In *New Perspectives on Healing Restoration and Reconciliation in John's Gospel* Jacobus Kok investigates the depth and applicability of Jesus healing narratives in John's gospel Against the background of an ancient group oriented worldview it goes beyond the impasse of most Western approaches to interpreting the Biblical healing narratives to date He argues that the concept of healing was understood in antiquity as in some parts of Africa in a much broader way than we tend to understand it today He shows inter alia why the interaction between Jesus and the Samaritan woman could be interpreted as a healing narrative illustrating the ancient interrelationship between healing restoration and reconciliation **Indigenous Theories of Contagious Disease** Edward C. Green, 2000-01-01

Far from being the province of magic witchcraft and sorcery indigenous understanding of contagious disease in Africa and elsewhere in the developing world very often parallels western concepts of germ theory according to the author Labeling this indigenous contagion theory ICT Green synthesizes the voluminous ethnographic work on tropical diseases and remedies\_ as well as 20 years of his own studies and interventions on sexually transmitted diseases AIDS and traditional healers in southern Africa\_ to demonstrate how indigenous peoples generally conceive of contagious diseases as having naturalistic causes His groundbreaking work suggests how western medical practitioners can incorporate ICT to better help native peoples control contagious diseases **Nursing History Review, Volume 7, 1999** Joan E.
