Abstracts of journal articles books essays exhibition catalogs dissertations and exhibition reviews The scope of  
ARTbibliographies Modern extends from artists and movements beginning with Impressionism in the late 19th century up to  
the most recent works and trends in the late 20th century Photography is covered from its invention in 1839 to the present A  
particular emphasis is placed upon adding new and lesser known artists and on the coverage of foreign language literature  
Approximately 13 000 new entries are added each year Published with title LOMA from 1969 1971      Art in America  
,1996-09      **Knights of the Brush** James F. Cooper, 1999 In these days of sensationalism the images of the past often seem  
shadowy and rather vague This work explores a period in American art and culture when both were infused with a strong  
sense of righteousness and the certainty that the artist must celebrate nature and the deity The chapter headings from  
Seeing to Virtue Chivalry to Christendom echo the ideas expressed in the paintings contrasting with what art critic Cooper  
sees as a cultural crisis in our times Unfortunately this work comes across as preachy and sentimental perhaps because of  
the zealous morality of the time it examines Still the works of art gathered from a wide variety of holdings are an excellent  
record of a splendid age of landscape and Cooper should be commended for preserving and evaluating these important  
records of a past era One could only wish that the sense of moral judgment did not overwhelm the critical eye Recommended  
for academic libraries and all libraries focusing on American art history 58 colour 2 b w illustrations      *Cumulative Book*
