#### **Mainline Churchs Funding Crisis Issues And Possibilities:**

The Mainline Church's Funding Crisis Ronald E. Vallet, Charles E. Zech, 1995 This important study documents the continuing decline in mission funding throughout the mainline denominations in North America and Australia and offers sound biblically based recommendations for turning the situation around Ronald Vallet and Charles Zech examine the downward trend in mission funding and seek to explain the phenomenon by exploring social science theories that at the same time purport to provide solutions to the problem They go beyond these theories however by arguing that mainline denominations are in fact fatally enmeshed in the assumptions and presuppositions of modernity and that insights and real solutions to the funding crisis are more likely to be found in renewed Bible study and theological reflection **Meltdown in the Mainline?** Loren B. Mead, 1998-11-01 Intentionally provocative Alban founder and former president Loren Mead's dynamic work sets out dramatic and compelling challenges for today's churches Mead chose the word meltdown a strong term indeed very carefully and consciously His clarion call urges congregations to direct attention to their dwindling financial resources and their unreliable fiscal practices and to take major action now or face disaster in the future Mead addresses changing church giving patterns the inconsistent ways congregations keep financial records the lack of coordinated short and long range planning the need for knowledge of sound financial techniques such as accounting for inflation an over reliance on restructuring to fix problems and lack of defensive planning for operational costs The Quiet Hand of God Robert Wuthnow, John H. Evans, 2002-10-21 Robert Wuthnow and John H Evans bring together a stellar collection of essays that paints a contemporary portrait of American Protestantism a denomination that has remained guietly but firmly influential in the public sphere Mainline Protestants may have steered clear of the controversial attention grabbing tactics of the Religious Right but they remain culturally influential and continue to impact American society through political action and the provision of social services The contributors to this volume address religion s larger role in society and cover such topics as welfare ecology family civil rights and homosexuality Pioneering timely and meticulously researched The Quiet Hand of God will be an essential reference to the dynamics of American religion well into the twenty first century The Presbyterian Church (U.S.A.) Foundation R. Douglas Brackenridge, 1999-01-01 For two centuries the Presbyterian Church U S A Foundation has been at work serving the church and undergirding its mission In this authoritative and carefully researched history R Douglas Brackenridge unfolds the story of how the Foundation developed its unique role in the Presbyterian Church U S A It is a history filled with strong leaders vigorous challenges and lively debate Brackenridge shows how the Foundation even in times of struggle has been shaped over the decades as a significant instrument of support to the Presbyterian Church U S A Preaching to a Shifting Culture Scott M. Gibson, 2004-08-01 The church in America is part of a changing culture and today s preachers must be prepared to engage the unique issues of our postmodern age Editor Scott M Gibson has skillfully combined the works of many well known preachers including Haddon Robinson and Bryan Chapell

into one practical guide written for present and future church leaders Including questions for reflection and suggestions for further reading this helpful resource addresses important topics such as preaching to a postmodern audience pluralism and the intersection of preaching and psychology Preaching to a Shifting Culture is a must read for preachers It intensified my passion to preach Scripture it clarified for me some critical issues related to preaching and it triggered some ideas and strategies I will bild into my preaching Steve Mathewson author of The Art of Preaching Old Testament Narrative A stimulating potpourri of evangelical insights for changing times Michael Quicke Charles Koller Professor of Preaching and Communications Northern Baptist Theological Seminary Timely and relevant this collection of essays thoughtfully explores the issues facing today s preacher and calls today s preacher to thoughtfully face the issues Patricia Batten pastor Village Baptist Church Kennebunkport Maine Those who are called to proclaim the Word in a contemporary setting will benefit from the analysis and suggestions offered in this outstanding collection Michael Duduit editor Preaching magazine

Congregations at the Crossroads Ronald E. Vallet, 2006-08-11 The most vital question confronting the church in North America at the turn of the century is whether it can in the face of the myriad distractions of modern society remember who it is what it is called to do and especially whose it is In this volume Ronald Vallet explores the biblical basis for stewardship with major emphasis on God's promises and commands to help congregations become the households of God that he intends them to be Vallet also discusses several church related issues that affect the life and practices of congregations today He deals with fantasies and fears about money in the congregation shows the central role that authentic worship plays in focusing congregations on God examines the proper roles of pastors and laity and considers the prevailing concepts and practices of modern culture that can entangle today s churches Vallet s work provides an insightful map for churches as they confront the confusing crossroads of life in our world The Encyclopedia of Christianity, Volume 1 (A-D) Erwin Fahlbusch, Jan Lochman, John Mbiti, Jaroslav Pelikan, Lukas Vischer, 2025-04-14 A major intellectual resource Jaroslav Pelikan from the foreword The multiple award winning Encyclopedia of Christianity EC copublished by Brill and Eerdmans is a monumental five volume work presenting the history and current state of the Christian faith in its rich spiritual and theological diversity around the world Volume 1 A D contains 465 articles featuring articles on all but the smallest countries of the world including the former communist nations that have gained independence since 1989 the latest statistical information from David B Barrett on the religious affiliation and ecclesiastical breakdown of each country and continent articles on doctrines denominations and social and ethical issues in relation to the churches biographical articles on prominent figures through church history The Encyclopedia of Christianity is also available online Money Matters Dean R. Minds and Gods Todd Tremlin, 2006-03-02 This volume explains the origins and persistence of religious ideas on the basis of common structures and functions of human thought It describes the evolutionary forces that molded the modern human mind It details many adapted features of the brain illustrating their operation with examples of everyday human Saving America? Robert Wuthnow, 2009-11-06 On January 29 2001 President George W Bush signed an behavior executive order creating the White House Office of Faith Based and Community Initiatives This action marked a key step toward institutionalizing an idea that emerged in the mid 1990s under the Clinton administration the transfer of some social programs from government control to religious organizations However despite an increasingly vocal ideologically charged national debate a debate centered on such questions as What are these organizations doing How well are they doing it Should they be supported with tax dollars solid answers have been few In Saving America Robert Wuthnow provides a wealth of up to date information whose absence until now has hindered the pursuit of answers Assembling and analyzing new evidence from research he and others have conducted he reveals what social support faith based agencies are capable of providing Among the many questions he addresses Are congregations effective vehicles for providing broad based social programs or are they best at supporting their own members How many local congregations have formal programs to assist needy families How much money do such programs represent How many specialized faith based service agencies are there and which are most effective Are religious organizations promoting trust love and compassion The answers that emerge demonstrate that American religion is helping needy families and that it is more broadly fostering civil society Yet religion alone cannot save America from the broad problems it faces in providing social services to those who need them most Elegantly written Saving America represents an authoritative and evenhanded benchmark of information for the current and the coming debate The Princeton Seminary Bulletin Princeton Theological Seminary, 1997 Vols for 1907 1908 1936 1937

**Downsizing the U.S.A.** Thomas H. Naylor, William H. Willimon, 1997 In this trenchant analysis of American society Thomas H Naylor and William H Willimon take an unabashed stance against the belief that bigger is better and warn that size and technological complexity are not risk free There is a grave price to be paid for our uncritical affirmation of bigness universal solutions to problems dehumanizing uniformity and standardized mass production Naylor and Willimon argue that our government our cities our corporations our schools our churches our military and our social welfare system are all too big too powerful too intrusive too insular and too unresponsive to the needs of individual citizens and small local communities They propose specific strategies for decentralizing and downsizing virtually every major institution in America including America itself The authors audaciously call for the peaceful dissolution of the United States through secession and provide a thoughtful game plan for achieving this controversial objective The Age of Global Giving (10th Anniversary Edition) Gilles Gravelle, 2024-05-28 Cultivating Strategic Giving Traditional philanthropy is constantly challenged by the complexities of global need The sheer scale of worldwide challenges demands a more informed understanding of giving that transcends borders and cultures This context sets the stage for a transformative approach to financial giving one that is effective rewarding and sensitive to the diverse global landscape In The Age of Global Giving we find a comprehensive roadmap for high capacity givers to impact missions and social causes in meaningful ways Integrating creative giving strategies with success stories this book offers practical insights to maximize the impact of one s contributions It underscores the power of true collaboration between givers and recipients in community led initiatives Whether a seasoned donor nonprofit leader or simply someone looking for high impact giving opportunities this book equips you with the knowledge and tools necessary to contribute meaningfully This call to action is for anyone who believes in the power of generosity to change lives Let it inspire you to join a global community of givers committed to making a real difference in the lives of people and the health of our planet Global Compassion Rachel M. McCleary, 2009-07-02 Aid organizations like Oxfam CARE World Vision and Catholic Relief Services are known the world over However little is known about the relationship between these private voluntary organizations PVOs and the federal government and how truly influential these organizations can be in the realm of foreign policy Indeed since the end of the Second World War humanitarian aid has become a key component of U S foreign policy and has grown steadily ever since This history of interaction deflates the common claim that PVOs have been independent from the federal government and that this independence has only recently been threatened Global Compassion is the first truly comprehensive study of PVOs and their complex often fraught interaction with the federal government Rachel McCleary provides an ambitious analysis of the relationship between the two from 1939 to 2005 The book focuses on the work of PVOs

from a foreign policy perspective revealing how federal political pressures shape the field of international relief McCleary draws on a new and one of a kind data set on the revenue of private voluntary agencies employing annual reports State Department documents and I R S records to assess the extent to which international relief and development work is becoming a commercial activity She outlines the increasing financial dependence of these organizations on the federal government and the consequences of that dependency for various types of agencies as well as the often competing goals of the federal government and religious PVOs As a result there is a continuing trend of decreasing federal funds to PVOs and of simultaneously increasing awards to commercial enterprises Focusing on the interplay between public and private revenue the discussion ends with the commercialization of foreign aid and the factors most likely to influence the future of PVOs in international relief and development In this thought provoking and rigorously researched work Rachel McCleary offers a unique substantive look at an understudied area of U S foreign policy and international development and provides a crucial analysis of what this relationship holds for the future The Living Church, 1995 The Encyclopedia of Christianity Erwin Fahlbusch, Geoffrey William Bromiley, 1999 This multifaceted and up to date encyclopedia is sure to be of interest to pastors and church workers of all confessions equally so to students scholars and researchers around the world who are interested in any aspect of Christianity or religion in general The first volume contains 465 articles that address a comprehensive list of The Age of Global Giving Gilles Gravelle, 2014-09-10 The dynamics of globalization and the speed of change have topics created greater complexity for Western missions The Age of Global Giving provides accelerated learning for donors church leaders agency leaders and mission workers As a result donors can achieve greater outcomes with deeper satisfaction in their giving and their voluntary work Ministry workers can develop improved vision values and strategies that go further in creating sustainable impact and align with the donor values of today It s a new day in the relationship between donor and recipient and it s just in time because global mission is in dire need of this kind of cooperation First Things ,1996
