abortion as part of a concept of social justice The author compares the behavior of those who experience an unwanted pregnancy with those who do not and explains that abortion is seen by Swedes as part of the provision of the welfare and social justice system Included is an examination of the sexual behavior of young people the age of their first sexual experience the circumstances surrounding it whether positive parental involvement in their children s lives has any influence on their sexual conduct and sex education programs in the schools This translation of Zetterberg s study has been prepared by British sociologist Graham Fennell who also authored a new introduction positioning Zetterberg s work in the history of sex research and comparing its findings with contemporary studies in Scandinavia Western Europe and North America In light of the ongoing controversies about sex education its conclusions remain relevant to policy discussions today Sexual Health: Psychological foundations Mitchell Tepper, Annette Fuglsang Owens, 2007
