**Sicuanga Runa** Norman Earl Whitten (Jr.),1985      **The Napo Runa of Amazonian Ecuador** Michael

Uzendoski,2010-10-01 Michael Uzendoski's theoretically informed work analyzes value from the perspective of the Napo Runa people of the Amazonian Ecuador Based upon historical and archival research as well as the author's years of fieldwork in indigenous communities The Napo Runa of Amazonian Ecuador presents theoretical issues of value poetics and kinship as linked to the author's intersubjective experiences in Napo Runa culture Drawing on insights from the theory of gift and value Uzendoski argues that Napo Runa culture personifies value by transforming things into people through a process of subordinating them to human relationships While many traditional exchange models treat the production of things as inconsequential the Napo Runa understand production to involve a relationship with natural beings plants animals and spirits of the forest that they believe share spiritual substance or samai Value is the outcome of a complicated poetics of transformation by which things and persons are woven into kinship forms that define daily social and ritual life

Playing with Things Mary Weismantel,2021-08-17 Winner Association for Latin American Art Arvey Foundation Book Award 2022 More than a thousand years ago on the north coast of Peru Indigenous Moche artists created a large and significant corpus of sexually explicit ceramic works of art They depicted a diversity of sex organs and sex acts and an array of solitary and interconnected human and nonhuman bodies To the modern eye these Moche sex pots as Mary Weismantel calls them are lively and provocative but also enigmatic creations whose import to their original owners seems impossible to grasp In Playing with Things Weismantel shows that there is much to be learned from these ancient artifacts not merely as inert objects from a long dead past but as vibrant Indigenous things alive in their own inhuman temporality From a new materialist perspective she fills the gaps left by other analyses of the sex pots in pre Columbian studies where sexuality remains marginalized and in sexuality studies where non Western art is largely absent Taking a decolonial approach toward an archaeology of sexuality and breaking with long dominant iconographic traditions this book explores how the pots play jokes make babies give power and hold water considering the sex pots as actual ceramic bodies that interact with fleshly bodies now and in the ancient past A beautifully written study that will be welcomed by students as well as specialists Playing with Things is a model for archaeological and art historical engagement with the liberating power of queer theory and Indigenous studies

Images of Public Wealth or the Anatomy of Well-Being in Indigenous Amazonia Fernando

Santos-Granero,2015-11-26 What is considered a good life in contemporary societies Can we measure well being and happiness Reflecting a global interest on the topics of well being happiness and the good life in the face of the multiple failures of millennial capitalism Images of Public Wealth or the Anatomy of Well Being in Indigenous Amazonia deliberately appropriates a concept developed by classical economists to understand wealth accumulation in capitalist societies in order to denaturalize it and assess its applicability in non capitalist kin based societies Mindful of the widespread discontent

generated by the ongoing economic crisis in postindustrial societies as well as the renewed attempts by social scientists to measure more effectively what we consider to be development and economic success the contributors to this volume contend that the study of public wealth in indigenous Amazonia provides not only an exceptional opportunity to apprehend native notions of wealth poverty and the good life but also to engage in a critical revision of capitalist constructions of living well Through ethnographic analysis and thought provoking new approaches to contemporary and historical cases the book s contributors reveal how indigenous views of wealth based on the abundance of intangibles such as vitality good health biopower and convivial relations are linked to the creation of strong productive and moral individuals and collectivities differing substantially from those in capitalist societies more inclined toward the avid accumulation and consumption of material goods

**Shamanism, Colonialism, and the Wild Man** Michael Taussig, 2008-06-20 Working with the image of the Indian shaman as Wild Man Taussig reveals not the magic of the shaman but that of the politicizing fictions creating the effect of the real This extraordinary book will encourage ever more critical and creative explorations Fernando Coronil *I American Journal of Sociology* I Taussig has brought a formidable collection of data from arcane literary journalistic and biographical sources to bear on questions of evil torture and politically institutionalized hatred and terror His intent is laudable and much of the book is brilliant both in its discovery of how particular people perpetrated evil and others interpreted it Stehen G Bunker *Social Science Quarterly* [Cultural Diversity in the Armed Forces](#) Joseph L. **The Ecotourism-Extraction Nexus** Bram Büscher, Veronica Davidov, 2013-08-15 Ecotourism and natural resource extraction may be seen as contradictory pursuits yet in reality they often take place side by side sometimes even supported by the same institutions Existing academic and policy literatures generally overlook the phenomenon of ecotourism in areas concurrently affected by extraction industries but such a scenario is in fact increasingly common in resource rich developing nations This edited volume conceptualises and empirically analyses the ecotourism extraction nexus within the context of broader rural and livelihood changes in the places where these activities occur The volume's central premise is that these seemingly contradictory activities are empirically and conceptually more alike than often imagined and that they share common ground in ethnographic lived experiences in rural settings and broader political economic structures of power and control The book offers theoretical reflections on why ecotourism and natural resource extraction are systematically decoupled and epistemologically and analytically re links them through ethnographic case studies drawing on research from around the world It should be of interest to students and professionals engaged in the disciplines of geography anthropology and development studies *Ethnicity and the State* Judith D. Toland, 2017-07-28 Modern states have evolved as complex political structures in which unitary forms of government maintain an uncertain equilibrium with ethnically plural societies

Historically ruling elites have tried with little success to eradicate ethnicity through genocide bury it under accusations of tribalism discredit it with the mind frame of modernization or confine it to local rather than national political arenas This broad ranging volume examines the dynamics of ethnic manipulation and accommodation by dominant and subordinate groups in the state building process Ethnicity and the State reflects the widely varying political contexts and cultures in which reasons of state contend with unyielding ethnic allegiances European South American Asian and Middle Eastern examples reveal a consistent set of themes and attitudes The authors find that while the state must realize its authority and stability through a strictly defined charter of rights and values ethnic identity exercises its power more freely and flexibly The sense of peoplehood may be artificially constructed in response to immediate need or it may be ancient and organic growing over time It has the potential to cut across race class and gender Its central tenets and myths may be reinterpreted recreated enlarged upon or modified as the political situation warrants Flexibility of belief and the need to identify with a larger group account both for the durability of ethnic loyalty and its vulnerability to manipulation This volume is particularly timely at a moment when national governments in many parts of the world must face the adoption of more equitable forms of rule to hold their ethnically diverse societies together Taken together the analyses presented here warn against institutionalizing ethnic strife and offer a vision of how the state may foster expectations and policies that serve the interests of all ethnic groups within their borders Political scientists historians and anthropologists will find this book valuable for its interpretations of forces that continue to reshape the social and political fabric of the world **Blackness in Latin**

contours of European indigenous encounters and processes of colonization      Gender, Drink and Drugs Maryon McDonald, 2020-08-18 Why do so many people feel compelled to drink alcohol or take drugs And why do so many men drink and so many women refrain Using ideas from social anthropology this book attempts to provide a novel answer to these questions The introduction surveys both gender and addiction It points out that we cannot say what men or women are really like in any culturally innocent sense for gender is always even in the realm of biology a cultural matter The ethnographic chapters ranging from Ancient Rome to modern Japan similarly suggest how any substance from alcohol to tea to heroin inevitably takes its meaning or reality in the cultural system in which it exists This book will be of interest to medical anthropologists medical sociologists anyone with an interest in the contemporary direction of anthropology as well as those working in the fields of alcohol and addiction      *The Presented Past* B. L. Molyneaux, P. G. Stone, 2003-09-02 The Presented Past is concerned with the differences between the comparatively static well understood way in which the past is presented in schools museums and at historic sites compared to the approaches currently being explored in contemporary archaeology It challenges the all too frequent representation of the past as something finished understood and objective rather than something that is constructed and therefore open to co existing interpretations and constant re interpretation Central to the book is the belief that the presentation of the past in school curricula and in museum and site interpretations will benefit from a greater use of non documentary sources derived from archaeological study and oral histories The book suggests that a view of the past incorporating a larger body of evidence and a wider variety of understanding will help to invigorate the way history is taught The Presented Past will be of interest to teachers archaeologists cultural resource managers in fact anyone who is concerned with how the past is presented      Ayahuasca Visions Pablo Amaringo, Luis Luna, 1999-04-28 A storied journey into the psychedelic realm unravel the sacred mysteries of Ayahuasca with a renowned Amazonian shaman and anthropologist duo Unveiling nearly 50 vivid painting masterpieces revealing Ayahuasca s mind expanding impact on human consciousness Explore the mesmerizing world of Ayahuasca in this classic volume Featuring the visionary art of Pablo Amaringo and the anthropological expertise of Luis Eduardo Luna Ayahuasca Visions presents nearly 50 vibrant full color pieces of artwork Each vision illustrates a deep understanding of how Ayahuasca affects human consciousness The artworks integrate plant teachers and shamanic powers like the Three Types of Sorcerers along with the spirit world including forest spirits chthonic spirits and ouranian spirits Additionally they explore concepts related to illness and healing In an era where Ayahuasca is gaining global popularity for its benefits to spiritual growth self exploration and mental well being Ayahuasca Visions is an indispensable guide It not only documents the rich tapestry of visions induced by this potent brew it reinforces the profound connection between humans and the natural world Whether you re embarking on a personal spiritual journey or seeking a deeper understanding of Ayahuasca this book is your gateway to the mysteries of this remarkable plant teacher Esteemed scholars such as Professor Richard Schultes Terence McKenna and ke Hulkrantz applaud Ayahuasca Visions for
