Love And Human Separateness:

Love and Human Separateness İlham Dilman, 1987-01 **MIND and LOVE: The Human Experience** Lloyd Fell, 2011-01-04 The new scientific paradigm of embodied mind or situated cognition is percolating into popular mind science but its fundamentals autopoiesis and structural coupling have never been thoroughly explained Combines the paradigm shift in biology initiated by Maturana and Varela with the recent rush of ideas in social neuroscience to create what hopes to be a refreshingly new explanation of the way our mind works in our everyday experience and reveals the most common blind spots in what we thought we knew about our mind These blind spots are spoiling our individual lives and harming our prospects for peaceful coexistence and care of our environment e g the mistaken ideas that meaning is transferable that decisions come from conscious awareness or that knowledge is a commodity The biological significance of love and the value of embracing uncertainty and respecting the unknown point to a very hopeful vision for our future This is a scientific explanation of mind leavened with process philosophy also invoking spirituality without any religious connotation

Cosmopolitan Love and Individuality Nigel Rapport, 2018-11-23 Love discovers the reality of individual human beings wrote Iris Murdoch love deifies the person wrote Ralph Waldo Emerson This book proposes love as a kind of civic virtue that loving recognition might function as a universal form of ethical engagement and inclusion Loving recognition is proposed as a civil practice that enshrines the individuality of human identity overcoming the labels and classes of ethnicity nationality religiosity and social status A particular understanding of love is suggested Love as civic virtue is described as a complex comprising emotional attraction to a human being together with discernment of the individual specificity of that human being and also respect for that specificity in a loving engagement the individuality of the other person is let be given the space to subsist and encouraged to fulfil itself Who is this beloved other human being It is Anyone Loving recognition is universalizing It not only insists on a human species wide commonality that supervenes upon the ways in which we habitually classify the world according to invented categories such as people s supposed belonging to national or ethnic or religious or economic or cultural groups and classes it also insists on recognizing Anyone the globally common individual human being and including Anyone within a universalizing loving practice This book places its faith in love because of the motivating force that love delivers Love s emotional engagement is such as to individuate the beloved in themselves as themselves and for themselves The force of love overcomes the habit of seeing the world through a society s and a culture s conventional classificatory lens Love delivers a kind of epiphany a moment of vision such that the other human being does not appear as representative of a social category or class but is rightfully appreciated as being in possession of a unique and precious individual life Love I. Dilman, 2016-01-13 The book is concerned with questions about love questions about its many forms strands and aspects and the relation in which they stand to each other It is concerned with the way different aspects of sexual love conflict with each other with the way self regard and self interest can corrupt love and with spiritual love and its difficulties It seeks the views

of some writers who have suggested some distinctive solutions to the existential problems that love poses in the face of its obstacles Plato Proust Sartre Freud D H Lawrence Erich Fromm C S Lewis Kierkegaard Simone Weil and Kahlil Gibran

Love, Drugs, Art, Religion Brian R. Clack, 2016-05-13 In this original and far reaching contribution to the philosophy of religion Brian R Clack examines the manner in which religious belief emerges from the turbulence and anxiety of human existence Taking his cue from Freud's suggestion that human life is so hard to bear that it requires nothing short of cultural and psychological palliative care Clack explores each of the palliative measures Freud catalogues intoxicants religion art and love and evaluates their role in the mitigation of suffering and the provision of the assistance required for an enduring life This examination provides the context for an investigation into the meaning and function of religious belief when considered as a palliative Clack initially subjects religion to ferocious critique defending the psychoanalytic judgment that religious beliefs operate as wish fulfilling illusions but then elaborates a revised understanding of religion one in which comforting illusions are banished and in which religious belief faces up to reality and reconciles us both to the pains and disappointments of existence and to our nullity and inevitable annihilation in this genuinely interdisciplinary work Clack breaks new ground by using detailed explorations of the phenomena of drug use romantic love and the enjoyment of art in order to throw light on the meaning and nature of religion This book will be vital reading for anyone concerned with the fundamental questions of religious belief the psychoanalytic approach to culture or simply the unavoidable existential problems lying at the very heart of human life

The Model of Love Vincent Brümmer, 1993-09-16 Religious believers understand the meaning of their lives and of the world in terms of the way these are related to God The conceptual models whereby this relationship is described therefore play a key role in the conceptual designs which theologians produce to express the faith of the community of believers Vincent Brümmer examines the implications of using the model of love in this context and looks at a number of the most significant views of the nature of love exclusive attention Ortega y Gasset ecstatic union nuptial mysticism passionate suffering courtly love need love Plato

Augustine and gift love Nygren All these views are shown to interpret love as an attitude rather than as a relation between persons In the final chapters a relational concept of love is developed and it is shown how all the various attitudes discussed in the previous chapters have a role to play Finally the implications are addressed of using the model of love as a key model in theology

Daughter of the Swan Gail Linda Mortimer, 1994 Readers of Eudora Welty's stories often encounter a protective and domelike nighttime sky the moon and constellations beckoning a character to venture beyond the familiar visible world This striking metaphor for the human need to seek out the unknown serves as an anchoring image in *Daughter of the Swan* Gail L Mortimer's study of Welty's lifelong inquiry into the nature and contexts of knowledge Mortimer argues that Welty's views on epistemology and the elusiveness of certainty lie at the heart of this writer's subtle and revelatory work Employing the psychoanalytic object relations theories of Nancy Chodorow and Carol Gilligan she reveals how Welty uses assumptions about relationships to shape her characters consciousnesses Mortimer also contrasts Welty's world with William Faulkner's each elucidates the other's remarkably different ways of perceiving humanity relationships and approaches to the unknown The author then turns to Welty's childhood to consider her evolving sense of what and how things can be known Her childhood with adults created impressions of a benign wondrous orderly world As Mortimer observes Welty eventually replaced these impressions with the realization that adults frequently distort and withhold the truth Welty's own family's conception of love as a kind of shield and her resistance to this protection finds its way into much of her fiction For many Welty characters this protective love becomes an obstacle to fuller understanding Mortimer invokes two of the writer's most beguiling images the circle and the labyrinth to demonstrate that the perceiver who is both an insider and an outsider is best able to recognize and assimilate new knowledge In *The Golden Apples* Welty contemplates the difficulty and fascination implicit in this quest for knowledge given the ambiguous nature of what we know and given our language's surfaces and of masks myths and falsities to create benevolent illusions Ultimately Mortimer concludes Welty comes to see the concept of protective love as a limited one and in *The Optimist's Daughter* for instance she advocates instead the courage to face even the harshest realities Recognizing the richness of Welty's artistry Mortimer views her through the lens of various literary traditions including that of Shelley and Yeats The latter's poem *Among School Children* from which the title of Mortimer's study is borrowed summons the image of the swan to reflect the solitary human soul in search of knowledge In that same spirit of wonder and curiosity Eudora Welty's fiction illuminates the conditions of that search

Psychotherapy: An Erotic Relationship David Mann, 2021-12-15 *Psychotherapy: An Erotic Relationship* challenges the traditional belief that transference and countertransference are merely forms of resistance that jeopardize the therapeutic process David Mann shows how the erotic feelings and fantasies experienced by clients and therapists can be used to bring about a positive transformation Combining extensive and lively clinical examples with theoretical insights and new research on infants David Mann suggests that the development of the erotic derives from interactions between the parent and child and is seldom

absent from the therapist patient relationship. However, while the erotic always contains elements of past relationships, it also expresses hope for a different outcome in the present and future. Individual chapters explore the function of the erotic within the unconscious, erotic pre-Oedipal and Oedipal material, homoeroticism in therapy, sexual intercourse as a metaphor for psychological change, the primal scene in the transference, and the difficulties of working with perversions. The book is as relevant now as it was when originally published. This Classic Edition contains a new introduction by David Mann summarizing his current ideas since this book was first published in 1997. It brings the therapy setting alive, offering clinicians both an accessible and deeper understanding of the interaction between erotic transference and countertransference; it also gives an explicit picture of how these aspects of therapy can be used to enhance the therapeutic process. It remains an essential resource for psychoanalysts, psychotherapists, and counsellors, their clients, and anybody with an interest in Eros, desire, or mental health issues.

Love Simon May, 2019-06-18 What is love? May plunders Western poetry, philosophy, and psychology to find answers. Thought-provoking stuff. The Sunday Telegraph. Love is unconditional, selfless, unchanging, sincere, and totally accepting; it is worshipped today as the West's only universal religion. To challenge it is one of our few remaining taboos. In this path-breaking and superbly written book, philosopher Simon May does just that: dissecting our ideas of love and showing how they are the product of a long and powerful cultural heritage. Tracing over twenty-five hundred years of human thought and history, May shows how our idea of love developed from its Hebraic and Greek origins alongside Christianity until, during the last two centuries, God is love became love is God, so hubristic, so escapist, so untruthful to the real nature of love that it has booby-trapped relationships everywhere with deluded expectations. Brilliantly, May explores the very different philosophers and writers, both skeptics and believers, who dared to think differently from Aristotle's perfect friendship and Ovid's celebration of sex, and the chase to Rousseau's personal authenticity, Nietzsche's affirmation, Freud's concepts of loss and mourning, and boredom in Proust. Against our belief that love is an all-powerful solution to finding meaning, security, and happiness in life, May reveals with great clarity what love actually is and what it means. The most persuasive account of love's nature I have ever read. Financial Times. Intellectually engaging. Provocative. The Wall Street Journal.

Love Simon May, 2019 Simon May develops a radically new understanding of love as the emotion we feel towards those we experience as grounding our life, as offering us a promise of home in a world that we supremely value. He also proposes that the child is supplanting the romantic partner as the supreme object of love.

The Christian Message as Vision and Mission Santiago Sia, 2017-08-21 With all the messages that come our way through social media and in sophisticated gadgets, does the Christian message of love, hope, and redemption still have an importance and relevance? What does it have to offer to enable us to meet the various challenges which beset present-day living? Today there is an even greater and more urgent need to focus on it. After all, the Christian message is not merely information because it is also about a way of life. Neither is it simply an exhortation since it also presents a definite goal. This book provides some philosophical

considerations which underpin its central teaching While aware of its richness and complexity the essays concentrate on the Christian message insofar as it provides a vision for humanity and articulates a mission to implement it The book serves to establish points of encounter rather than points of departure in order to contribute to the ongoing reflection by those who believe in that message as well as to the debates with those who oppose it **Love's Philosophy** Richard John White,2001 Love comes in many forms and touches all our lives and despite its changing history it remains constant in human experience Love s Philosophy explores the basic expressions of love In this book White looks at friendship romance parenthood and humanitarian love in classical and contemporary perspective He argues that the philosophical oblivion of love has been a mistake By examining both the historical and contemporary formations of love he proposes alternative models to guide both our thinking and our experience of loving **The Indian Way** John M Koller,2016-05-23 There is no other book that explains both the philosophies and religions of India in their full historical development The Indian Way is accessible to beginning students and does justice to the Indian tradition s richness of religious and philosophical thought Clear and powerful explanations of yajna and dharma and appealing intimate descriptions of Krishna Kali and Shiva allow students to read some of the great Indian texts for themselves Shame and Pride Donald L. Nathanson,2015-06-26 This is a revolutionary book about the nature of emotion about the way emotions are triggered in our private moments in our relations with others and by our biology Drawing on every theme of the modern life sciences Donald Nathanson shows how nine basic affects interest excitement enjoyment joy surprise startle fear terror distress anguish anger rage dissmell disgust and shame humiliation not only determine how we feel but shape our very sense of self For too long those who explain emotional discomfort on the basis of lived experience and those who blame chemistry have been at loggerheads As Dr Nathanson shows chemicals and illnesses can affect our mood just as surely as an uncomfortable memory or a stern rebuke Linking for the first time the affect theory of the pioneering researcher Silvan S Thomkins with the entire world of biology medicine psychology psychotherapy religion and the social sciences Dr Nathanson presents a completely new understanding of all emotion

Alienation and Identity in Romantic Love Gary Foster,2024-08-06 The concept of romantic love influenced as it is by the theme within Romanticism of alienation and identification suggests an important connection between love and personal identity Love in this context recognizes both the sense in which one s beloved is a separate human being and is at the same time a constitutive aspect of one s identity Alienation and Identity in Romantic Love explores this connection in the context of discussions of both metaphysical views of personal identity and practical or ethical accounts To this end Gary Foster discusses the work of influential philosophers in both the analytic and continental traditions as well as the findings of sociologists He explores the love and personal identity relationship through moral and narrative perspectives and examines certain aspects of the modern love experience such as the phenomenon of online dating Ultimately Foster finds in Jean Paul Sartre s work a promising approach to understanding this connection through his emphasis on embodied identity **What**

Could He Be Thinking? Michael Gurian, 2003-09-26 Publisher Description For the Love of Animals Kathryn Shevelow, 2025-08-22 The engaging story of how an unlikely group of extraordinary people laid the foundation for the legal protection of animals In eighteenth century England where cockfighting and bullbaiting drew large crowds and the abuse of animals was routine the idea of animal protection was dismissed as laughably radical But as pets became more common human attitudes toward animals evolved steadily An unconventional duchess defended their intellect in her writings A gentleman scientist believed that animals should be treated with compassion And with the concentrated efforts of an eccentric Scots barrister and a flamboyant Irishman the lives of beasts and correspondingly men and women began to change Kathryn Shevelow a respected eighteenth century scholar gives us the dramatic story of the bold reformers who braved attacks because they sympathized with the plight of creatures everywhere More than just a history this is an eye opening exploration into how our feelings toward animals reveal our ideas about ourselves God mercy and nature Accessible and lively For the Love of Animals is a captivating cultural narrative that takes us into the lives of animals and into the minds of humans during some of history s most fascinating times *Capitalism* Ayn Rand, Nathaniel Branden, Alan Greenspan, Robert Hessen, 1986-07-15 In this series of essays Ayn Rand presents her stand on the persecution of big business the causes of war the default of conservatism and the evils of altruism The foundations of capitalism are being battered by a flood of altruism which is the cause of the modern world s collapse This is the view of Ayn Rand a view so radically opposed to prevailing attitudes that it constitutes a major philosophic revolution Here is a challenging new look at modern society by one of the most provocative intellectuals on the American scene This edition includes two articles by Ayn Rand that did not appear in the hardcover edition The Wreckage of the Consensus which presents the Objectivists views on Vietnam and the draft and Requiem for Man an answer to the Papal encyclical Progresso Populorum Love's Vision Troy Jollimore, 2011-07-05 Love often seems uncontrollable and irrational but we just as frequently appear to have reasons for loving the people we do In Love s Vision Troy Jollimore offers a new way of understanding love that accommodates both of these facts arguing that love is guided by reason even as it resists and sometimes eludes rationality At the same time he reconsiders love s moral status acknowledging its moral dangers while arguing that it is at heart a moral phenomenon an emotion that demands empathy and calls us away from excessive self concern Love is revealed as neither wholly moral nor deeply immoral neither purely rational nor profoundly irrational Rather as Diotima says in Plato s Symposium love is something in between Jollimore makes his case by proposing a vision view of love according to which loving is a way of seeing that involves bestowing charitable attention on a loved one This view recognizes the truth in the cliché love is blind but holds that love s blindness does not undermine the idea that love is guided by reason Reasons play an important role in love even if they rest on facts that are not themselves rationally justifiable Filled with illuminating examples from literature Love s Vision is an original examination of a subject of vital philosophical and human concern
