Development, Sexual Rights and Global Governance Amy Lind,2010-01-04 This book addresses how sexual practices and identities are imagined and regulated through development discourses and within institutions of global governance The underlying premise of this volume is that the global development industry plays a central role in constructing people's sexual lives access to citizenship and struggles for livelihood Despite the industry's persistent insistence on viewing sexuality as basically outside the realm of economic modernization and anti poverty programs this volume brings to the fore heterosexual bias within macroeconomic and human rights development frameworks The work fills an important gap in understanding how people's intimate lives are governed through heteronormative policies which typically assume that the family is based on blood or property ties rather than on alternative forms of kinship By placing heteronormativity at the center of analysis this anthology thus provides a much needed discussion about the development industry's role in pathologizing sexual deviance yet also more recently in helping make visible a sexual rights agenda Providing insights valuable to a range of disciplines this book will be of particular interest to students and scholars of Development Studies Gender Studies and International Relations It will also be highly relevant to development practitioners and international human rights advocates The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9780203868348> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Breaking Barriers Professor Robin Lin Miller, Deputy Director of the Alameda County Health Department George Ayala, 2024-12-03 What contributions can LGBT activists make to eliminating the inequities that drive the HIV epidemic in countries that are hostile to sexual and gender minority rights In *Breaking Barriers* Sexual and Gender Minority led Advocacy to End AIDS in Africa and the Caribbean Robin Lin Miller and George Ayala tell the story of a transnational partnership among community activists from eight countries to address the entrenched stigma and discrimination that blocks sexual and gender minority people from accessing affirming HIV care Through their extended case study of Project ACT they demonstrate how activists contributed to social progress within their country environments despite great obstacles Documenting the project from its inception through to its untimely demise due to the Covid pandemic Miller and Ayala highlight the many ups and downs endured by activists and their allies as they tried to promote access to health care in politically and culturally hostile national contexts and with limited financial resources They raise questions about the role of donors and partners from the Global North in supporting progress on the ground in Global South countries They also consider effective strategies for evaluating human rights focused HIV advocacy in these fraught environments Ultimately Miller and Ayala provide readers guidance on principles of practice for human rights advocacy and for planning carrying out and evaluating projects that aspire to create structural change to improve access to affirming HIV care for sexual and gender minority people

Our Caribbean Kin Alai Reyes-Santos, 2015-06-15 Beset by the forces of European colonialism US imperialism and neoliberalism the people of the Antilles have had good reasons to band together politically and economically yet not all Dominicans Haitians and Puerto Ricans have heeded the calls for collective action So what has determined whether Antillean solidarity movements fail or succeed In this comprehensive new study Alai Reyes Santos argues that the crucial factor has been the extent to which Dominicans Haitians and Puerto Ricans imagine each other as kin *Our Caribbean Kin* considers three key moments in the

region's history the nineteenth century when the antillanismo movement sought to throw off the yoke of colonial occupation the 1930s at the height of the region's struggles with US imperialism and the past thirty years as neoliberal economic and social policies have encroached upon the islands At each moment the book demonstrates specific tropes of brotherhood marriage and lineage have been mobilized to construct political kinship among Antilleans while racist and xenophobic discourses have made it difficult for them to imagine themselves as part of one big family Recognizing the wide array of contexts in which Antilleans learn to affirm or deny kinship Reyes Santos draws from a vast archive of media including everything from canonical novels to political tracts historical newspapers to online forums sociological texts to local jokes Along the way she uncovers the conflicts secrets and internal hierarchies that characterize kin relations among Antilleans but she also discovers how they have used notions of kinship to create cohesion across differences

Caribbean Pleasure Industry Mark Padilla, 2008-11-15 In recent years the economy of the Caribbean has become almost completely dependent on international tourism And today one of the chief ways that foreign visitors there seek pleasure is through prostitution While much has been written on the female sex workers who service these tourists Caribbean Pleasure Industry shifts the focus onto the men Drawing on his groundbreaking ethnographic research in the Dominican Republic Mark Padilla discovers a complex world where the global political and economic impact of tourism has led to shifting sexual identities growing economic pressures and new challenges for HIV prevention In fluid prose Padilla analyzes men who have sex with male tourists yet identify themselves as normal heterosexual men and struggle to maintain this status within their relationships with wives and girlfriends Padilla's exceptional ability to describe the experiences of these men will interest anthropologists but his examination of bisexuality and tourism as much neglected factors in the HIV AIDS epidemic makes this book essential to anyone concerned with health and sexuality in the Caribbean or beyond

Queer Genealogies in Dominican Literature and Culture Maja Horn, 2025-09-16 Tracing cultural representations of queerness in the Dominican Republic from the 1950s to the present In this book Maja Horn examines the evolution of queer Dominican literary and cultural production from the 1950s to the present challenging simplistic developmental narratives of LGBTIQ progress Through an analysis of literature theater and activism Horn traces how same sex desire and gender nonconformity have been negotiated both tacitly and overtly across the years Beginning with early forerunners Horn looks at literary representations in works by Hilma Contreras and Pedro René Contín Aybar during the 1930-1961 dictatorship of Rafael Trujillo Horn goes on to explore the emergence of queer nightlife spaces during the Balaguer years through novels by Rita Indiana Hernández and Rey Emmanúel Andjar Horn discusses how the work of playwright Wladimir Turiansky challenges reductive mainstream representations of trans subjects and HIV AIDS in the new democratic era The book concludes with a discussion of groundbreaking recent texts that have

expanded portrayals beyond Santo Domingo and introduced new perspectives Throughout *Queer Genealogies in Dominican Literature and Culture* Horn shows how class race and gender have shaped access to public space and strategies for negotiating sexuality Horn also reveals the coexistence of different ways of expressing queer identities Recognizing the influence of coloniality and narratives of identity in the global North Horn celebrates the shifting geographies and multiplicities of a uniquely creole Dominican queerness
