

An ornate, symmetrical decorative border in a dark, possibly black or dark red, color. It features intricate scrollwork, floral motifs, and a central medallion-like shape at the top and bottom, framing the text.

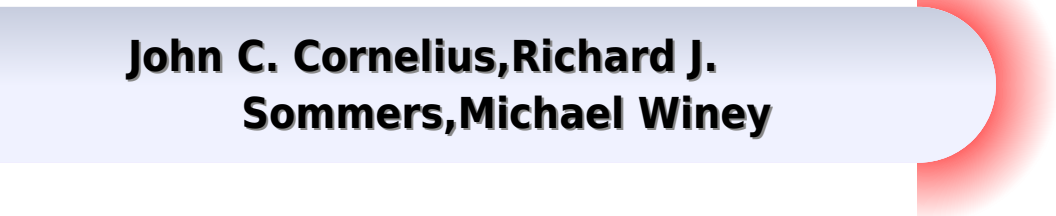

LOUIS XIV
AND
TWENTY MILLION
FRENCHMEN

by Pierre Goubert

Louis Xiv And Twenty Million Frenchmen

**John C. Cornelius, Richard J.
Sommers, Michael Winey**

Louis Xiv And Twenty Million Frenchmen:

Louis XIV and Twenty Million Frenchmen Pierre Goubert, 1972-04-12 Louis XIV is one of history's most notorious rulers. Ruling for three quarters of a century, the King of France had the longest reign in European history, and the effects of his rule would create the conditions that would lead to the French Revolution. Written by an authority on 17th century Europe, Pierre Goubert not only outlines the life of the famous Sun King but the millions of subjects under his rule and the effects his choices had on them. Praise for Louis XIV and Twenty Million Frenchmen: It is safe to recommend the work as the best book available on the subject for the educated layman. Kirkus Reviews: This masterful work should serve a generation of student and general readers as the essential introduction to the France of Louis XIV. The American Historical Review: In this field, M. Goubert is a past master, and his subtle portrayal of the great social trends of the age deserves to be widely read. Times Literary Supplement. **Louis XIV and Twenty Million Frenchmen** Pierre Goubert, 1968 *The Making of Modern Europe, 1648-1780* Geoffrey Treasure, 2003-12-16 In 1640, the term Europe was without real political significance. In the following years, the idea of Europe came to mean much more. A period documented in this fascinating book. *The Rise of the Great Powers 1648 - 1815* Derek McKay, H.M. Scott, 2014-09-19 The heyday of the European states system was in the century before the First World War. How the system of five great powers in conscious equilibrium came into being is the central theme of this book. *A Short History of Europe, 1600-1815* Lisa Rosner, John Theibault, 2015-03-26 A concise survey that introduces readers to the people, ideas, and conflicts in European history from the Thirty Years War to the Napoleonic Era. The authors draw on gender studies, environmental history, anthropology, and cultural history to frame the essential argument of the work. **The Parlement of Paris After the Fronde, 1653-1673** Albert N. Hamscher, 2010-11-23 This book assesses how and to what extent the governments of Cardinal Mazarin and Louis XIV controlled the Parlement of Paris in the two decades after the civil wars known as the Fronde. The history of this prestigious court of law bears directly on the broader issue of the growth of royal absolutism. Few historians have examined the resurgence of royal authority after the Fronde from the vantage point of traditional institutions, and no other scholarly work deals extensively with the activities of the Parlement during this controversial period. This study reveals the methods, achievements, and limitations of absolutism associated with the Sun King. The book investigates the impact of royal policies on the way the judges acquired and transmitted their posts, the sources of their wealth, the social composition of their court, and their judicial and administrative authority. The Parlement's political activities and its conflicts with the crown over issues of judicial, financial, and religious importance also receive thorough treatment. The author's extensive archival research indicates that many widely held assumptions about the declining importance of the Parlement after the civil war are unwarranted. Although the Parlement's political activities gradually declined, this transformation was neither as complete nor as irreversible as historians have asserted. The Parlement retained some voice in affairs of state, and most of the administrative machinery it could employ to oppose royal

policy remained intact Moreover the crown failed to attack the sources of parlementaire wealth and the judges freely enhanced their court s status as a social corporation

Economic Development in Early Modern France Jeff Horn,2015-02-26 This book explores how the institution of privilege and liberty shaped early modern economic development in France between 1650 and 1820

We the People Ted Byfield,2011-06 **Special Bibliographic Series** US Army Military History Research Collection,1976

Philosophy and the State in France Nannerl O. Keohane,2017-03-14 Tracing the development of French political thought in the seventeenth century Nannerl Keohane explores a quite different emphasis on the indivisibility of sovereignty and the expression of interests rather than rights Originally published in 1980 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Royal Funding of the Parisian Académie Royale Des Sciences During the 1690s Alice Stroup,1987 The scientific revolution of the 17th century engendered diverse prolific offspring among which were the scientific societies The French Academie Royale des Sciences founded in 1666 by Jean Baptiste Colbert Louis XIV s minister of finance was the beneficiary of the most generous patronage of science known during the 17th century It was an official governmental expression of support for science rather than the independent scholarly coterie characteristic of other contemporary scientific societies As this study shows the finances of the early Academy clarify the research organization of the fledgling institution the policies of its three ministerial protectors during the 17th century Colbert Louvois Pontchartrain Illustrations

Let God Arise W. Gregory Monahan,2014-03 Let God Arise draws upon an extensive array of archival sources to present the first modern account in English entirely devoted to the rebellion and war of the Camisards Combining traditional narrative with analysis W Gregory Monahan examines the issues that led to that rebellion beginning with the conversion of the artisans and peasants of the remote mountain region of the C vennes to Protestantism in the sixteenth century its persistence in that confession in the seventeenth and the shattering impact of the Revocation of the Edict of Nantes which deprived Protestants first of their pastors and then of the itinerant preachers who attempted to take their place Beginning in 1701 prophetism swept the region and the prophets who believed they heard and followed the word of the Holy Spirit soon led their followers into violent attacks on the Catholic Church and rebellion against the crown A persistent and occasionally successful guerrilla war raged for over two years Monahan argues that the resulting war involved a host of often conflicting world views or discourses in which the various parties to the conflict whether the king and his ministers at Versailles the provincial intendant Basville and local officials the foreign powers the Church the generals

or the Camisard rebels themselves often misunderstood or failed to communicate with each other resulting too often in terrible violence and bloodshed Let God Arise tells us much about the nature of the reign of Louis XIV and the popular religion of the time in exploring the last great rebellion in France before the Revolution of 1789

Crises of Political Development in Europe and the United States. (SPD-9) Raymond Grew, 2015-03-08 As the last volume in the series sponsored by the SSRC Committee on Comparative Politics this book reflects as does the preceding volume the Committee's decision to devote renewed attention to the original state building experiences of the West after having studied political development in the newer countries of the Third World The contributors attempt to discern patterns of historical change in the different sequences of crises that affect all states in their development Following an introductory and theoretical statement by Raymond Grew each chapter focuses on a different country or area Each of these essays applies and evaluates the Committee's concept of crises of development i.e. crises of identity legitimacy participation penetration and distribution The distinguished historians and political scientists who contribute to the volume are Keith Thomas on the United Kingdom Aristide R Zolberg on Belgium Folke Dovring on Scandinavia J Rogers Hollingsworth on the United States Stanley G Payne on Spain and Portugal David D Bien on France Raymond Grew on France and Italy John R Gillis on Germany Walter M Pintner on Russia and Roman Szporluk on Poland with Lucian W Pye providing the Preface Originally published in 1979 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

François Vallé and His World Carl J. Ekberg, 2002 In François Valle and His World Carl Ekberg provides a fascinating biography of François Valle 1716-1783 placing him within the context of his place and time Valle who was born in Beauport Canada immigrated to Upper Louisiana the Illinois Country as a penniless common laborer sometime during the early 1740s Engaged in agriculture lead mining and the Indian trade he ultimately became the wealthiest and most powerful individual in Upper Louisiana although he never learned to read or write Ekberg focuses on Upper Louisiana in colonial times long before Lewis and Clark arrived in the Mississippi River valley and before American sovereignty had reached the eastern bank of the Mississippi He vividly captures the ambience of life in the eighteenth century frontier agricultural society that Valle inhabited shedding new light on the French and Spanish colonial regimes in Louisiana and on the Mississippi River frontier before the Americans arrived Based entirely on primary source documents wills and testaments parish registers of baptisms marriages and burials and Spanish administrative correspondence found in archives ranging from St Louis and Ste Genevieve to New Orleans and Seville François Valle and His World traces not only the life of François Valle and the lives of his immediate family members but also the lives of his slaves In doing so it provides a portrait of

Missouri's very first black families something that has never before been attempted Ekberg also analyzes how the illiterate Valle became the richest person in all of Upper Louisiana and how he rose in the sociopolitical hierarchy to become an important servant of the Spanish monarchy Francois Valle and His World provides a useful corrective to the fallacious notion that Missouri's history began with the arrival of Lewis and Clark at the turn of the nineteenth century Anyone with an interest in colonial history or the history of the Mississippi River valley will find this book of great value *The Myth of Absolutism* Nicholas Henshall, 2014-06-06 Conventionally absolutism in early modern Europe has suggested unfettered autocracy and despotism the erosion of rights the centralisation of decision making the loss of liberty Everything in a word that was un British but characteristic of ancien regime France Recently historians have questioned such comfortably simplistic views This lively investigation of absolutism in action continent wide but centred on a detailed comparison of France and England dissolves the traditional picture to reveal a much more complex reality and in so doing illuminates the varied ways in which early modern Europe was governed *Logic of Historical Explanation* Clayton Roberts, 2010-11-01

Symbolic Landscapes Gary Backhaus, John Murungi, 2008-11-09 Symbolic Landscapes presents a definitive collection of landscape place studies that explores symbolic cultural levels of geographical meanings Essays written by philosophers geographers architects social scientists art historians and literati bring specific modes of expertise and perspectives to this transdisciplinary and interdisciplinary study of the symbolic level human existential spatiality Placing emphasis on the pre cognitive genesis of symbolic meaning as well as embodied experiential lived geography the volume offers a fresh quasi phenomenological approach The editors articulate the epistemological doctrine that perception and imagination form a continuum in which both are always implicated as complements This approach makes a case for the interrelation of the geography of perception and the geography of imagination which means that human cultural geography offers only an abstraction if indeed an aesthetic geography is constituted merely as a sub field Human cultural geography can only approach spatial reality through recognizing the intimate interrelative dialectic between the imaginative and perceptual meanings of our landscapes place worlds This volume reinvigorates the importance of the topic of symbolism in human cultural geography landscape studies philosophy of place architecture and planning and will stand among the classics in the field *Early Bourbon Spanish America*, 2013-05-23 The years between the accession of the house of Bourbon to the Spanish throne in 1700 and the coronation of Carlos III in 1759 have often been bundled up and dismissed together with the later years of Habsburg rule Growing out of the first Anglophone academic workshop to focus exclusively on Early Bourbon Spanish America this collective volume gives prominence to the first half of the eighteenth century as a distinct historical period Discussing from different methodological and geographical perspectives the ways in which the Bourbon succession international competition over access to Spanish American resources and war affected the Indies the contributors examine some of the key changes experienced in Spanish America at the local provincial and imperial level
