfront home in small town North Carolina In full pursuit of the good life boating swimming and regular barbecues with his good natured buddies he holds the vague conviction that a serious relationship with a woman would only cramp his style That is until Gabby Holland moves in next door Despite his attempts to be neighborly the appealing redhead seems to

have a chip on her shoulder about him and the presence of her longtime boyfriend doesn't help. Despite himself, Travis can't stop trying to ingratiate himself with his new neighbor, and his persistent efforts lead them both to the doorstep of a journey that neither could have foreseen. Spanning the eventful years of young love, marriage, and family, *The Choice* ultimately confronts us with the most heart-wrenching question of all: how far would you go to keep the hope of love alive? *Decision Making in Aviation* Don Harris, Wen-Chin Li, 2017-07-05 Decision making pervades every aspect of life; people make hundreds of decisions every day. The vast majority of these are trivial and without a right or wrong answer. In some respects, there is also nothing extraordinary about pilot decision making. It is only the setting that is different; the underlying cognitive processes are just the same. However, it is the context and the consequences of a poor decision which serve to differentiate aeronautical decision making. Decisions on the flight deck are often made with incomplete information and while under time pressure. The implications for inadequate performance are much more serious than in many other professions. Poor decisions are implicated in over half of all aviation accidents. This volume contains key papers published over the last 25 years, providing an overview of the major paradigms by which aeronautical decision making has been investigated. Furthermore, decision making does not occur in isolation. It is a joint function of the flight tasks, knowledge, equipment on the flight deck, and other stressors. In this volume of collected papers, works from leading authors in the field consider all these aspects of aeronautical decision making. **Glenn Beck's Common Sense** Glenn Beck, 2009-06-16 Glenn Beck, the New York Times bestselling author of *The Great Reset*, revisits Thomas Paine's *Common Sense*. In any era, great Americans inspire us to reach our full potential. They know with conviction what they believe within themselves. They understand that all actions have consequences. And they find commonsense solutions to the nation's problems. One such American, Thomas Paine, was an ordinary man who changed the course of history by penning *Common Sense*, the concise 1776 masterpiece in which, through extraordinarily straightforward and indisputable arguments, he encouraged his fellow citizens to take control of America's future and ultimately her freedom. Nearly two and a half centuries later, those very freedoms once again hang in the balance. And now Glenn Beck revisits Paine's powerful treatise with one purpose: to galvanize Americans to see past government's easy solutions, two-party monopoly, and illogical methods, and take back our great country. *A Lifecycle Approach to Knowledge Excellence in the Biopharmaceutical Industry* Nuala Calnan, Martin J. Lipa, Paige E. Kane, Jose C. Menezes, 2017-06-26 This book addresses the rapidly emerging field of Knowledge Management in the pharmaceutical, medical devices, and medical diagnostics industries. In particular, it explores the role that Knowledge Management can play in ensuring the delivery of safe and effective products to patients. The book also provides good practice examples of how the effective use of an organization's knowledge assets can provide a path towards business excellence. *Essentials of Organizational Behavior* Terri A. Scandura, 2020-12-03 Winner of the 2022 Textbook Excellence Award from the Textbook new case studies on important issues such as American Airlines' anti-discrimination protections for LGBTQ workers and the
