Shot On The Street:

A Shot In The Dark... Willie Mack, 2010-01-13 When all is said and done one fact remains On the night of May 11 1967 a crowd of protestors marched east on Lynch Street throwing debris at a line of officers Shots rang out several people were wounded one fatally Who fired the shot in the dark that killed Benjamin Brown a supposedly innocent bystander who lost his life on his twenty second birthday Who knows what really happened that night Eyewitnesses gave their accounts then turned around and recanted those statements This book recounts the happenings of that momentous night from an objective eye A true to life account that will hopefully remind us of justice If not bring closure to wounds left by injustice The Death of John Robbins, of Deer Isle, who was Shot in the Streets of Portland by Order of Neal Dow, Mayor, June 2d, 1855 Portland (Me.) Coroner's jury, 1855 *Authorship and Aesthetics in the Cinematography of Gregg Toland* Philip Cowan, 2022-10-03 In this three part book length study of the work of Gregg Toland Philip Cowan explores approaches to co authorship in collaborative filmmaking to propose new ways of identifying attributing and evaluating the creative work of cinematographers In the first part of the study Cowan challenges the dominant director centered auteur approach to film studies critiquing the historical development of authorship theory and providing a contemporary analysis of the cinematographer's authorial role in creating images that communicate meaning through content and construction By synthesizing and updating the work of previous film theorists to define the complexities of composition movement and lighting in the second part of the study Cowan develops a new comprehensive taxonomy of functional and aesthetic elements of the moving image Finally by using the co author approach and the analytical tools developed in part two of the book Cowan provides an in depth re examination of Toland's work highlighting the historical neglect of the cinematographer's artistic contribution to filmmaking and developing a fresh approach to the analysis of contemporary cinematography in film

Court of Appeals, Hiram Edward Sickels, 1916 **The Orange Riots** Michael A. Gordon, 2018-07-05 In this book Michael A Gordon examines the causes and consequences of the tragic and bloody Orange Riots that rocked New York City in 1870 and 1871 On July 12 of both years groups of Irish Catholics clashed with Irish Protestants marching to commemorate the victory of 1690 at the Battle of the Boyne that confirmed the Protestant Ascendancy in Ireland The violence of 1870 left eight people dead the following year more than sixty died Reconstructing the events of July 12 in those years Gordon provides a riveting and richly detailed account of the riots He maintains that they stemmed from more than religious hatred or generations of oppression in Ireland Rather both years bear witness to a struggle between two profoundly different visions of the promise of America a re creation of European social classes or a form of life liberated from the constraints and stratifications of the Old World These visions were enmeshed in the turbulent ideological and political confrontations arising from industrialization and newly found immigrant power under New York City's notorious mayor

William Marcy Boss Tweed Gordon concludes by showing how the riots sparked a reform movement that toppled Tweed from power and led to the restructuring of city politics in the 1870s A Street Photography Manifesto Brian Lloyd Duckett, 2025-06-05
