LOVE AND MOTHERHOOD IN TONI MORRISON'S BELOVED Zita Rarastesa,2011-10-19 This book discusses Toni Morrison's *Beloved* and attempts to explain the healing process of black people in the United States from the pain of slavery. Using a black feminist approach, the author discusses how the female characters deal with the past and live with it in the present, what love and motherhood mean to the female characters, and how much the past influences their lives. This approach is considered the most effective one to analyze *Beloved* related to three kinds of inseparable oppression: sexism, racism, and classism. *Beloved* delivers a universal message to all black people that even though they must live with the past of slavery, they should learn from it to face the future. Although the pain of slavery still remains in black people's memories, they have to move on. *Beloved* also makes the readers see that not all black people are victims and not all white people are oppressors.

Nelson's Love Francis,1958-06-16 **The Bond of Love: Catholic Teaching on Marriage & Sexual Ethics** Willem Jacobus Cardinal Eijk,2025-09-10 Contemporary attitudes toward marriage, family life, and human sexuality have undergone profound changes since the mid-twentieth century, spurred by a host of social and cultural factors. Large segments of the population in the West now hold views on marriage and sexual ethics that are very different from the values and norms taught by the Church. Indeed, Catholic teaching on the truth of marriage and human sexuality is open to strong criticism, including among groups of Catholics, and seems at best poorly understood. In *The Bond of Love*, Willem Jacobus Cardinal Eijk provides a comprehensive and unflinching account of the Church's teaching on marriage and sexual ethics, dispelling misconceptions and elucidating its truth with grace and clarity. As he demonstrates, far from being a set of arbitrary rules that constrain human freedom, this teaching is instead a deep wisdom for human flourishing, anchored in the truth of God and man divinely revealed within Scripture. Tradition and the Gospel. Eijk first locates Catholic teaching on marriage and sexuality in relation to the currently dominant views in Western society. He follows this with an exposition of the fundamental starting point of the Church's teaching on the nature of marriage and sexuality, rooted in theological anthropology. Next, discussed is the virtue of chastity, the integration of the sexual faculties into the personality, and what it requires of both married and unmarried persons. The volume concludes by addressing practices and circumstances that violate the essence of marriage. This powerful witness to the truth and beauty of Catholic teaching on marriage and sexual ethics is a vital resource for pastors, teachers, and all of the Church's faithful striving to live in the love and communion that is grounded in Christ.
