Treat or Trick? Halloween in a Globalising World Malcolm Foley,Hugh O'Donnell,2008-12-18 In 1999 the French bishops condemned the celebration of Halloween in France In 2003 the Moscow Department of Education recommended the banning of Halloween celebrations in all educational institutions under its control In 2008 a group of Catalan intellectuals launched an internet petition against the Halloween celebrations organised by the Port Aventura theme park arguing that they were detrimental to long standing Catalan traditions associated with 31 October In the meantime children and young people all over Europe and increasingly adults are energetically adopting and adapting the American version of Halloween as a source of fun community building and general revelry So are we all being tricked by rampant cultural imperialism or responding creatively to the arrival of Halloween as a welcome onset of winter treat This book which arose out of the first ever conference on the topic of Halloween held in Glasgow Scotland on 31 October 2006 brings together a series of studies examining the phenomenon of Halloween from a wide range of perspectives its origins the ways in which it is now and has been in the past celebrated in the British Isles its spectacular arrival in both Eastern and Western Europe over the last two decades its links with tourism and its multifaceted presence in the media What emerges is a phenomenon of astonishing

complexity characterised by multiple meanings and intense battles over ownership     [Early Modern Media Ecology](#) Peter W. Marx,2024-02-15 The early modern world was as enigmatic as it was dynamic New epistemologies and technologies open controversies about the world and afterworld encounters with various cultures and numerous forms of entertainment wetted the appetite for ever new sensational experiences an emerging visual language and different social constellations Thaumaturgy the art of making wonder was the historical term under which many of these forms were subsumed encompassing everything from magic lanterns to puppets to fireworks and deliberately mingling the spheres of commercial entertainment art and religion But thaumaturgy was not just an idle pastime but a vital field of cultural and intercultural negotiation This Element introduces this field and suggests a new form of historiography media ecology which focuses on connections formations and transformations and takes a global perspective     **Birnbaum's Walt Disney World 2005**

In the early modern period England radically expanded its participation in an economy that itself was becoming increasingly global Yet less than twenty years after the highly profitable English East India Company made its first voyage England was suffering from an economic depression blamed largely on the shortage of coin necessary to exploit those very same profitable routes How could there be profit in the face of so much loss and loss in the face of so much profit In Tragicomic Redemptions Valerie Forman contends that three seemingly unrelated domains the development of new economic theories and practices especially those related to global trade the discourses of Christian redemption and the rise of tragicomedy as the stage s most popular genre were together crucial to the formulation of a new and paradoxical way of thinking about loss and profit in relationship to one another Forman reads plays including Shakespeare s Twelfth Night The Merchant of Venice Pericles and The Winter s Tale Fletcher s The Island Princess Massinger s The Renegado and Webster s The Devil s Law Case alongside a range of historical materials that provide a fuller picture of England s participation in a global economy the writings of the

country's earliest economic theorists narrative accounts of merchants and captives in the Spice Islands and the Ottoman Empire and documents that detail the development of the English East India Company the Levant Company and even the very idea of the joint stock company Unique in its dual focus on literary form and economic practices Tragicomic Redemptions both shows how concepts fundamental to capitalism's existence such as free trade and investment develop within a global context and reveals the exceptional place of dramatic form as a participant in the newly emerging public discourse of economic theory    **Ballads and Broadsides in Britain, 1500-1800** Patricia Fumerton, Anita Guerrini, Kris McAbee, 2010 Bringing together diverse scholars to represent the full historical breadth of the early modern period and a wide range of disciplines literature women's studies folklore ethnomusicology art history media studies the history of science and history Ballads and Broadsides in Britain 1500-1800 offers an unprecedented perspective on the development and cultural practice of popular print in early modern Britain
