Shot In America Television The State And The Rise Of Chicano Cinema:

Shot in America Chon A. Noriega,2000 **Shot in America** Chon A. Noriega,2000 One of the most influential figures in ethnic media studies takes direct aim at how Chicano filmmaking has been represented in the history of media in the United States *Shot in America* tackles seemingly intractable dilemmas involving the political and market functions of film and TV to provide a definitive response to the debates over cultural and racial identity that have embroiled media and cultural studies over the past two decades Noriega offers a compelling and detailed description of an enormous body of work by Chicano media makers against the backdrop of Chicano social movements politics and activism over a forty year period an extraordinary exposition of the civil rights movement media reform activities and public affairs programming that constitutes the prehistory of independent and minority cinemas Noriega reveals the ways in which Chicano and other minority protests both emerged within and were regulated by the very institutions that excluded them *Shot in America* is a study with broad implications for our understanding of cultural politics and the entertainment industries **Border Witness** Michael Dear,2023-02-21 *Border Witness* offers a surprising catalogue of films dealing with the US Mexico border and released during the past 100 years It compares these screen visions with what was happening on the ground at the time in both countries From revolution through to the present global crisis the films are left to speak for themselves but their stories are measured alongside the author's experience following decades of research writing and activism along the line Taken together this book outlines a unique Border Film genre just now entering its Golden Age This book also comes with a message to both nations that they should learn more from borderlanders about how to conduct cross border lives *Aesthetics in a Multicultural Age* Emory Elliott,Lou Freitas Caton,Jeffrey Rhyne,2002-01-10 *Aesthetics in a Multicultural Age* examines a variety of significant multidisciplinary and multicultural topics within the subject of aesthetics Addressing the vexed relation of the arts and criticism to current political and cultural concerns the contributors to this volume attempt to bridge the two decades old gap between scholars and critics who hold conflicting views of the purposes of art and criticism By exploring some of the ways in which global migration and expanding ethnic diversity are affecting cultural productions and prompting reassessment of the nature and role of aesthetic discourse this volume provides a new evaluation of aesthetic ideas and practices within contemporary arts and letters The Migration of Musical Film Desirée J. Garcia,2014-08-01 Movie musicals are among the most quintessentially American art forms often celebrating mobility self expression and the pursuit of one's dreams But like America itself the Hollywood musical draws from many distinct ethnic traditions In this illuminating new study Desirée J Garcia examines the lesser known folk musicals from early African American Yiddish and Mexican filmmakers revealing how these were essential ingredients in the melting pot of the Hollywood musical *The Migration of Musical Film* shows how the folk musical was rooted in the challenges faced by immigrants and migrants who had to adapt to new environments balancing American individualism with family values and cultural traditions Uncovering fresh material

from film industry archives Garcia considers how folk musicals were initially marginal productions designed to appeal to specific minority audiences and yet introduced themes that were gradually assimilated into the Hollywood mainstream No other book offers a comparative historical study of the folk musical from the first sound films in the 1920s to the genre's resurgence in the 1970s and 1980s Using an illustrative rather than comprehensive approach Garcia focuses on significant moments in the sub genre and rarely studied films such as *All en el Rancho Grande* along with familiar favorites that drew inspiration from earlier folk musicals everything from *The Wizard of Oz* to *Zoot Suit* If you think of movie musicals simply as escapist mainstream entertainment *The Migration of Musical Film* is sure to leave you singing a different tune

Toward a More Perfect Rebellion Josslyn Jeanine Luckett, 2025-04-29 *Toward a More Perfect Rebellion* tells the riveting story of the socially engaged filmmakers of color who studied in the Ethno Communications Program at the University of California Los Angeles between 1969 and 1973 While the program is best known for training the trailblazing group of Black directors known as the L A Rebellion this book also includes the radical Asian American Chicana o and Native American filmmakers who collaborated alongside their Black classmates to create one of the most expansive and groundbreaking bodies of work of any US university cohort Through extensive interviews with the filmmakers and cross racial analysis of their collective filmography Josslyn Jeanine Luckett sheds light on a largely untold history of media activists working outside Hollywood yet firmly rooted in Los Angeles aiming their cameras with urgency and tenderness to capture their communities stories of power struggle and improvisational brilliance

Maid for Television L. S. Kim, 2023-08-11 Honorable Mention Association for Asian American Studies Book Award in the Media Performance and Visual Studies category *Maid for Television* examines race class and gender relations as embodied in a long history of television servants from 1950 to the turn of the millennium Although they reside at the visual peripheries these figures are integral to the idealized American family Author L S Kim redirects viewers gaze towards the usually overlooked interface between characters which is drawn through race class and gender positioning *Maid for Television* tells the stories of servants and the families they work for in so doing it investigates how Americans have dealt with difference through television as a medium and a mediator The book philosophically redirects the gaze of television and

its projection of racial discourse **Making Asian American Film and Video** Jun Okada, 2015-03-06 The words Asian American film might evoke a painfully earnest low budget documentary or family drama destined to be seen only in small film festivals or on PBS Public Broadcasting Service In her groundbreaking study of the past fifty years of Asian American film and video Jun Okada demonstrates that although this stereotype is not entirely unfounded a remarkably diverse range of Asian American filmmaking has emerged Yet Okada also reveals how the legacy of institutional funding and the PBS style unites these filmmakers whether they are working within that system or setting themselves in opposition to its conventions Making Asian American Film and Video explores how the genre has served as a flashpoint for debates about what constitutes Asian American identity Tracing a history of how Asian American film was initially conceived as a form of public interest media part of a broader effort to give voice to underrepresented American minorities Okada shows why this seemingly well intentioned project inspired deeply ambivalent responses In addition she considers a number of Asian American filmmakers who have opted out of producing state funded films from Wayne Wang to Gregg Araki to Justin Lin Okada gives us a unique behind the scenes look at the various institutions that have bankrolled and distributed Asian American films revealing the dynamic interplay between commercial and state run media More than just a history of Asian Americans in film Making Asian American Film and Video is an insightful meditation on both the achievements and the limitations of institutionalized multiculturalism **Badmen, Bandits, and Folk Heroes** Juan JosŽ Alonzo, 2009-09-15 Badmen Bandits and Folk Heroes is a comparative study of the literary and cinematic representation of Mexican American masculine identity from early twentieth century adventure stories and movie Westerns through contemporary self representations by Chicano a writers and filmmakers In this deeply compelling book Juan J Alonzo proposes a reconsideration of the early stereotypical depictions of Mexicans in fiction and film rather than viewing stereotypes as unrelentingly negative Alonzo presents them as part of a complex apparatus of identification and disavowal Furthermore Alonzo reassesses Chicano a self representation in literature and film and argues that the Chicano a expression of identity is characterized less by essentialism than by an acknowledgement of the contingent status of present day identity formations Alonzo opens his provocative study with a fresh look at the adventure stories of Stephen Crane and the silent Western movies of D W Griffith He also investigates the conflation of the greaser the bandit and the Mexican revolutionary into one villainous figure in early Western movies and more broadly traces the development of the badman in Westerns He newly interrogates the writings of Am rico Paredes regarding the makeup of Mexican masculinity and productively trains his analytic eye on the recent films of Jim Mendiola and the contemporary poetry of Evangelina Vigil Throughout Badmen Bandits and Folk Heroes Alonzo convincingly demonstrates how fiction and films that formerly appeared one dimensional in their treatment of Mexicans and Mexican Americans actually offer surprisingly multifarious and ambivalent representations At the same time his valuation of indeterminacy contingency and hybridity in contemporary cultural production creates new possibilities for understanding identity formation **Latinx**

Ciné in the Twenty-First Century Frederick Luis Aldama, 2019-09-24 Today's Latinx motion pictures are built on the struggles and victories of prior decades. Earlier filmmakers threw open doors and cleared new paths for those of the twenty-first century to willfully reconstruct Latinx epics as well as the daily tragedies and triumphs of Latinx lives. Twenty-first-century Latinx film offers much to celebrate but, as noted pop culture critic Frederick Luis Aldama writes, there's still room to be purposefully critical. In *Latinx Ciné in the Twenty-First Century*, contributors offer groundbreaking scholarship that does both: bringing together a comprehensive presentation of contemporary film and filmmakers from all corners of Latinx culture. The book's seven sections cover production techniques and evolving genres, profile those behind and in front of the camera, and explore the distribution and consumption of contemporary Latinx films. Chapters delve into issues that are timely, relevant, and influential, including representation or the lack thereof, identity and stereotypes, hybridity, immigration and detention, historical recuperation and historical amnesia. With its capacious range and depth of vision, this timeless volume of cutting-edge scholarship blazes new paths in understanding the full complexities of twenty-first-century Latinx filmmaking.

Sheehan, William Greaves, Scott MacDonald, Jacqueline Najuma Stewart, 2021-06-01 William Greaves is one of the most significant and compelling American filmmakers of the past century. Best known for his experimental film about its own making, *Symbiopsychotaxiplasm: Take One*, Greaves was an influential independent documentary filmmaker who produced, directed, shot, and edited more than a hundred films on a variety of social issues and on key African American figures ranging from Muhammad Ali to Ralph Bunche to Ida B. Wells. A multitasking artist, his career also included stints as a songwriter, a member of the Actors Studio, and during the late 1960s, a producer and cohost of *Black Journal*, the first national television show focused on African American culture and politics. This volume provides the first comprehensive overview of Greaves's remarkable career. It brings together a wide range of material, including a mix of incisive essays from critics and scholars, Greaves's own writings, an extensive meta-interview with Greaves, conversations with his wife and collaborator Louise Archambault, Greaves and his son David, and a critical dossier on *Symbiopsychotaxiplasm*. Together, they illuminate Greaves's mission to use filmmaking as a tool for transforming the ways African Americans were perceived by others and the ways they saw themselves. This landmark book is an essential resource on Greaves's work and his influence on independent cinema and African American culture. **Latino Image Makers in Hollywood** Frank Javier García Berumen, 2016-04-14 Latinos have been part of the Hollywood film industry for more than 100 years, yet beyond the remarkable success of a few, their visibility and clout have generally not
