Main Currents In Modern Political Thought

Peter P. Nicholson

Main Currents In Modern Political Thought:

Main Currents in Modern Political Thought John H. Hallowell, 1963 Main Currents in Modern Political Thought John Hamilton Hallowell, 1965 *Modern Political Theory from Hobbes to Marx* Jack Lively, Andrew Reeve, 2013-12-16 This anthology offers students a carefully edited selection of the most influential and enduring interpretations of key political theorists There are sections on Hobbes Locke Rousseau Burke Bentham Mill and Marx Each section includes classic articles by leading critics a substantial introduction by the editors and a guide to further reading A general introduction to the volume as a whole is also provided This is an up to date and extensive guide to the key issues at stake in the interpretative debate and it provides an invaluable text for students and teachers of modern political thought **The Conservative Intellectual Movement in America Since 1945** George H. Nash, 2023-03-28 First published in 1976 George H Nash s celebrated history of the postwar conservative intellectual movement has become the unquestioned standard in the field This new edition published in commemoration of the book s thirtieth anniversary includes a new preface and conclusion by the author and will continue to instruct anyone interested in how today s conservative movement was born **The Political Philosophy of the British Idealists** Peter P. Nicholson, 1990-01-26 This book offers a reassessment of the political philosophy of the British Idealists a group of once influential and now neglected nineteenth century Hegelian philosophers whose work has been much misunderstood Peter Nicholson focuses on F H Bradley s idea of morality and moral philosophy T H Green s theory of the Common Good of the social nature of rights of freedom and of state interference and Bernard Bosanquet s notorious theory of the General Will By examining the arguments offered by the Idealists and by their critics the author is able to penetrate the deep layers of hostile comment laid down by several generations of later writers and to show that these ideas once properly understood are not only defensible but interesting and important **Discipline and History** James Farr, Raymond Seidelman, 1993 Historical panorama of views about the state of political science as a discipline

Contemporary Political Theory J. C. Johari, 1987 *Political Theory* VD Mahajan, 2006 This is new edition contains a comprehensive study of the subject with the latest thinking by the political scientists of thw world today *The Oxford Handbook of the History of Political Philosophy* George Klosko, 2011-05-26 Fifty distinguished contributors survey the entire history of political philosophy They consider questions about how the subject should best be studied they examine historical periods and great theorists in their intellectual contexts and they discuss aspects of the subject that transcend periods such as democracy the state and imperialism Civil Society, Capitalism and the State Colin Tyler, 2012-11-30 Civil Society Capitalism and the State presents a critical reconstruction of the social and political facets of Thomas Hill Green s liberal socialism It explores the complex relationships Green sees between human nature personal freedom the common good rights and the state It explores Green s analysis of free exchange his critique of capitalism and his defence of trade union activity and the cooperative movement It establishes that Green gives only grudging support to welfarism which he saw as a

conservative mechanism in effect if not conscious design It is shown that he believes state provision of welfare to be justified only to the extent that peasants and the proletariat lack a culture and institutions which enable them to assert themselves against abusive landlords and capitalists Ultimately it is shown that Green's guiding ideal is the creation of a eudaimonically enriching kingdom of ends which favours the creation of a dynamic and free society driven by mass participation through decentralised social and political institutions This book builds on Colin Tyler's *The Metaphysics of Self-realisation and Freedom* 2010 although it can also be read as a freestanding work *T.H. Green and the Development of Ethical Socialism* Matt Carter, 2016-11-16 This book uncovers the philosophical foundations of a tradition of ethical socialism best represented in the work of R H Tawney tracing its roots back to the work of T H Green Green and his colleagues developed a philosophy that rejected the atomistic individualism and empiricist assumptions that underpinned classical liberalism and helped to found a new political ideology based around four notions the common good a positive view of freedom equality of opportunity and an expanded role for the state The book shows how Tawney adopted the key features of the idealists philosophical settlement and used them to help shape his own notions of true freedom and equality thereby establishing a tradition of thought which remains relevant in British politics today *Political Thinkers* David Boucher, Paul Kelly, 2017 The most comprehensive introduction to the greatest political thinkers written by a team of international experts [Durkheim Through the Lens of Aristotle](#) Douglas F. Challenger, 1994 This text re-examines Durkheim's science of morality as it is illuminated by Aristotle's philosophy The author demonstrates by examining previously unappreciated aspects of the latter's moral sociology that Durkheim's theory can be compatible with postmodernism **Calvin's Doctrine of the State** Mark J. Larson, 2009-01-08 Contemporary treatments of Calvin's political views often imply that he embraced a theocratic civil polity and that he was committed to holy war doctrine On the basis of the primary sources the first half of this volume argues that neither position is correct Calvin in his political thought maintained the superiority of a republic as a civil polity In addition he placed himself firmly within the medieval just war tradition that was established by Augustine of Hippo and later reaffirmed by Thomas Aquinas In terms of his commitment to classical just war teaching Calvin stood in continuity with Martin Luther even while he distanced himself from the holy war perspective of the Zurich Reformers Henry Bullinger and Peter Martyr Vermigli In the thinking of Calvin a war could only be authorized by the state not the church War had to be prosecuted with humanity and restraint and not in the tradition of the medieval crusade The second half of the book sets forth what Calvin actually believed on the matter of government and war Here we examine his teaching on parliamentary resistance to monarchical tyranny and the full dimensions of his commitment to justice of war categories Unlike Luther and Bullinger Calvin provided a parliamentary remedy for the perennial evil of tyranny With Vermigli and Theodore Beza siding with Calvin on this right a body of Reformed doctrine was established to which succeeding generations could appeal for teaching direction and justification for taking up arms It is clear that Calvin's political legacy is profoundly evident in the

American Revolutionary War and in the constitutional determination for a republic in the United States of America Calvin's ecclesiastical republicanism as it came to fruition in Presbyterian church government was a powerful impetus toward the creation of republican institutions in civil government

John G. Gunnell Christopher C. Robinson, 2016-10-14 John Gunnell has compelled political theorists to rethink their relation to political science the history of political thought the philosophy of social science and political reality His thinking has been shaped by encounters with Heidegger and Plato Wittgenstein and Austin the Berkeley School and migrants such as Strauss and Arendt His writings have challenged the idealist assumptions behind the idea of a Great Tradition of Political Thought and the philosophical claims about mind and language Gunnell has engaged and challenged colleagues in political theory political science and the philosophy of social science on a range of issues from political action time pluralism ideology concepts conventions the political and democracy to the roles of philosophy science literary theory cognitive science mind and history on the enterprise of theorizing today The book focuses on his work in three key areas Political Theory and Political Science Gunnell's work has often focused on the historical emergence of the study of political theory as a subdiscipline of political science and its critical relation to and alienation from political science from the postwar era His argument has been consistent political theory self-identified as an interpretative social science and mode of historical reflection is an invention of political science Political theory divorced from political science weakens both activities in their ties to concerns with and relevance to political society and the contemporary university Interpretation and Action Gunnell has been particularly interested in the nature of concepts and how they change These investigations begin with analysis of theory and theorizing as they are constituted and practiced in historiography the philosophy of social sciences the philosophy of science political science and metatheory He engages with thinkers whose positions inform and oppose his own and explores concepts such as democracy justice time pluralism science liberalism and action Theorists Philosophers and Political Life Gunnell's work has developed through a series of encounters with theorists and philosophers He has rejected attempts to present politics as a stable and essential set of phenomena There are common themes that guide conversations with the German migrants ordinary language philosophers and theorists from the history of political thought This book includes works that focus on Max Weber Leo Strauss and Eric Voegelin Gilbert Ryle J L Austin and Ludwig Wittgenstein

At the Limits of Political Philosophy James V. Schall, 2010-04 James V Schall presents in a convincing and articulate manner the revelational contribution to political philosophy particularly that which comes out of the Roman Catholic tradition

Encyclopedia of Modern Political Thought (set) Gregory Claeys, 2013-08-20 This groundbreaking new work explores modern and contemporary political thought since 1750 looking at the thinkers concepts debates issues and national traditions that have shaped political thought from the Enlightenment to post modernism and post structuralism Encyclopedia of Modern Political Thought is two volume A to Z reference that provides historical context to the philosophical issues and debates that have shaped attitudes toward democracy citizenship rights property duties justice

equality community law power gender race and legitimacy over the last three centuries It profiles major and minor political thinkers and the national traditions both Western and non Western which continue to shape and divide political thought More than 200 scholars from leading international research institutions and organizations have provided signed entries that offer comprehensive coverage of Thought of regions and countries including African political thought American political thought Australasian political thought Australian and New Zealand Chinese political thought Indian political thought Islamic political Thought Japanese political thought and more Thought regarding contemporary issues such as abortion affirmative action animal rights European integration feminism humanitarian intervention international law race and racism and more The ideological spectrum from Marxism to neoconservatism including anarchism conservatism Darwinism and Social Darwinism Engels fascism the Frankfurt School Lenin and Leninism socialism and more Connections of political thought to key areas of politics and other disciplines such as economics psychology law and religion Notable time periods of political thought since 1750 Concepts including class democratic theory liberalism nationalism natural and human rights and theories of the state Theorists and political intellectuals both Western and non Western including John Adams Edmund Burke Mohandas Gandhi Immanuel Kant Ayatollah Khomeini Ernst Friedrich Schumacher George Washington and Mary Wollstonecraft

Imagining the American Polity John G. Gunnell, 2015-09-10 Americans have long prided themselves on living in a country that serves as a beacon of democracy to the world but from the time of the founding they have also engaged in debates over what the criteria for democracy are as they seek to validate their faith in the United States as a democratic regime In this book John Gunnell shows how the academic discipline of political science has contributed in a major way to this ongoing dialogue thereby playing a significant role in political education and the formulation of popular conceptions of American democracy Using the distinctive internalist approach he has developed for writing intellectual history Gunnell traces the dynamics of conceptual change and continuity as American political science evolved from a focus in the nineteenth century on the idea of the state through the emergence of a pluralist theory of democracy in the 1920s and its transfiguration into liberalism in the mid 1930s up to the rearticulation of pluralist theory in the 1950s and its resurgence yet again in the 1990s Along the way he explores how political scientists have grappled with a fundamental question about popular sovereignty Does democracy require a people and a national democratic community or can the requisites of democracy be achieved through fortuitous social configurations coupled with the design of certain institutional mechanisms

Theory of State : Plato to Marx N. D. Arora, 2022-01-22 Theory of State Theory of State is a study of the concept of state as viewed by various philosophers from Plato to Marx Indeed there is no dearth of literature on this subject by competent scholars This study only supplements the vast and voluminous body of writings but with a difference The usual tendency among the scholars has been to assess a political philosopher only from the present day relevance Such an approach though important as it may be in its own right belies a proper and unbiased estimate of the philosopher The study

aims to remove the pitfalls of a polemic account. It purports to evaluate a philosopher in the objective conditions of his own times. That is why the philosophers included in the study speak for themselves. An attempt has thus been made to establish linkage in the thought process of the various philosophers so as to present a coherent account. **Reconsidering C.B. MacPherson** Phillip Hansen, 2016-01-28 C. B. Macpherson occupies an ambiguous place in contemporary political thought. Though his work is well known, it remains on the margins of current democratic theory. That marginalization, Phillip Hansen argues, comes from our failure to appreciate the underlying philosophical dimension of Macpherson's work. Identifying and exploring Macpherson's systematic critique of the liberal claim that the individual is the proprietor of his own person or capacities, owing nothing to society for them, *Reconsidering C. B. Macpherson* highlights his affinities to Herbert Marcuse, Max Horkheimer, and the Frankfurt School. This stimulating reappraisal illustrates the importance of Macpherson's classic books, including *The Political Theory of Possessive Individualism* and *Democratic Theory*, and demonstrates how much his work has to offer to the future of political and social thought.

Eventually, you will extremely discover a further experience and deed by spending more cash. nevertheless when? attain you recognize that you require to get those every needs as soon as having significantly cash? Why dont you try to get something basic in the beginning? Thats something that will lead you to comprehend even more approximately the globe, experience, some places, past history, amusement, and a lot more?

It is your enormously own epoch to ham it up reviewing habit. in the course of guides you could enjoy now is **Main Currents In Modern Political Thought** below.
