**Sidney M. Jourard** Marty Jourard,1994-10-01 *Somatic Psychology* Linda Hartley,2004-08-13 This book brings attention to the interface of psychotherapy and psychological theory with the somatic practices of bodywork and movement therapy To offer a client only psychotherapy or only bodywork may subtly or directly reinforce the body mind split from which so many of us suffer in some cases this will be a reinforcement of a dilemma central to the client s problems Hartley views body psychotherapy and transpersonal psychotherapy as building bridges between the once separated processes of psyche soma and spirit Today the emerging field of somatic psychology is also contributing to the expanded field of psychology a subtle differentiation of bodymind process developed through almost a century and a half of research and practice in somatic therapy and education Originally trained as a dancer movement therapist and bodywork practitioner Hartley continues to use movement and somatic process as an important foundation for her own work Training in Dance Movement Therapy the transpersonal psychotherapy of Psychosynthesis and Process Oriented Psychology have further deepened Hartley s awareness of the relationships between psyche soma and spirit and the need to respond to all levels of experience in therapeutic work Basic Substance Abuse Social Systems, Inc,1978 **Body and Mind in Motion** Glenna Batson,Margaret Wilson,2014-06-01 Western contemporary dance and body mind education have engaged in a pas de deux for more than four decades The rich interchange of somatics and dance has altered both fields but scholarship that substantiates these ideas through the findings of twentieth century scientific advances has been missing This book fills that gap and brings to light contemporary discoveries of neuroscience and somatic education as they relate to dance Drawing from the burgeoning field of embodiment itself an idea at the intersection of the sciences humanities arts and technologies Body and Mind in Motion highlights the relevance of somatic education within dance education dance science and body mind studies *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office,1973 **A Transatlantic Political Theology of Psychedelic Aesthetics** Roger K. Green,2019-04-02 Arguing that we ought to look to psychedelic aesthetics of the 1960s in relation to current crises in liberal democracy this book emphasizes the intersection of European thought and the psychedelic The first half of the book focuses on philosophical influences of Herbert Marcuse and Antonin Artaud while the second half shifts toward literary and theoretical influences of Aldous Huxley on psychedelic aesthetics Framed within an emergent discourse of political theology it suggests that taking a postsecular approach to psychedelic aesthetics helps us understand deeper connections between aesthetics and politics Developmental Transitions across the Lifespan Leo B Hendry,2015-05-08 Choice Recommended Read Leo B Hendry is one of the foremost developmental psychologists of his generation His diverse range of interests have included studies on young people s involvement in competitive sports investigations into teacher and pupil relations in school adolescents leisure pursuits and their family relations parenting styles youth workers and mentoring youth unemployment adolescent health behaviours and transition to

early adulthood His research interests now include work on ageing and retirement Developmental Transitions across the Lifespan is the first collection of Hendry's works and essentially joins the dots to provide an overarching perspective on lifespan development through a dynamic systems theory approach Underpinned by empirical research this collection of journal articles and book chapters is linked by a contemporary commentary which not only contextualises each piece within today's research climate but builds to provide an unorthodox comprehensive but above all compelling perspective on human development from childhood to old age Leo B Hendry's research output has been significant and influential This is an important book that will provide students and researchers in developmental psychology not only with an opportunity to view his contribution holistically but in connecting his range of research interests provides a new contribution to our understanding of lifespan development in its own right

of the body and the senses Thinking about the body will never be the same after reading this book **Erotic Attunement** Cristina L. H. Traina, 2011-12-01 Heightened awareness of the problem of sexual abuse has led to deep anxiety over adults touching children in nearly any context Though our society has moved toward increasingly strict enforcement of this taboo studies have shown that young children need regular human contact and the benefits of breastfeeding have been widely extolled Exploring the complicated history of love desire gender sexuality parenthood and inequality **Erotic Attunement** probes the disquieting issue of how we can draw a clear line between natural affection toward children and perverse exploitation of them Cristina L H Traina demonstrates that we cannot determine what is wrong about sexual abuse without first understanding what is good about appropriate sensual affection Pondering topics such as the importance of touch in nurturing children the psychology of abuse and victimhood and recent ideologies of motherhood she argues that we must expand our philosophical and theological language of physical love and make a distinction between sexual love and erotic love Taking on theological and ethical arguments over the question of sexuality between unequals she arrives at the provocative conclusion that it can be destructive to completely bar eroticism from these relationships **Community, Self**
