

My Eternal Flame,

*As the sands of time flow, my love for
you only grows, burning brighter with
each passing moment. I've come to
realize that love isn't just about the
here and now. It's about every shared
yesterday and every hoped-for
tomorrow. With every tick of the clock,
my love for you becomes a part of
eternity, a testament to the power of
two souls entwined in time.*

Forever and always.

Love Letter To Americans:

Correspondence and American Literature, 1770-1865 Elizabeth Hewitt, 2004-11-25 Elizabeth Hewitt uncovers the centrality of letter writing to antebellum American literature. She argues that many canonical American authors turned to the epistolary form as an idealised genre through which to consider the challenges of American democracy before the Civil War. The letter was the vital technology of social intercourse in the nineteenth century and was adopted as an exemplary genre in which authors from Crèvecoeur and Adams through Jefferson to Emerson, Melville, Dickinson and Whitman could theorise the social and political themes that were so crucial to their respective literary projects. They interrogated the political possibilities of social intercourse through the practice and analysis of correspondence. Hewitt argues that although correspondence is generally only conceived as a biographical archive, it must instead be understood as a significant genre through which these early authors made sense of social and political relations in the nation. Girls and Literacy in America Jane Greer, 2003-05-23 An exploration of the fascinating and controversial history of girls' education in America from the colonial era to the computer age. *Girls and Literacy in America* offers a tour of opportunities, obstacles and achievements in girls' education from the limited possibilities of colonial days to the wide open potential of the Internet generation. Six essays written by historians and focused on particular historical periods examine the extensive range of girls' literacies in both educational and extracurricular settings. Girls from various ethnic and racial backgrounds, social classes, religions and geographic areas of the nation are included. A host of primary documents, including such items as an 18th century hornbook to excerpts from girls' conversations in Internet chat rooms, allow readers an opportunity to evaluate for themselves some of the materials mentioned in the volume's opening essays. And finally, an extensive bibliography will be invaluable to students expected to conduct more extensive primary research.

Edinburgh Companion to Nineteenth-Century American Letters and Letter-Writing Celeste-Marie Bernier, 2016-02-15 Provides a wide-ranging entry point and intervention into scholarship on nineteenth-century American letter writing. This comprehensive study by leading scholars in an important new field, the history of letters and letter writing, is essential reading for anyone interested in nineteenth-century American politics, history or literature. Because of its mass literacy, population mobility and extensive postal system, nineteenth-century America is a crucial site for the exploration of letters and their meanings, whether they be written by presidents and statesmen, scientists and philosophers, novelists and poets, feminists and reformers, immigrants, Native Americans or African Americans. This book breaks new ground by mapping the voluminous correspondence of these figures and other important American writers and thinkers. Rather than treating the letter as a spontaneous private document, the contributors understand it as a self-conscious artefact circulating between friends and strangers and across multiple genres in ways that both make and break social ties.

Imagining Language in America Michael P. Kramer, 2014-07-14 In this study of the rhetoric of American writings on language Michael Kramer argues that the prevalent critical distinction between imaginative and nonimaginative writing is of limited theoretical use Breaking down the artificial disciplinary barriers between two areas of scholarly inquiry the literature of the American Renaissance and the study of language in the United States between the Revolution and the Civil War Kramer finds in various walks of intellectual life a broad range of writers who imagined language for the new experiment in self government Each of these men combined ideas about language with ideas about America so as to form cultural fictions or creative renderings of the nation its meaning its character and how it worked In order to reassess American linguistic and literary nationalism Kramer allows Noah Webster whose influential grammatical and lexicographic works have been considered only marginal to literary history to share the stage with more conventionally literary figures the neglected Longfellow and the canonical Whitman Then an essay on The Federalist and the pragmatic language related problems faced by the founding fathers introduces revisionary analyses of two New England writers who confronted American culture and society through their Romantic critiques of language the minister and theologian Horace Bushnell and Nathaniel Hawthorne Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
