Magical Thinking Stuart McWilliams, 2011-12-08 How do we write about magic Responding to a renewed interest in the history of the occult this volume examines the role of magic in a series of methodological controversies in the humanities In case studies ranging from the necromancy of historiography to the strident rationalism of the New Atheism Magical Thinking sets out the surprising ways in which scholars and critics have imagined the occult The volume argues that thinking and writing about magic has engendered multiple epistemological crises profoundly unsettling the understanding of history and knowledge in Western culture By examining how scholarly writing has contended and conspired with discourses of enchantment the book reveals the implications of magic and its scholarship for intellectual history

Envisioning Magic Peter Schäfer, Hans Kippenberg, 2018-09-24 This collection of twelve articles presents a selection of papers delivered in the course of a seminar 1994 95 and its concluding international symposium at the Institute for Advanced Study in Princeton The common theme is the interrelation between magic and religion focussing particularly on the Mediterranean world in Antiquity Egyptian Graeco Roman and Jewish beliefs and customs but also treating the early modern period in Northern Europe the Netherlands and Germany as well as offering more general reflections on elements of magic in language and Jewish mysticism The volume is characterized by an interdisciplinary approach and the use of varied methodologies emphasizing the dynamic nature of the often contradictory

forces shaping religious beliefs and practices while dismissing the idea of a linear development from magic to religion or vice versa The contributors are outstanding scholars in their fields Ancient Medieval and Modern History Religious Studies Jewish Studies Classical Studies Early Christianity Islamic Studies Anthropology Egyptology and Comparative Literature Without a doubt this re evaluation of a fascinating age old subject will stimulate scholarly discussion and appeal to educated non specialist readers as well **The American Journal of Religious Psychology and Education** ,1912 *Journal of Religious Psychology, Including Its Anthropological and Sociological Aspects* ,1912 Includes section Book reviews

Journal of Religious Psychology Granville Stanley Hall,Alexander Francis Chamberlain,1912 Includes section Book reviews **Jewish Magic and Superstition** Joshua Trachtenberg,2012-10-08 Alongside the formal development of Judaism from the eleventh through the sixteenth centuries a robust Jewish folk religion flourished ideas and practices that never met with wholehearted approval by religious leaders yet enjoyed such wide popularity that they could not be altogether excluded from the religion According to Joshua Trachtenberg it is not possible truly to understand the experience and history of the Jewish people without attempting to recover their folklife and beliefs from centuries past Jewish Magic and Superstition is a masterful and utterly fascinating exploration of religious forms that have all but disappeared yet persist in the imagination The volume begins with legends of Jewish sorcery and proceeds to discuss beliefs about the evil eye spirits of the dead powers of good the famous legend of the golem procedures for casting spells the use of gems and amulets how to battle spirits the ritual of circumcision herbal folk remedies fortune telling astrology and the interpretation of dreams First published more than sixty years ago Trachtenberg s study remains the foundational scholarship on magical practices in the Jewish world and offers an understanding of folk beliefs that expressed most eloquently the everyday religion of the Jewish people Mystic Moderns James H. Thrall,2020-01-21 Mystic Moderns examines the responses of three British authors Evelyn Underhill 1875 1941 May Sinclair 1863 1946 and Mary Webb 1881 1927 to the emerging modernity of the long early twentieth century moment encompassing the First World War As they explored divergent but overlapping understandings of what mystical experience might be these authors rejected claims that modernity s celebration of the secular and rational left no place for the mystical rather they countered sensitivity to a greater reality could both establish and validate personal agency and was integral to their identities as modern women Their preoccupations with the dynamism of human connection drew on prevailing ideas of vital energy or life force developed by Arthur Schopenhauer and Henri Bergson in ways that channeled modernity s erotic energy of change By using their fiction to describe new self authenticating forms of mysticism separate from either the prevailing orthodoxy of establishment Christianity or the extreme heterodoxy of their era s enthusiasm for paranormal experimentation they also contributed to the rise of a generic concept of spirituality Mystic Moderns thus offers historical perspective on contemporary claims for self constructed non institutional spiritual experience associated with the claim I m spiritual not religious Working as they did within the shadow of the First World War Underhill

Sinclair and Webb were in the end attempting to determine what might be of authentic value for a modern age marked by ubiquitous death. While not themselves utopian authors, each was touched by her era's complicated hunger for the best of all possible worlds. Their constructions of how an individual should be and act in the midst of modernity thus simultaneously projected visions of what that modernity itself should become. **Rabbi, Mystic, or Impostor?** Michal Oron, 2020-03-04. The enigmatic kabbalist Samuel Falk, known as the Ba'al Shem of London, has piqued the curiosity of scholars for generations. Eighteenth-century London was fascinated by Jews, and as a miracle worker and adventurer, well-connected and well-read, Falk had much to offer. Interest in the man was further aroused by rumours of his dealings with European aristocrats and other famous characters, as well as with scholars, Freemasons, and Shabbateans, but evidence was scanty. Michal Oron has now brought together all the known source material on the man, and her detailed annotations of his diary and that of his assistant give us rich insights into his activities over several years. We learn of his meetings and his travels, his finances, his disputes, his dreams, and his remedies, and lists of his books. We see London's social life and commerce, its landed gentry and its prisons, and what people ate, wore, and possessed. The burgeoning Jewish community of London and its religious practices, as well as its communal divisiveness, is depicted especially colourfully. The scholarly introductions by Oron and by Todd Endelman, and the informative appendices, help contextualize the diaries and offer an intriguing glimpse of Jewish involvement in little-known aspects of London life at the threshold of the modern era. Translated by Edward Levin. With an introduction by Todd M. Endelman. **A Kabbalah and Jewish Mysticism Reader** Daniel M. Horwitz, 2016-04. An unprecedented annotated anthology of the most important Jewish mystical works. **A Kabbalah and Jewish Mysticism Reader** is designed to facilitate teaching these works to all levels of learners in adult education and college classroom settings. Daniel M. Horwitz's insightful introductions and commentary accompany readings in the Talmud and Zohar and writings by Ba'al Shem Tov, Rav Kook, Abraham Joshua Heschel, and others. Horwitz's introduction describes five major types of Jewish mysticism and includes a brief chronology of their development with a timeline. He begins with biblical prophecy and proceeds through the early mystical movements up through current beliefs. Chapters on key subjects characterize mystical expression through the ages, such as Creation and *devekut*, cleaving to God, the role of Torah, the erotic inclinations toward good and evil, magic, prayer, and ritual, and more. Later chapters deal with Hasidism, the great mystical revival, and twentieth-century mystics, including Abraham Isaac Kook, Kalonymus Kalman Shapira, and Abraham Joshua Heschel. A final chapter addresses today's controversies concerning mysticism's place within Judaism and its potential for enriching the Jewish religion. **Rational Mysticism** John Horgan, 2004-03-22. The author of *The End of Science* chronicles the most advanced research into such experiences as prayer, fasting, and trances. In this great read, *The Washington Post* says, "How do trances, visions, prayer, *satori*, and other mystical experiences work? What induces and defines them? Is there a scientific explanation for religious mysteries and transcendent meditation?" John Horgan investigates a wide range of fields: chemistry, neuroscience, psychology, anthropology,

theology and more to narrow the gap between reason and mystical phenomena As both a seeker and an award winning journalist Horgan consulted a wide range of experts including theologian Huston Smith spiritual heir to Joseph Campbell Andrew Newberg the scientist whose quest for the God module was the focus of a Newsweek cover story Ken Wilber prominent transpersonal psychologist Alexander Shulgin legendary psychedelic drug chemist and Susan Blackmore Oxford educated psychologist parapsychology debunker and Zen practitioner Horgan explores the striking similarities between mystical technologies like sensory deprivation prayer fasting trance dancing meditation and drug trips He participates in experiments that seek the neurological underpinnings of mystical experiences And finally he recounts his own search for enlightenment adventurous poignant and sometimes surprisingly comic Horgan s conclusions resonate with the controversial climax of *The End of Science* because as he argues the most enlightened mystics and the most enlightened scientists end up in the same place confronting the imponderable depth of the universe
