Sierra Journal 2003:

Minerals Yearbook, 2002 Promoting Sustainable Democratic Consolidation in Sierra Leone Abubakar Hassan

Kargbo, 2019-10-21 The Republic of Sierra Leone is situated along the West African Coast. It is bounded on the north and north east by Guinea, on the east and south by Liberia, and on the West by the Atlantic Ocean. Sierra Leone has a total land area of 72 000 km² of which about 75% is cultivable. According to the 2015 census, it has a population of 7 092 113 million people. In 2018, the country was divided into five regions including the Northern, Northern Western, Eastern, and Southern provinces. The provinces are further divided into sixteen districts and a total of 190 chiefdoms headed by Paramount chiefs. Sierra Leone is characterized by a favorable climate in terms of wet and dry seasons which makes it mainly suitable for agriculture production and the growing of different types of crops in the country as a whole. Sierra Leone is suitable for cattle rearing, groundnut and cashew nut farming, particularly in the north. The eastern region grows coffee and cacao, and the south cacao, ginger, and piassava oil palm, rice, cassava, and sweet potatoes, all of which are grown in every part of the country. The country has vast acres of arable land for agriculture production. Apart from this agriculture potential, Sierra Leone is very rich in natural resources such as diamonds, gold, iron ore, bauxite, rutile, forest, as well as marine resources etc. Most of these resources can be found in both south and east of the country, and recently the north also has discovered some of these minerals such as bauxite and iron ore. Diamonds have also been discovered. Sierra Leone is among the leading producers of Iron Ore, Diamonds, and Bauxite in the world.

Late Cenozoic Structure and Evolution of the Great Basin-Sierra Nevada Transition John S. Oldow, Patricia Hughes Cashman, 2009 **Children, Education and Empire in Early Sierra Leone**

Katrina Keefer, 2018-06-27 Nineteenth century Sierra Leone presented a unique situation historically as the focal point of early abolitionist efforts, settlement within West Africa by westernized Africans, and a rapid demographic increase through the judicial emancipation of Liberated Africans. Within this complex and often volatile environment, the voices and experiences of children have been difficult to trace and to follow. Enslaved children historically are a challenging narrative to highlight due to their comparative vulnerability. This book offers newly transcribed data and fills in a lacuna in the scholarship of early Sierra Leone and the Atlantic world. It presents a narrative of children as they experienced a set of circumstances which were unique and important to abolitionist historiography and demonstrates how each element of that situation arose by analyzing the rich documentary evidence. By presenting the data as well as the individuals whose lives were affected by the mission schools, both as teacher or pupil, this study has sought to be as complete as possible. Underlying the more academic tone is a recognition of the individual humanity of both teachers and students whose lives together shaped this early phase in the history of Sierra Leone. The missionaries who created the documents from which this study arises all died in Sierra Leone after having profound impacts on the lives of many hundreds of pupils. Their students went on to become important historical figures both locally and throughout West Africa. Not all rose to prominence and the book

reconstructs the lives of pupils who became local tradespeople in addition to those who had a greater social stature This book attempts to offer analysis without forgetting the fundamental human trajectories which this material encompasses

the tribunal with the host state third states national courts and other international criminal tribunals The book concentrates on the definitional legal and jurisdictional aspects of hybrid and internationalised criminal tribunals as this has been the subject of some confusion in arguments before the tribunals and in the judgments of the tribunals In its concluding section the book examines the future role of internationalised and hybrid criminal tribunals particularly in light of the establishment of the ICC and the potential use of such tribunals in other contexts It also assesses how hybrid and internationalised tribunals fit into a multi layered framework of international criminal law and transitional justice

Child Soldiers, Adult Interests

John-Peter Pham,2005 This book weaves a narrative of the history of Sierra Leone from its foundation as a settlement for black slaves who fought for the British Crown during the American Revolution through the events of the civil war with a discussion of more general geopolitical lessons to be learned from the recent conflict its origins and settlement In addition the book contains six appendices that render the present work the first comprehensive history of Sierra Leone since the classic studies published more than a generation ago by Christopher Fyfe and John Peterson an invaluable reference on conflict resolution in general as well as the West African country in particular including a chronology of select events in the history of Sierra Leone and the texts of the peace agreements and other post conflict documents

Peacebuilding Legacy

Sukanya Podder,2022-08-08 A fundamental challenge plagues the global peacebuilding community How can technocratic approaches to peacebuilding that are rooted in short term project based execution of activities further the longer term transformative outcomes like altering young people s attitudes and beliefs about peace and violence In response to this global challenge in Peacebuilding Legacy Sukanya Podder analyzes the long term effects of peacebuilding programmes involving children and young people Podder unpacks the concept of peacebuilding legacy through the lens of time transformation and intergenerational peace Podder also develops unique qualitative cues for measuring legacy in terms of the institutional normative and organizational logics If norms resonate strongly with the local context they are likely to encourage strong retention and meaningful adoption over time Successful institutionalization of project models through planned handover to successor national organizations or government departments holds the key to stronger local ownership Organizational learning and reflection can support this process through a more strategic approach to programming and through post exit studies Regarding attitude change Podder found that the media and peace education projects that targeted individuals ingrained beliefs and values but overlooked the role of group social norms had only limited persuasive effects To shift the values practices norms and beliefs of the younger generation the mindset of the older generation must also be targeted Changes in the legal political economic and other social institutions are critical for long term and meaningful transformation This requires adopting an ecological model of peace

We the Young Fighters Marc Sommers,2023-10-01

We the Young Fighters is at once a history of a nation the story of a war and the saga of downtrodden young people and three pop culture superstars Reggae idol Bob Marley rap legend Tupac Shakur and the John Rambo movie character all portrayed

an upside down world where those in the right are blamed while the powerful attack them Their collective example found fertile ground in the West African nation of Sierra Leone where youth were entrapped inequality was blatant and dissent was impossible When warfare spotlighting diamonds marijuana and extreme terror began in 1991 military leaders exploited the trio s transcendent power over their young fighters and captives Once the war expired youth again turned to Marley for inspiration and Tupac for friendship Thoroughly researched and accessibly written *We the Young Fighters* probes terror based warfare and how Tupac Rambo and especially Bob Marley wove their way into the fabric of alienation resistance and hope in Sierra Leone The tale of pop culture heroes radicalizing warfare and shaping peacetime underscores the need to engage with alienated youth and reform predatory governments The book ends with a framework for customizing the international response to these twin challenges

Research and Development in Intelligent Systems XXIV Max Bramer,Frans Coenen,Miltos Petridis,2007-12-03 An agent in a multi agent system MAS has to generate plans for its individual goal but these plans may conflict with those that are already being scheduled or executed by other agents It must also be able to complete its planning and resolution of these conflicts within a reasonable time to have an acceptable quality plan Although we adopt hierarchical planning HP for example see 7 12 using the decision theoretic planning DTP approach 6 for efficient planning it is not trivial to apply HPO to MAS In HP appropriate abstract plans are selected level by level to maximize the utility U_p where p is the expected plan comprising a sequence of primitive actions However in the MAS context conflicts between agents affect the efficiency and quality of resulting plans When a conflict is found at lower levels an additional sophisticated process for avoiding it conflict resolution must be invoked and some extra actions such as waiting for synchronization and detouring may have to be added to the plan The conflict resolution process may become costly or fail Even a single conflict if it is difficult to resolve will result in a plan with considerably lower quality than it otherwise would have As a result in multi agent systems the second or third best plans may result in better overall performance

Post-War Regimes and State Reconstruction in Liberia and Sierra Leone

Amadu Sesay, Charles Ukeje, 2009 This original study by some of West Africa's leading scholars interrogates post war reconstruction processes in the twin West African countries of Liberia and Sierra Leone focusing on the effects of regime types on the nature, scope, success or failure of their post war reconstruction efforts The Oxford Handbook of Women and the Economy Susan Averett, Laura M. [VNV] Argys, Saul D. Hoffman, 2018 This collection of essays reviews the key trends, surveys the relevant economic theory and summarizes and critiques the empirical research literature. By providing a view of what we know, what we do not know and what the critical unanswered questions are, this Handbook provides an examination of the many changes that have occurred in women's economic lives **Sierra National Forest (N.F.), Travel Management**, 2010 *The Sierra Leonean Tragedy* John-Peter Pham, 2006 The road to the future runs through the past. Drift, decline and the establishment of a patrimonial state. Diamonds aren't forever; are they? The coming of the terror. Child soldiers, hunters and mercenaries, the widening conflagration. The perils of peacekeeping and peacemaking. Dealing with the aftermath, the quest for justice. The global dimensions of an African civil conflict. Appendix 1 Chronology of select events in the history of Sierra Leone. Appendix 2 The Abidjan Peace Agreement 1996. Appendix 3 The Lom Peace Agreement 1999. Appendix 4 Agreement between the United Nations and the government of Sierra Leone on the establishment of a special court for Sierra Leone 2002. Appendix 5 The statute of the special court for Sierra Leone 2002. Appendix 6 The Truth and Reconciliation Commission Act 2000 **Amnesty, Human Rights and Political Transitions** Louise Mallinder, 2008-09-10 Amnesty laws are political tools used since ancient times by states wishing to quell dissent, introduce reforms or achieve peaceful relationships with their enemies. In recent years they have become contentious due to a perception that they violate international law, particularly the rights of victims and contribute to further violence. This view is disputed by political negotiators who often argue that amnesty is a necessary price to pay in order to achieve a stable, peaceful and equitable system of government. This book aims to investigate whether an amnesty necessarily entails a violation of a state's international obligations or whether an amnesty accompanied by alternative justice mechanisms can in fact contribute positively to both peace and justice. This study began by constructing an extensive Amnesty Law Database that contains information on 506 amnesty processes in 130 countries introduced since the Second World War. The database and chapter structure were designed to correspond with the key aspects of an amnesty: why it was introduced, who benefited from its protection, which crimes it covered and whether it was conditional. In assessing conditional amnesties, related transitional justice processes such as selective prosecutions, truth commissions, community based justice mechanisms, lustration and reparations programmes were considered. Subsequently, the jurisprudence relating to amnesty from national courts, international tribunals and courts in third states was addressed. The information gathered revealed considerable disparity in state practice relating to amnesties, with some aiming to provide victims with a remedy and others seeking to create complete impunity for perpetrators. To date, few legal trends relating to amnesty laws are emerging, although it appears that amnesties

offering blanket unconditional immunity for state agents have declined Overall amnesties have increased in popularity since the 1990s and consequently rather than trying to dissuade states from using this tool of transitional justice this book argues that international actors should instead work to limit the more negative forms of amnesty by encouraging states to make them conditional and to introduce complementary programmes to repair the harm and prevent a repetition of the crimes David Dyzenhaus This is one of the best accounts in the truth and reconciliation literature I ve read and certainly the best piece of work on amnesty I ve seen Diane Orentlicher Ms Mallinder s ambitious project provides the kind of empirical treatment that those of us who have worked on the issue of amnesties in international law have long awaited I have no doubt that her book will be a much valued and widely cited resource
