**The Greatest Viking** Desmond Seward, 2022-11-03

**Raider Conqueror King Saint** This is the story of Olav Haraldsson, the greatest Viking who ever lived. A ruthless Viking warrior who named his most prized battle weapon after the Norse goddess of death, Olav Haraldsson and his mercenaries wrought terror and destruction from the Baltic to Galicia in the early eleventh century. Thousands were put to the sword, enslaved or ransomed. In England, Canterbury was sacked, its archbishop murdered, and London Bridge pulled down. The loot amassed from years of plunder helped Olav win the throne of Norway, and a century after his death, he was proclaimed Eternal King and has been a national hero there ever since. Despite his bloodthirsty beginnings, Olav converted to Christianity, and in a personal vendetta against the old Norse gods, made Norway Christian too, thereby changing irrevocably the Viking world he was born into.

Told with reference to Norse sagas, early chronicles, and the work of modern scholars, Desmond Seward paints an intensely vivid and colourful portrait of the life and times of arguably the greatest Viking of them all.

Norman Conquest explores the pivotal 1066 invasion of England by William the Conqueror a transformative event that reshaped British history This book investigates how the Norman Conquest affected the English monarchy the evolution of the English language and the cultural landscape of medieval Europe For example the introduction of French lexicon and governance systems significantly altered English society The book begins by establishing the historical context of 11th century Europe and the conditions that led to the invasion It then dissects the events of 1066 including the Battle of Hastings scrutinizing the key players and critical decisions Finally it analyzes the long term consequences of the conquest on various facets such as the English language legal system and the arts assessing its lasting legacy on English national identity The book s approach emphasizes the social cultural and linguistic ramifications to provide a comprehensive understanding of the Norman Conquest and its impact      *From Viking Stronghold to Christian Kingdom* Sverre Bagge,2012-08-09 In this seminal work Sverre Bagge provides a detailed account of Norwegian state formation in the period from c 950 to 1350 widening his perspective to include a discussion of the emergence of the medieval state and state formation in the Middle Ages in general The primary objective is to examine Norway as a case that may serve to illuminate some general problems of European state formation in the period problems related both to the formation of the European system of independent kingdoms within a common cultural framework and to the inner development of these kingdoms The volume furthermore examines the changes that took place in the military social economical ideological legal and administrative fields between the first formation of the kingdom and the early fourteenth century which according to common opinion represents a peak in the development of a Norwegian state The volume constitutes a vivid and compelling feat offering a fresh and innovative approach to an important chapter in the history of Norway while also casting new light on developments in the larger context of European history Sverre Bagge is Professor of Medieval History at the Centre for Medieval Studies at the University of Bergen      Rulers and Rulership in the Arc of Medieval Europe, 1000-1200 Christian Raffensperger,2023-08-24 Rulers and Rulership in the Arc of Medieval Europe challenges the dominant paradigm of what rulership is and who rulers are by decentering the narrative and providing a broad swath of examples from throughout medieval Europe Within that territory the prevalent idea of monarchy and kingship is overturned in favor of a broad definition of rulership This book will demonstrate to the reader that the way in which medieval Europe has been constructed in both the popular and scholarly imaginations is incorrect Instead of a king we have multiple rulers male and female ruling concurrently Instead of an independent church or a church striving for supremacy under the Gregorian Reform we have a pope and ecclesiastical leaders making deals with secular rulers and an in depth interconnection between the two Finally instead of a strong centralizing polity growing into statehood we see weak rulers working hand in glove with weak subordinates to make the polity as a whole function Medievalists Byzantinists and Slavists typically operate in isolation from one another They do not read each other s books or engage with each other s work

This book requires engagement from all of them to point out that the medieval Europe that they work in is one and the same and demands collaboration to best understand it      *Heimskringla: The Chronicle of the Kings of Norway* Snorri
