Magic In Late Antiquity Pagans Jews And Christians:

Magic in the Roman World Naomi Janowitz, 2001 A lively volume exploring the use and abuse of the word magic in late antique texts

Jews and Christians in Their Graeco-Roman Context Pieter Willem van der Horst, 2006 A collection of essays most of which were published previously Partial contents

Religious Diversity in Late Antiquity David Morton Gwynn, Susanne Bangert, 2010 This volume in the ongoing Late Antique Archaeology series draws on material and textual evidence to explore the diverse religious world of Late Antiquity Subjects include Jews and Samaritans orthodoxy and heresy pilgrimage stylites magic the sacred and the secular

Pagans and Christians in Late Antiquity A.D. (Doug) Lee, 2013-04-15 In this book A D Lee charts the rise to dominance of Christianity in the Roman empire Using translated texts he explains the fortunes of both Pagans and Christians from the upheavals of the 3rd Century to the increasingly tumultuous times of the 5th and 6th centuries The book also examines important themes in Late Antiquity such as the growth of monasticism the emerging power of bishops and the development of pilgrimage and looks at the fate of other significant religious groups including the Jews Zoroastrians and Manichaeans

The Power of Religion in Late Antiquity Andrew Cain, 2016-09-17 Late Antiquity witnessed a dramatic recalibration in the economy of power and nowhere was this more pronounced than in the realm of religion The transformations that occurred in this pivotal era moved the ancient world into the Middle Ages and forever changed the way that religion was practiced The twenty eight studies in this volume explore this shift using evidence ranging from Latin poetic texts to Syriac letter collections to the iconography of Roman churches and Merovingian mortuary goods They range in chronology from the late third through the early seventh centuries AD and apply varied theories and approaches All converge around the notion that religion is fundamentally a discourse of power and that power in Late Antiquity was especially charged with the force of religion The articles are divided into eight sections which examine the power of religion in literature theurgical power over the divine emperors and the deployment of religious power limitations on the power of the ecclesiastical hierarchy the use of the cross as a symbol of power Rome and its transformation as a center of power the power of religion in the barbarian west and religious power in the communities of the east This kaleidoscope of perspectives creates a richly illuminating volume that add a new social and political dimension to current debates about religion in Late Antiquity

Rhetoric and Religious Identity in Late Antiquity Richard Flower, Morwenna Ludlow, 2020 Rhetoric and Religious Identity in Late Antiquity takes an interdisciplinary approach to the question of how individuals and groups ascribed religious categories during late antiquity Particular focus is given to the role of rhetoric in the expression of religious identity in order to give mutual illumination to both phenomena in this period

Pagans and Christians in Late Antique Rome Michele Renee Salzman, Marianne Sághy, Rita Lizzi Testa, 2016 This book sheds new light on the religious and consequently social changes taking place in late antique Rome The essays in this volume argue that the once dominant notion of pagan Christian religious conflict cannot fully explain the texts and artifacts as well as the social

religious and political realities of late antique Rome Together the essays demonstrate that the fourth century city was a more fluid vibrant and complex place than was previously thought Competition between diverse groups in Roman society be it pagans with Christians Christians with Christians or pagans with pagans did create tensions and hostility but it also allowed for coexistence and reduced the likelihood of overt violent physical conflict Competition and coexistence along with conflict emerge as still central paradigms for those who seek to understand the transformations of Rome from the age of Constantine through the early fifth century

Brocke, I.E. Zwiep, 2006-03-28 Zutot Perspectives on Jewish Culture aims to fill a gap that has become more and more conspicuous among the wealth of scholarly periodicals in the field of Jewish Studies Whereas existing journals provide space to medium and large sized articles they neglect the small but poignant contributions which may be as important as the extended detailed study The yearbook Zutot serves as a platform for small but incisive contributions and provides them with a distinct context The substance of these contributions is derived from larger perspectives and though not always presented in an exhaustive way will have an impact on contemporary discussions Zutot covers Jewish Culture in its broadest sense i.e. encompassing various academic disciplines literature languages and linguistics philosophy art sociology politics and history and reflects binary oppositions such as religious and secular high and low written and oral male and female culture Magic in the Roman World Naomi Janowitz, 2002-09-11 Using in depth examples of magical practice such as exorcisms love rites alchemy and the transformation of humans into divine beings this lively volume demonstrates that the word magic was used widely in late antique texts as part of polemics against enemies and sometimes merely as a term for other people's rituals Naomi Janowitz shows that magical activities were integral to late antique religious practice and that they must be understood from the perspective of those who employed them **The Scriptural Universe of Ancient Christianity** Guy G. Stroumsa, 2016-11-14 Perhaps more than any other cause the passage of texts from scroll to codex in late antiquity converted the Roman Empire from paganism to Christianity and enabled the worldwide spread of Christian faith Guy Stroumsa describes how canonical scripture was established and how its interpretation replaced blood sacrifice in religious ritual **Magic and Superstition in Europe** Michael D. Bailey, 2007 The only comprehensive single volume survey of magic available this compelling book traces the history of magic and superstition in Europe from antiquity to the present Focusing mainly on the medieval and early modern era Michael Bailey also explores the ancient Near East **Religion and Law in Classical and Christian Rome** Clifford Ando, 2006 Law is a particularly fruitful means by which to investigate the relationship between religion and state It is the mechanism by which the Roman state and its European successors have regulated religion in the twin actions of constraining religious institutions to particular social spaces and of releasing control over such spaces to those orders This volume analyses the relationship from the late Republic to the final codification of Roman law in Justinian's Constantinople *The Spread of Christianity in the First Four Centuries* William Vernon Harris, 2005 This collection of essays by contemporary historians considers how after two centuries of scholarship we can best explain Christianity's rise to dominance Rabbinic Drinking Jordan D. Rosenblum, 2020-01-21 Though ancient rabbinic

texts are fundamental to analyzing the history of Judaism they are also daunting for the novice to read Rabbinic literature presumes tremendous prior knowledge and its fascinating twists and turns in logic can be disorienting Rabbinic Drinking helps learners at every level navigate this brilliant but mystifying terrain by focusing on rabbinic conversations about beverages such as beer and wine water and even breast milk By studying the contents of a drinking vessel including the contexts and practices in which they are imbibed Rabbinic Drinking surveys key themes in rabbinic literature to introduce readers to the main contours of this extensive body of historical documents Features and Benefits Contains a broad array of rabbinic passages accompanied by didactic and rich explanations and contextual discussions both literary and historical Thematic chapters are organized into sections that include significant and original translations of rabbinic texts Each chapter includes in text references and concludes with a list of both referenced works and suggested additional readings

Byzantine Style, Religion and Civilization Elizabeth Jeffreys, 2006-10-12 A volume of cutting edge essays written in honour of renowned Byzantinist Sir Steven Runciman The Specter of the Jews Ari Finkelstein, 2018-11-06 In the generation after Constantine the Great elevated Christianity to a dominant position in the Roman Empire his nephew the Emperor Julian sought to reinstate the old gods to their former place of prominence in the face of intense opposition from the newly powerful Christian church In early 363 c e while living in Syrian Antioch Julian redoubled his efforts to hellenize the Roman Empire by turning to an unlikely source the Jews With a war against Persia on the horizon Julian thought it crucial that all Romans propitiate the true gods and gain their favor through proper practice To convince his people he drew on Jews whom he characterized as Judeans using their scriptures institutions practices and heroes sometimes as sources for his program and often as models to emulate In The Specter of the Jews Ari Finkelstein examines Julian s writings and views on Jews as Judeans a venerable group whose religious practices and values would help delegitimize Christianity and surprisingly shape a new imperial Hellenic pagan identity Magic and the Supernatural in Fourth Century Syria Silke Trzcionka, 2006-11-22 Magic and the Supernatural in Fourth Century Syria presents an in depth investigation of a variety of magical practices with a focused study in the late antique Syria and Palestine Offering new research using both archaeological and literary sources and blending Classical Jewish and Christian traditions from both regions Silke Trzcionka examines a myriad of magical activities such as curses spells and amulets accusations related to chariot races love and livelihood methods involved in protection healing possession and exorcism The information is provided with clarity and theoretical sophistication which enables students to develop an understanding of these beliefs and their place within the social context of the time Altogether a useful enlightening and enjoyable book which students studying religion and or social history will find invaluable The Demonic in the Political Thought of Eusebius of Caesarea Hazel Johannessen, 2016-09-15 The Demonic in the Political Thought of Eusebius of Caesarea explores how Eusebius of Caesarea s ideas about demons interacted with and helped to shape his thought on other topics particularly political topics Hazel Johannessen builds on and

complements recent work on early Christian and early modern demonology Eusebius political thought has long drawn the attention of scholars who have identified in some of his works the foundations of later Byzantine theories of kingship However Eusebius political thought has not previously been examined in the light of his views on demons Moreover despite frequent references to demons throughout many of Eusebius works there has been no comprehensive study of Eusebius views on demons until now as expressed throughout a range of his works The originality of this study lies both in an initial examination of Eusebius views on demons and their place in his cosmology and in the application of the insights derived from this to consideration of his political thought As a result of this new perspective Johannessen challenges scholars traditional characterization of Eusebius as a triumphal optimist Instead she draws attention to his concerns about a continuing demonic threat capable of disrupting humankind s salvation and presents Eusebius as a more cautious figure than the one familiar to late antique scholarship
