**Sibton Abbey Cartularies and Charters** Sibton Abbey, 1985 A wealth of surviving documents provide an unusually comprehensive overview of this Cistercian house      Sibton Abbey Cartularies and Charters Sibton Abbey, 1988      Charters of St. Bartholomew's Priory, Sudbury Richard Mortimer, 1996 Original documents relating to minor foundation illustrate lower levels of local society and government of the town The Benedictine priory of St Bartholomew outside Sudbury was a cell of Westminster Abbey founded in the reign of Henry I by Wulfric the moneyer Although a small and poorly endowed establishment it has nevertheless and unusually left over 130 original documents in the muniments at Westminster enabling this volume in the Suffolk Charters series to be the first to be devoted to a group of original documents rather than medieval transcriptions Dating mostly from the thirteenth and early fourteenth centuries the collection illustrates the lower levels of local society and the government of the town providing a wealth of evidence for trades and occupations place names and personal names in the Sudbury area including the earliest known reeves and mayors of Sudbury Of particular interest are a late fourteenth century inventory of the priory which brings alive the physical surroundings of the monks and the quantities of seals attached to the charters including an unusual number of women s seals RICHARD MORTIMER has been Keeper of the Muniments Westminster Abbey since 1986 he has edited four previous volumes in the Suffolk Charters series monks and the quantities of seals attached to the charters including an unusual number of women s seals RICHARD MORTIMER has been Keeper of the Muniments Westminster Abbey since 1986 he has edited four previous volumes in the Suffolk Charters series monks and the quantities of seals attached to the charters including an unusual number of women s seals RICHARD MORTIMER has been Keeper of the Muniments Westminster Abbey since 1986 he has edited four previous volumes in the Suffolk Charters series      **Wind, Water, Work** Adam Lucas, 2006 This book is the most comprehensive empirical study to date of the social and technical aspects of milling during the ancient and medieval periods Drawing on the latest archaeological evidence and historical studies the book examines the chronological development and technical details of handmills beast mills watermills and windmills from the first millennium BCE to c 1500 It discusses the many and varied uses to which mills were turned in the civilisations of Rome China Islam and Europe and the many types of mill that existed The book also includes comparative regional studies of the social and economic significance of milling and tackles several important historiographical issues such as whether technological stagnation was a characteristic of late Antiquity whether there was an industrial revolution in the European Middle Ages based on waterpower and how contemporary studies in the social shaping of technology can shed light on the study of pre modern technology      **Suffolk in the Middle Ages** Norman Scarfe, 2007 Norman Scarfe explores place names the Sutton Hoo ship burial the coming of Christianity and the abbey at

Bury St Edmunds concluding with an evocative study of five Suffolk places Southwold Dunwich Yoxford and Wingfield and Fressingfield The modern landscape of Suffolk is still essentially a medieval one though much of it is even earlier the five hundred medieval churches and ten thousand listed houses of historic or architectural interest and the Hundred lanes going back at least to the tenth century are often found to be set in a landscape created before the Roman conquest Suffolk in the Middle Ages opens with a discussion of the earliest written records the place names as a guide to settlement patterns including the setting of Sutton Hoo Among the grave goods found in that celebrated ship and discussed here was the whetstone sceptre asked to carry it from its showcase in the British Museum to the laboratory the author acknowledges a closer feeling of involvement even than helping to re open the ship in its mound in 1966 His explanation of the presence of the whetstone sceptre printed here has never been challenged The identification of a carved Anglo Saxon cross at Iken in 1977 prompted the essay here on St Botolph and the coming of East Anglian Christianity This leads to a consideration of the Danish invasion of East Anglia and a reexamination of the posthumous victory of King Edmund and Christianity as portrayed in an imaginary Breckland warren on the front of this book Scarfe s carefully reasoned argument that the Metropolitan Museum s famous walrusivory cross was made for the monks choir at Bury has never been refuted Life in Bury abbey is vividly reconstructed it was the most richly documented flowering of the work of East Anglia s apostles Felix and Fursa which also led to the phenomenal establishment in Suffolk by 1086 of four hundred of the five hundred medieval churches In four East Suffolk essays Southwold Dunwich Yoxford and Wingfield are exposed to Norman Scarfe s interpretativeskills He reveals a past few could have guessed at often quite as curious as the Two Strange Tales unravelled in his concluding pages

Ecclesiastical Lordship, Seigneurial Power and the Commercialization of Milling in Medieval England Adam Lucas, 2016-04-29 This is the first detailed study of the role of the Church in the commercialization of milling in medieval England Focusing on the period from the late eleventh to the mid sixteenth centuries it examines the estate management practices of more than thirty English religious houses founded by the Benedictines Cistercians Augustinians and other minor orders with an emphasis on the role played by mills and milling in the establishment and development of a range of different sized episcopal and conventual foundations Contrary to the views espoused by a number of prominent historians of technology since the 1930s the book demonstrates that patterns of mill acquisition innovation and exploitation were shaped not only by the size wealth and distribution of a house s estates but also by environmental and demographic factors changing cultural attitudes and legal conventions prevailing and emergent technical traditions the personal relations of a house with its patrons tenants servants and neighbours and the entrepreneurial and administrative flair of bishops abbots priors and other ecclesiastical officials The Crown Pleas of the Suffolk Eyre of 1240 Eric Gallagher, H. R. T. Summerson, 2021 The eyre was an organised judicial visitation to the counties of England by the King s justices to hear all types of plea civil and crown as well as to investigate any matters for the King that pertain to the county it was thus a hugely important part of the

legal and administrative process whereas the civil pleas deal primarily with litigation between landowners the crown pleas are mostly concerned with the actions of townsmen and peasants recorded both as killers and thieves and as the victims of crime back cover Domesday Descendants K. *Harvesting the Air* Edward J. Kealey, 2023-11-15 *Harvesting the Air* Windmill Pioneers in Twelfth Century England examines the emergence of the Western windmill in the early twelfth century highlighting its transformative effects on society This study weaves together the stories of forgotten yet influential figures who championed exploited or resisted this groundbreaking technology which revolutionized land reclamation and agricultural productivity The invention of the windmill spurred debates on topics ranging from ecclesiastical authority to labor distribution illustrating the profound and multifaceted impacts of this mechanical innovation By tracing these debates and the individuals who influenced them the book provides a vivid narrative of four generations navigating the winds of change Although windmills largely vanished with the advent of electricity the energy crisis of 1973 sparked renewed interest in their potential Research into Anglo Norman documents reveals a treasure trove of information about the earliest windmills and the visionaries behind them These medieval pioneers both altruistic and opportunistic pioneered labor saving techniques and fostered commercial enterprise embodying a deep rooted belief in the connection between mechanical ingenuity and communal well being Despite their humility preventing significant recognition in their era their contributions are more relevant than ever as we strive for energy independence This work celebrates their legacy connecting the past s ingenuity to present day sustainability efforts This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1987 Annual Bibliography of British and Irish History , 1988 *The Life and Passion of William of Norwich* Thomas of Monmouth, 2014-09-25 A fascinating surviving chronicle from 12th century England which holds a unique and terrible place in the history of anti Semitism *The Life and Passion of William of Norwich* gives a remarkable insight into life in a medieval cathedral city brilliantly capturing the everyday concerns of ordinary people and focussing on the miraculous cures carried out at a shrine But this was no ordinary shrine fervent worshippers gathered around the burial place where they believed that a boy was buried a boy murdered by the Jews of Norwich A chilling highly significant document *The Life and Passion of William of Norwich* is as far as we know the earliest version of what was to become the blood libel which has haunted Europe ever since Miri Rubin both superbly translates the book and in her introduction interprets the sequence of events that led to the monk Thomas of Monmouth s appalling narrative The consequences of his

fantasies have been incalculable      **Naming the People of England, c.1100-1350** Dave Postles, 2020-05-15 Medieval historians have for some time recognized the significance of personal naming processes and patterns for the illumination of social relations such as kinship and spiritual kinship or godparenthood Increasingly they are employing the investigation of personal naming anthroponymy as part of their elucidation of cultural change attempting through changes in patterns of personal naming to discern cultural transitions and transformations Recent coordinated research on the European continent has produced major collaborative discussion of the cultural implications of naming in France the Iberian peninsular and Italy The fruits of new research into the Germanic lands have also richly enhanced our understanding of cultural change there So it is predicated that a new trans European culture arose in the centuries about and after the year 1000 Omitted from this coordinated understanding of the arrival of a new European cultural tradition as it came to persist is the British archipelago We are however far from devoid of scholarly examination of the culture of personal naming in the British Isles An older generation of linguists produced a basic foundation although it has not remained free of some criticism Subsequently several scholars have independently advanced the interpretive analysis Clark Fellows Jensen Insley and McClure At one level then this book attempts a synthesis of that previous highly valuable but diffuse research to make it more widely known understood and accessible At another level nonetheless it engages with what has become a prevailing narrative of cultural change in England after the Norman Conquest the rapid transformation of English naming and culture through the assimilation of a new dominant extraneous influence By reinserting the detail and complexity it is hoped to demonstrate that far from a single uniform homologous culture there existed residual even resistant and regional cultures The account it is hoped presents a cohesive new narrative of the cultural implications of personal naming in England whilst also addressing important issues of gender politics and social organization      **Domesday People: Domesday book** K. Dating Undated Medieval Charters Michael Gervers, 2002 Many of the millions of medieval charters surviving in European archives and repositories were written without any reference to a date of issue The proliferation of undated charters in England and Normandy indicates that the custom was especially peculiar to lands under Norman rule but charters issued by major religious houses are often also undated The DEEDS Project at the University of Toronto has developed a computerised methodology for dating charters relying on analysis of vocabulary syntax and formulae In this volume an international group of scholars concerned with the problem of charter chronology consider the potential of the computerised methodology compared to other more traditional methods of dating such as identification of names changing in wording and address and handwriting Discussion also touches on regional differences in the production use and distribution of charters and on ways both manual and mechanical to date and analyse the content of large numbers of them MICHAEL GERVERS is Director of the DEEDS Project at the University of Toronto Canada Contributors MICHAEL GERVERS RODOLFO FIALLOS MARJORIE CHIBNALL V RONIQUE GAZEAU BENOIT MICHEL TOCK NICHOLAS VINCENT GEORGES DECLERCQ ZSOLT HUNYADIR ATTILA ZSOLDOS MARIA HILLEBRANDT TREVOR CHALMERS LAZSLO VESZPRMI P D A HARVEY ANDRAS GRYNÆUS JOZSEF PALFY

**Charters Duchess Constance Br** Judith Everard, Michael C. E. Jones, 1999 Ducal charters illuminate politics external relations and the conduct of government and also Breton society and institutions The indispensable charter collection for the Breton lands in the complex period of the break up of the Angevin hegemony ENGLISH HISTORICAL REVIEW Around 1200 sovereignty over the duchy of Brittany was disputed by the Angevin kings of England and the Capetian kings of France With few local chronicle sources concerning Brittany in this important period ducal charters provide crucial evidence for politics external relations and the conduct of government They are also an essential source for Breton society and institutions in a period of rapid

change and development Collected here for the first time are the acts of Duchess Constance 1171-1201 her mother dowager duchess Margaret of Scotland Constance's three husbands Geoffrey son of King Henry II Ranulf III earl of Chester and Guy de Thouars and her three children Eleanor Arthur of Brittany and Alice who succeeded in 1213 to a duchy under Capetian sovereignty The subject matter concerns not only Brittany but also the Breton rulers extensive lands in England the honour of Richmond and even the counties of Anjou Maine and Touraine while they were under Arthur's rule The charters are also of wider general significance for the light they cast on the exercise of political power by female rulers

*The English and the Normans* Hugh M. Thomas, 2003-04-10 Since the Anglo Norman period itself the relations between the English and the Normans have formed a subject of lively debate For most of that time however complacency about the inevitability of assimilation and of the Anglicization of Normans after 1066 has ruled This book first challenges that complacency then goes on to provide the fullest explanation yet for why the two peoples merged and the Normans became English Drawing on anthropological theory the latest scholarship on Anglo Norman England and sources ranging from charters and legal documents to saints lives and romances it provides a complex exploration of ethnic relations on the levels of personal interaction cultural assimilation and the construction of identity As a result the work provides an important case study in pre modern ethnic relations that combines both old and new approaches and sheds new light on some of the most important developments in English history
