Love Memory:

Love's Memory Betty McLain, 2021-12-06 Love was in the air People everywhere were being matched by a magic mirror and falling in love Silas watched his family grow larger from all the marriages and children He wondered when his time would come but a part of his mind couldn't let go of a memory from long ago of a beautiful girl He called her his woodland sprite but where had she gone and would he ever see her again May struggled against the unwanted advances of the man her mother wanted her to marry She did not love him Her memories were full of the vision of a boy she loved from afar but her family had left that place long ago She never expected to see him again especially not in the reflection of the magic mirror She knew she loved him but following her heart meant leaving her family and returning to the home they left behind Could their love be strong enough to withstand the wrath of her mother and become more than just a memory **Past Love**

world religions Joseph Brodsky L. Loseff,V. Polukhina,1999-06-23 This is an imaginative work of literary criticism Thirteen scholars have selected a wide variety of Joseph Brodsky s poems written between 1970 and 1994 for detailed discussion in the context of his whole output The choice of poems reflects Brodsky s diversity of themes and devices Together they offer a perspective on one of the most original and profound modern poets This collection should fulfil the often expressed need for a comprehensive approach to the study of Brodsky s poetry which is linguistically as well as intellectually demanding *Memory and Migration* Andreas Kitzmann,2011-01-01 Julia Creet is an associate professor in the Department of English at York University *Love's Knowledge* Martha C. Nussbaum,1990 This volume brings together Nussbaum s published papers on the relationship between literature and philosophy especially moral philosophy The papers many of them previously inaccessible to non specialist readers deal with such fundamental issues as the relationship between style and content in the exploration of ethical issues the nature of ethical attention and ethical knowledge and their relationship to written forms and styles and the role of the emotions in deliberation and self knowledge Nussbaum investigates and defends a conception of ethical understanding which involves emotional as well as intellectual activity and which gives a certain type of priority to the perception of particular people and situations rather than to abstract rules She argues that this ethical conception cannot be completely and appropriately stated without turning to forms of writing usually considered literary rather than philosophical It is consequently necessary to broaden our conception of moral philosophy in order to include these forms Featuring two new essays and revised versions of several previously published essays this collection attempts to articulate the relationship within such a broader ethical inquiry between literary and more abstractly theoretical elements
