Exploring Magic Realism in Salman Rushdie's Fiction Ursula Kluwick, 2013-02-28 Kluwick breaks new ground in this book moving away from Rushdie studies that focus on his status as postcolonial or postmodern and instead considering the significance of magic realism in his fiction Rushdie s magic realism in fact lies at the heart of his

engagement with the post colonial In a departure from conventional descriptions of magic realism based primarily on the Latin American tradition Kluwick here proposes an alternative definition allowing for a more accurate description of the form She argues that it is disharmony rather than harmony that is decisive that the incompatibility of the realist and the supernatural needs to be recognized as a driving force in Rushdie's fiction In its rigorous analysis of this Rushdian magic realism this book considers the entire corpus *Midnight's Children* *Shame* *The Satanic Verses* *The Moor's Last Sigh* *The Ground Beneath Her Feet* *Shalimar the Clown* and *The Enchantress of Florence* This study is the first of its kind to do so

What Is Magical Realism? Kenneth S. Reeds, 2014-06-26 This is the first book to carefully show the ways that magical realism emerged in the twentieth century in places other than Latin America For example the definition is given that works must contain elements of the neo fantastic along with re casting history Gabriel Garc a Mirquez being the acknowledged representative author of the genre contains both in his novels Authors like Gunter Grass Franz Kafka Jorge Luis Borges and Alejo Carpenter all contain some but not all elements of the genre They can be considered early progenitors but not fully within the same classification as magical realism Today in its fully developed form magical realism is often viewed as being purposefully vague with determining the lines between fact and magic

Catching Butterflies Maria Takolander, 2007 Magical realism was one of the most significant literary developments in the last century It has become synonymous with the seductive fictions of writers such as Gabriel Garc a M rquez Salman Rushdie Toni Morrison Ben Okri Jeanette Winterson and Peter Carey However the genre has also become known for its theoretical indeterminacy In fact exoticist speculation inspired by the links between magical realist literature and the world's cultural or political margins has thrown the category into critical disrepute This book rescues magical realism from misreadings and misdemeanours tracing the historical development of the literary genre and analysing an original spectrum of magical realist texts from Latin America Africa India Canada the US the UK and Australia It

asks such questions as How did magical realism come to take over the world What is the nature of its allure Also how does the marginal status of its authors inform the genre Does magical realism have a political agenda This book uses postcolonial theory to investigate notions of cultural identity and post structural theory to examine the narrative strategies of magical realism presenting a comprehensive historical and theoretical overview of the genre and a politically urgent argument about its subversive potentialities

Chevalier,2020-04-30 The Palgrave Handbook of Magical Realism in the Twenty First Century examines magical realism in literatures from around the globe Featuring twenty seven essays written by leading scholars this anthology argues that literary expressions of magical realism proliferate globally in the twenty first century due to travel and migrations the shrinking of time and space and the growing encroachment of human life on nature In this global context magical realism addresses twenty first century politics aesthetics identity and social national formations where contact between and within cultures has exponentially increased

altering how communities and nations imagine themselves This text assembles a group of critics throughout the world the Americas Europe Africa Asia the Middle East and Australia who employ multiple theoretical approaches to examine the different ways magical realism in literature has transitioned to a global practice thus signaling a new stage in the history and development of the genre *Magical Realism and Literature* Christopher Warnes, Kim Anderson Sasser, 2020-10-31 Magical realism can lay claim to being one of most recognizable genres of prose writing It mingles the probable and improbable the real and the fantastic and it provided the late twentieth century novel with an infusion of creative energy in Latin America Africa Asia and beyond Writers such as Alejo Carpentier Gabriel Garc a M rquez Isabel Allende Salman Rushdie Ben Okri and many others harnessed the resources of narrative realism to the representation of folklore belief and fantasy This book sheds new light on magical realism exploring in detail its global origins and development It offers new perspectives of the history of the ideas behind this literary tradition including magic realism otherness primitivism ethnography indigeneity and space and time Encyclopedia of World Writers, 1800 to the Present Marie Diamond, 2020-07-01 In recent years schools have started introducing more inclusive syllabi emphasizing the works and ideas of previously overlooked or underrepresented writers Readers of all ages can now explore the rich contributions of writers from around the world These writers have various backgrounds and unlike most writers from the U S or the United Kingdom information on them in English can be difficult to find Encyclopedia of World Writers 1800 to the Present covers the most important writers outside of the U S Britain and Ireland since 1800 More than 330 insightful A to Z entries profile novelists poets dramatists and short story writers whose works are anthologized in textbooks or assigned in high school English classes Entries range in length from 200 to 1 000 words each and include a biographical sketch synopses of major works and a brief bibliography Dozens of entries are new to this edition and many existing entries have been updated and significantly expanded with new Critical Analysis sections Coverage includes Chinua Achebe Margaret Atwood Roberto Bola o Albert Camus Khalid Hosseini Victor Hugo Mohammad Iqbal Franz Kafka Stieg Larsson Mario Vargas Llosa Naghib Mahfouz Gabriel Garc a M rquez Kenzaburo Oe Marcel Proust Leo Tolstoy Emile Zola and more **Realism's Others** Eva Aldea, Geoffrey Baker, 2010-07-12 For at least a century scholarship on realist narrative and occasional polemics against realist narrative have assumed that realism promotes the values of sameness against those of otherness and that it does so by use of a narrative mode that excludes certain epistemologies ideologies and ways of thinking However the truth is more complex than that as the essays in this volume all demonstrate Realism's Others examines the various strategies by which realist narratives create the idea of difference whether that difference is registered in terms of class ethnicity epistemology nationality or gender The authors in this collection examine in detail not just the fact of otherness in some canonical realist and canonical magical realist and postmodern novels but the actual means by which that otherness is established by the text These essays suggest that neither realist narrative nor narratives positioned as anti realist take otherness for granted rather the texts discussed here actively

create difference and this creation of difference often occasions severe difficulties for the novels representational schema. How does one represent different types of knowledge, other aesthetic modes or other spaces for example in texts whose epistemology has long been seen as secular and empirical whose aesthetic mode has always been approached as pure descriptive mimesis and whose settings are largely domestic? These essays all begin with a certain collision of nationalities, of classes, of representational matrices, of religions and go on to chart the challenges that this collision presents to our ideas or stereotypes of realism or to the possibilities of writing against and beyond realism. This question motivates examination of key realist or social realist texts in some of these essays by Honoré de Balzac, George Eliot, Franz Grillparzer, Theodor Storm, Gottfried Keller, Theodor Fontane, Wilhelm Raabe, María Amparo Ruiz de Burton, Henry James, William Dean Howells, Charles Chesnutt, Theodore Dreiser, H. T. Tsiang, Alan Sillitoe and Richard Yates. However, it is no less central a question in certain non-realist texts which engage realist aims to a surprising degree, often to debate them openly. Some of these essays discuss in this light fantastic, magical realist and postmodern works by Abram Tertz, Paul Auster, Alejo Carpentier, Toni Morrison, Gabriel García Márquez, Salman Rushdie and A. S. Byatt. Realism becomes more than an aesthetic aim or narrative mode. It becomes rather a value evoked and discussed by all of the works analyzed here in order to reveal its impact on fiction's treatment of ethnicity, nationality, ideology, space, gender and social class.
