Debating the Death Penalty Hugo Adam Bedau, Paul G. Cassell, 2005-03-24 When news breaks that a convicted murderer released from prison has killed again or that an innocent person has escaped the death chamber in light of new DNA evidence arguments about capital punishment inevitably heat up Few controversies continue to stir as much emotion as this one and public confusion is often the result This volume brings together seven experts judges lawyers prosecutors and philosophers to debate the death penalty in a spirit of open inquiry and civil discussion Here as the contributors present their reasons for or against capital punishment the multiple facets of the issue are revealed in clear and thought provoking detail Is the death penalty a viable deterrent to future crimes Does the imposition of lesser penalties such as life imprisonment truly serve justice in cases of the worst offences Does the legal system discriminate against poor or minority defendants Is the possibility of executing innocent persons sufficient grounds for abolition In confronting such questions and making their arguments the contributors marshal an impressive array of evidence both statistical and from their own experiences working on death penalty cases The book also includes the text of Governor George Ryan's March 2002 speech in which he explained why he had commuted the sentences of all prisoners on Illinois's death row By representing the viewpoints of experts who face the vexing questions about capital punishment on a daily basis *Debating the Death Penalty* makes a vital contribution to a more nuanced understanding of the moral and legal problems underlying this controversy

Penalty : Should America Have Capital Punishment? The Experts on Both Sides Make Their Best Case Hugo Adam Bedau Professor of Philosophy Tufts University (Emeritus), Paul G. Cassell Professor of Law University of Utah College of Law, 2004-02-05 When news breaks that a convicted murderer released from prison has killed again or that an innocent person has escaped the death chamber in light of new DNA evidence arguments about capital punishment inevitably heat up Few controversies continue to stir as much emotion as this one and public confusion is often the result This volume brings together seven experts judges lawyers prosecutors and philosophers to debate the death penalty in a spirit of open inquiry and civil discussion Here as the contributors present their reasons for or against capital punishment the multiple facets of the issue are revealed in clear and thought provoking detail Is the death penalty a viable deterrent to future crimes Does the imposition of lesser penalties such as life imprisonment truly serve justice in cases of the worst offences Does the legal system discriminate against poor or minority defendants Is the possibility of executing innocent persons sufficient grounds for abolition In confronting such questions and making their arguments the contributors marshal an impressive array of evidence both statistical and from their own experiences working on death penalty cases The book also includes the text of Governor George Ryan's March 2002 speech in which he explained why he had commuted the sentences of all prisoners on Illinois's death row By representing the viewpoints of experts who face the vexing questions about capital punishment on a daily basis *Debating the Death Penalty* makes a vital contribution to a more nuanced understanding of the moral and legal

problems underlying this controversy The Problem with Capital Punishment and Why It Should Be Abolished in America Vincent R. Jones Sr.,2023-11-06 One of the most controversial subjects in criminal law is whether or not we should continue to use capital punishment as the ultimate punitive sanction The intended focus of The Problem with Capital Punishment and Why It Should Be Abolished in America is to take a harsh critical look at theories in support of the use of this form of punishment and expose the truth about capital punishment it is extremely costly it is arbitrarily applied there have been too many innocent persons exonerated from death row and the only consistency with execution seems to be that of the mentally ill the poor and those without adequate legal representation and by using methods that are inhumane and cruel and unusual This book shows that our current system of capital punishment is fraught with error insanely expensive and administered in such a manner that the possibility of executing a completely innocent person is not only possible but likely if we continue upon our present course After reading this book the reader will be left with no reasonable doubt that the time has come to abolish capital punishment in America **Capital Punishment** United States. Congress. House. Committee on the Judiciary. Subcommittee No. 3,1972 Questioning Capital Punishment James R. Acker,2014-06-13 The death penalty has inspired controversy for centuries Raising questions regarding capital punishment rather than answering them Questioning Capital Punishment offers the footing needed to allow for more informed consideration and analysis of these controversies Acker edits judicial decisions that have addressed constitutional challenges to capital punishment and its administration in the United States and uses complementary materials to offer historical empirical and normative perspectives about death penalty policies and practices This book is ideal for upper level undergraduate and graduate classes in criminal justice Capital Punishment Lill Scherdin,2016-04-08 As most jurisdictions move away from the death penalty some remain strongly committed to it while others hold on to it but use it sparingly This volume seeks to understand why by examining the death penalty s relationship to state governance in the past and present It also examines how international transnational and national forces intersect in order to understand the possibilities of future death penalty abolition The chapters cover the USA the only western democracy that still uses the death penalty and Asia the site of some 90 per cent of all executions Also included are discussions of the death penalty in Islam and its practice in selected Muslim majority countries There is also a comparative chapter departing from the response to the mass killings in Norway in 2011 Leading experts in law criminology and human rights combine theory and empirical research to further our understanding of the relationships between ways of governance the role of leadership and the death penalty practices This book questions whether the death penalty in and of itself is a hazard to a sustainable development of criminal justice It is an invaluable resource for all those researching and campaigning for the global abolition of capital punishment **Capital Punishment** United States. Jacquette,2009-02-04 One in the series New Dialogues in Philosophy edited by the author himself Dale Jacquette presents a fictional dialogue over a three day period on the ethical complexities of capital punishment Jacquette moves his readers from outlining basic issues in matters of life and death to questions of justice and compassion with a concluding dialogue on the conditional and unconditional right to life Jacquette s characters talk plainly and thoughtfully about the death penalty and readers are left to determine for themselves how best to think about the morality of putting people to death Report of the Capital Punishment Commission ,1866 The Spectator ,1870 Capital Punishment United States. House of Commons,1924 *Routledge Handbook on Capital Punishment* Robert M. Bohm,Gavin Lee,2017-12-15 Capital punishment is one of the more controversial subjects in the social sciences especially in criminal justice and criminology Over the last decade or so the United States has experienced a significant decline in the number of death sentences and executions Since 2007 eight states have abolished capital punishment bringing the total number of states without the death penalty to 19 plus the District of Columbia and more are likely to follow suit in the near future Nebraska reinstated its death penalty in 2016 Worldwide 70 percent of countries have abolished capital punishment in law or in practice The current trend suggests the eventual demise of capital punishment in all but a few recalcitrant states and countries Within this context a fresh look at capital punishment in the United States and worldwide is warranted The Routledge Handbook on Capital Punishment comprehensively examines the topic of capital punishment from a wide variety of perspectives A thoughtful introductory chapter from experts Bohm and Lee presents a contextual framework for the subject matter and chapters present state of the art analyses of a range of aspects of capital punishment grouped into five sections 1 Capital Punishment History Opinion and Culture 2 Capital Punishment Rationales and Religious Views 3 Capital Punishment and Constitutional Issues 4 The Death Penalty s Administration and 5 The Death Penalty s Consequences This is a key collection for students taking courses in prisons penology criminal justice criminology and related subjects and is also an essential reference for academics and practitioners working in prison service or in related agencies New Developments in Psychological Testing Robert A. Degregorio,2007 Psychological testing has grown exponentially as technological advances have permitted it to and societal complexities have necessitated it s growth This book presents the research in this field **Capital Punishment: New Perspectives** Peter Hodgkinson,2016-04-08 This collection asks questions about the received wisdom of the debate about capital punishment Woven through the book questions are asked of

and remedies proposed for a raft of issues identified as having been overlooked in the traditional discourse. It provides a long overdue review of the disparate groups and strategies that lay claim to abolitionism. The authors argue that capital litigators should use their skills challenging the abuses not just of process but of the conditions in which the condemned await their fate: namely prison conditions, education, leisure, visits, medical services, etc. In the aftermath of successful constitutional challenges, it is the beneficiaries, arguably those who are considered successes having been saved from the death penalty and now serving living death penalties of one sort or another who are suffering the cruel and inhumane alternative. Part I of the book offers a selection of diverse nuanced examinations of death penalty phenomena, scrutinizing complexities frequently omitted from the narrative of academics and activists. It offers a challenging and comprehensive analysis of issues critical to the abolition debate. Part II offers examinations of countries usually absent from academic analysis to provide an understanding of the status of the debate locally with opportunities for wider application.
