**Sibirisches Tagebuch.** Edwin Erich Dwinger, 1965 **POWs and the Great War** Alon Rachamimov, 2014-03-04 Joint Winner of Fraenkel Prize for Contemporary History 2001 London Winner of Talmon Prize Israel awarded by the Israeli Academy of Sciences Although it was one of the most common experiences of combatants in World War I captivity has received only a marginal place in the collective memory of the Great War and has seemed unimportant compared with the experiences of soldiers on the Western Front Yet this book focusing on POWs on the Eastern Front reveals a different picture of the War and the human misery it produced During four years of fighting approximately 8.5 million soldiers were taken captive of whom nearly 2.8 million were Austro-Hungarians This book is the first to consider in depth the experiences of these prisoners during their period of incarceration How were POWs treated in Russia What was the relationship between prisoners and their home state How were concepts of patriotism and loyalty employed and understood Drawing extensively on original letters and diaries Rachamimov answers these and other searching questions In the process major omissions in previous historiography are addressed Anyone wishing to have a rounded history of the Great War will find this book fills a major gap

How Russia Is Not Ruled Allen C. Lynch, 2005-01-10 The state remains as important to Russia's prospects as ever This is so not only because as in any society an effectively functioning state administration is necessary to the proper functioning of a complex economy and legal system but also because in Russian circumstances factors of economic geography tend to increase costs of production compared to the rest of the world These mutually reinforcing factors include the extreme severity of the climate the immense distances to be covered the dislocation between European population centers and Siberian natural resource centers and the inevitable predominance of relatively costly land transportation over sea-borne transportation As a result it is questionable whether Russia can exist as a world civilization under predominantly liberal economic circumstances in a unified liberal global capital market large-scale private direct capital investment will not be directed to massive outdoor infrastructure projects typical of state investment in

Gross, 2018-09-28 Although much has been written about the Western Front in World War I little attention has been given to developments in the east especially during the crucial period of 1914 1915 Not only did these events have a significant impact on the fighting and outcome of the battles in the west but all the major combatants in the east ultimately suffered collapses of their political systems with enormous consequences for the future events Available for the first time in English this seminal study features contributions from established and rising scholars from eight countries who argue German central and eastern European perspectives Together they illuminate diverse aspects

of the Great War's Eastern Theater including military strategy and combat issues of national identity formation perceptions of the enemy and links to World War II They also explore the experiences of POWs and the representation of the Eastern Front in museums memorials and the modern media The scholarship on the First World War is dominated by the trauma of the modern technologized war in the west causing the significant political events and battles on the Eastern Front to shift to the background The Forgotten Front illuminates overlooked but vital aspects of the conflict and will be an essential resource for students and scholars seeking to better understand the war and its legacy

**Europe on the move** Peter Gatrell, Lyubov Zhvanko, 2017-06-26 Mass population displacement affected millions of Europe's civilians across the different theatres of war in 1914-18 At the end of the war a senior Red Cross official wrote there were refugees everywhere It was as if the entire world had to move or was waiting to move Europe on the move refugees in the era of the Great War 1912-23 is the first attempt to understand their experiences as a whole and to establish the political social and cultural significance and ramifications of the wartime refugee crisis Drawing on original research by leading specialists from more than a dozen countries it will become the definitive work on the subject and will appeal to anyone who wishes to understand how governments and public opinion responded to refugees a century ago

Hitler's War Poets Jay W. Baird, 2008 Jay W Baird demonstrates how poets and writers responded enthusiastically to Hitler's summons to artists to create a cultural revolution commensurate with the political radicalism of the new state

*The Russian Revolution and Civil War 1917-1921* Jonathan Smele, 2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves However until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature The Russian Revolution and Civil War 1917-1921 offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history The Bibliography focuses on the key years of 1917 to 1921 starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921 and covers all the key events of the intervening years As such it identifies these crucial years as something more than simply the creation of a communist state

**Concentration Camps** Alan Kramer, 2025-03-26 A global and comprehensive history of a modern institution of inhumanity In popular perception concentration camps are synonymous with genocide and Nazi racial extermination Yet concentration camps were and are a global phenomenon not restricted to Nazi Germany used at times even by democracies with an astonishing range of functions Drawing together a wide range of multi-lingual archival research and synthesising a broad secondary literature Alan Kramer provides here a comprehensive history of concentration camps charting their first establishment at the beginning of the twentieth century on the colonial periphery through their most extreme and inhuman instances in the mid twentieth century to their continued use today Concentration camps are shown to be a truly

transnational phenomenon that emerged both simultaneously within and between imperial spheres Britain Spain the USA and Germany around 1900 and diachronically from then to the First World War the Gulag and Nazi camps Such camps existed and exist under a variety of regimes often concomitant with empire building by revolutionary dictatorships as sites of genocide mass murder and performative violence but also as central elements of utopian schemes of social and racial transformation Integrating the perspective of perpetrators and the victims and contextualising them within the historiography of other carceral institutions the book will reshape the way we think about concentration camps as part of modern civilization past and present

**Captivity, Forced Labour and Forced Migration in Europe during the First World War** Matthew Stibbe, 2013-09-13 The notion of the First World War as the great seminal catastrophe Urkatastrophe of the twentieth century is now firmly established in historiography Yet astonishingly little has been written about the fate of non combatants in occupied and non occupied territory including civilian internees deportees expellees and disarmed military prisoners This volume brings together experts from across Europe to consider the phenomena of captivity forced labour and forced migration during and immediately after the years 1914 to 1918 Each contribution offers a European wide perspective thus moving beyond interpretations based on narrow national frameworks or on one of the fighting fronts alone Particular emphasis is placed on the way in which the experience of internees forced labourers and expellees was mediated by specific situational factors and by the development of war cultures and mentalities at different stages in the respective war efforts Other themes considered include the recruitment and deployment of colonial troops in Europe and efforts to investigate monitor and prosecute alleged war crimes in relation to the mistreatment of civilians and POWs The final contribution will then consider the problems associated with repatriation and the reintegration of returning prisoners after the war This book was published as a special issue of Immigrants and Minorities
