Magic Mirror Tricks Marion Walter,1971 Magic, Stage Illusions and Scientific Diversions, Including Trick Photography Albert A. Hopkins,2022-09-16 Albert A Hopkins Magic Stage Illusions and Scientific Diversions Including Trick Photography is an intricate exploration of the world of magical arts as they stood at the turn of the 20th century Hopkins delves into the mechanics behind the mysticism providing insights into the methodological rigors that stage illusions and magic tricks demand The prose reflective of its time offers a nostalgic lens into the historical and artistic context of stagecraft and illusion It sits at the intersection of entertainment and science offering a comprehensive guide that is as much about the technical specifics as it is about the culture of magic and performance of the era Albert A Hopkins interest in the mechanics and presentation of illusions expresses itself with clarity and thoroughness in this work His background potentially rooted in the scientific fascination of his time may have impelled him to dissect and systematically recount the inner workings of tricks that captivate audiences The author s dedication is evident in the meticulous attention to detail positioning him as knowledgeable in both the art of illusion and the science of perception For enthusiasts of magic history students of theatrical performance and those fascinated by the interplay between technology and entertainment Hopkins book provides a veritable treasure trove of information The work is commendable for its scholarly dissection of the craft and its context making it an essential read for those yearning to understand the underpinnings of what makes magic truly mesmerizing Magic Stage Illusions and Scientific Diversions Including Trick Photography is a classic that remains relevant for readers interested in the legacy of stagecraft and the evolution of performance entertainment **The Magic Mirror** Robert E. Neale,2002 Card Tricks with Apparatus Hoffmann (Professor),1900 TV Snapshots Lynn Spigel,2022-04-08 In TV Snapshots Lynn Spigel explores snapshots of people posing in front of their television sets in the 1950s through the early 1970s Like today s selfies TV snapshots were a popular photographic practice through which people visualized their lives in an increasingly mediated culture Drawing on her collection of over 5 000 TV snapshots Spigel shows that people did not just watch TV women used the TV set as a backdrop for fashion and glamour poses people dressed in drag in front of the screen and in pinup poses people even turned the TV setting into a space for erotic display While the television industry promoted on screen images of white nuclear families in suburban homes the snapshots depict a broad range of people across racial ethnic and class backgrounds that do not always conform to the reigning middle class nuclear family ideal Showing how the television set became a central presence in the home that exceeded its mass entertainment function Spigel highlights how TV snapshots complicate understandings of the significance of television in everyday life *Llewellyn's 2023 Witches' Companion* Llewellyn,2022-07-08 Llewellyn s *2023 Witches Companion* explores the leading edge of Witchcraft and Pagan lifestyles with more than two dozen articles featuring new insights and hands on magical practices Ari and Jason Mankey reveal how to renew your magical self through cleaning up and letting go Najah Lightfoot explores some of the most

Dustin, 2021-06-29 In *Ghost Words and Invisible Giants* Lheisa Dustin engages psychoanalytic theory to describe the language of suffering of iconic modernist authors H D and Djuna Barnes tracing disconnection psychic splitting and virulent thought patterns in creative works that have usually been read as intentionally enigmatic Dustin imbricates Barnes and H D s sense of tenuous psychic boundaries with others parent figures otherworldly and divine beings and ambivalent or malignant love objects in their creative brilliance suggesting that the writers works stage and also help manage their psychic suffering in language in which signifier the sound or image of the word and signified what it means are radically disconnected The cryptic and ineffable styles of these texts thus involve attempts to embody the meanings that cannot be expressed through language Dustin reads two of H D s later works as examples of language that does not differentiate words thoughts and people from one another and instead tries to include everything in its formulations of meaning However H D she argues also seeks an end to this mental proliferation an end that she associates with the hallucinatory return of difference as such In contrast Dustin reads two novels by Barnes as invoking and denying childhood secrets through the use of fetishized words To supplement her psychoanalytic readings Dustin considers the authors familial and romantic histories and their broader social involvements or noninvolvement for instance H D s Occultist practices and psychoanalytic sessions Barnes s fascination with spectacle and her later reclusion rendering a detailed and compelling analysis of the forces at play beneath enigmatic difficult modernist literary works Read in this light the spectral and otherworldly figures and strange patterns of expression appearing in H D s and Barnes s writing and perhaps much of our writing signal the traumatic content that it tries to negate
