Magical Thinking Poems:

Magical Thinking Joseph Duemer, 2001 Psychologists characterize thinking as a form of thought in which wishes and desires shape the reality we perceive Such thinking is usually dismissed as delusional But most human beings think magically most of the time and have done so throughout history It is the kind of thinking that has produced cathedrals and symphonies depravity and genocide Joseph Duemer s poems attempt to shape his magical thinking into understandable forms His poetry is an argument with science and religion which seek to establish themselves as systems that organize experience into stable meanings

Your Therapist Says It's Magical Thinking Sadie McCarney, 2023-04-18 Sadie McCarney s Your Therapist Says It s Magical Thinking is a buoyant second collection that playfully navigates the turbulent waters of life with mental illness and neurodivergence In much of the book history and science are treated the way they are often viewed by a brain in mental turmoil places and events get switched around facts get rewritten and the fantastical reigns supreme Through poems ranging from didactic the horrible self care advice received by the poet when she was struggling most to historical fiction patients in an asylum in 1800s England to the quirky and unexpectedly fantastical a rainbow carpool unicorn a young child s timeline reversing each morning and an everything bagel that includes competing theories of time McCarney digs deep into the muck of her own lived experience She resurfaces with if not gold at least an old time capsule and a few treasured hunks of bone Your Therapist Says It s Magical Thinking highlights the sometimes dubious but always jubilant inner workings of a mentally unwell brain at play especially within the context of a larger society that frequently seeks to tamp down this weird and rare form of magic

Shakespeare's Sonnets and Narrative Poems A. D. Cousins, 2014-07-21 Alongside Spenser Sidney and the early Donne Shakespeare is the major poet of the 16th century largely because of the status of his remarkable sequence of sonnets Professor Cousins' new book is the first comprehensive study of the Sonnets and narrative poems for over a decade He focuses in particular on their exploration of self-knowledge sexuality and death as well as on their ambiguous figuring of gender Throughout he provides a comparative context looking at the work of Shakespeare's contemporaries The relation between Shakespeare's non-dramatic verse and his plays is also explored

Augustan Poetry and the Irrational Philip Hardie, 2016-01-07 The establishment of the Augustan regime presents itself as the assertion of order and rationality in the political ideological and artistic spheres after the disorder and madness of the civil wars of the late Republic But the classical Apollonian poetry of the Augustan period is fascinated by the irrational in both the public and private spheres There is a vivid memory of the political and military furor that destroyed the Republic and also an anxiety that furor may resurface that the repressed may return Epic and elegy are both obsessed with erotic madness Dido experiences in her very public role the disabling effects of love that are both lamented and celebrated by the love elegists Didactic especially the Georgics and the related Horatian exercises in satire and epistle offer programmes for constructing rational order in the natural political and psychological worlds but at best contain uneasily an ever-present threat of confusion and backsliding and for the most part fall short of the austere standards of rational exposition set by Lucretius Dionysus and the Dionysiac enjoy a prominence in

Augustan poetry and art that goes well beyond the merely ornamental The person of the emperor Augustus himself tests the limits of rational categorization Augustan Poetry and the Irrational contains contributions by some of the leading experts of the Augustan period as well as a number of younger scholars An introduction which surveys the field as a whole is followed by chapters that examine the manifestations of the irrational in a range of Augustan poets including Virgil Horace Ovid and the love elegists and also explore elements of post classical reception *Futures of Enlightenment Poetry* Dustin D. Heuston, 2011-12-05 This study maps a new approach to the works of W B Yeats Robert Frost Robert Penn Warren and Seamus Heaney Sean Heuston combines interdisciplinary analysis specifically ethnography with close reading and in so doing argues provocatively for the intersection of modern poetry studies and contemporary ethnographic theory *The Book of Ezekiel and the Poem of Erra* Daniel Bodi, 1991 **Creative Intuition in Art and Poetry** Jacques Maritain, 2023-10-17 The classic work on the sublime interplay between the arts and poetics This book explores the rich and complex relationship between art and poetry shedding invaluable light on what makes each art form unique yet wholly interdependent Jacques Maritain insists on the part played by the intellect as well as the imagination showing how poetry has its source in the preconceptual activity of the rational mind As Maritain argues intellect is not merely logical and conceptual reason Rather it carries on an exceedingly more profound and obscure life one that is revealed to us as we seek to penetrate the hidden recesses of poetic and artistic activity Incisive and authoritative this illuminating book is the product of a lifelong reflection on the meaning of artistic expression in all its varied forms **Worlds in Consciousness; Mythopoetic Thought in the Novels of Virginia Woolf** Jean O. Magical Consciousness Susan Greenwood, Erik D. Goodwyn, 2015-08-20 How does a mind think magically The research documented in this book is one answer that allows the disciplines of anthropology and neurobiology to come together to reveal a largely hidden dynamic of magic Magic gets to the very heart of some theoretical and methodological difficulties encountered in the social and natural sciences especially to do with issues of rationality This book examines magic head on not through its instrumental aspects but as an orientation of consciousness Magical consciousness is affective associative and synchronistic shaped through individual experience within a particular environment This work focuses on an in depth case study using the anthropologist s own experience gained through years of anthropological fieldwork with British practitioners of magic As an ethnographic view it is an intimate study of the way in which the cognitive architecture of a mind engages the emotions and imagination in a pattern of meanings related to childhood experiences spiritual communications and the environment Although the detail of the involvement in magical consciousness presented here is necessarily specific the central tenets of modus operandi is common to magical thought in general and can be applied to cross cultural analyses to increase understanding of this ubiquitous human phenomenon Library of Congress Subject Headings Library of Congress, 2004
