Mainstream Civilization To 15:

The Publishers' Trade List Annual ,1985 Discovering Chinese Nationalism in China Yongnian Zheng,1999-04-28

This book explores the revival of Chinese nationalism in the 1990s and analyses the ways in which the West deals with this phenomenon Yongnian Zheng discusses the complicated nature of China's new nationalism and presents the reader with a very different picture to that portrayed in Western readings of Chinese nationalism He argues that China's new nationalism has been a reaction to changes in the country's international circumstances and can be regarded as a voice over the existing unjustified international order Zheng shows that the present Chinese leadership is pursuing strategies not to isolate China but to integrate it into the international community Based on the author's extensive research in China the book provides a set of provocative arguments against prevailing Western attitudes to and perceptions of China's nationalism Movies with

Meaning Dan Shaw,2017-06-29 This book pairs close readings of some of the classic writings of existentialist philosophers with interpretations of films that reveal striking parallels to each of those texts demonstrating their respective philosophies in action Individual chapters include significant excerpts from the original texts being discussed and illustrated Pairings cover Schopenhauer and *Waking Life* Stirner and *Hud* Kierkegaard and *Winter Light* Nietzsche and *The Fountainhead* Heidegger *Blade Runner* and *The Thin Red Line* Camus *Leaving Las Vegas* and *Missing* Sartre *Husbands and Wives* and Michael Collins de Beauvoir and *Revolutionary Road* and Foucault and *One Flew Over the Cuckoo's Nest* *Movies with Meaning* offers a clear and insightful examination of the relationships between existential philosophers and film providing both digests of their most significant texts and cinematic illustrations of what each had in mind For the first time in one place this book analyses the implications for film of the perspectives of a wide array of the most significant existentialist thinkers Organized chronologically like most existentialism anthologies this is an ideal textbook for an intermediate level

existentialism course or as a companion to a selection of primary texts **Cyber-nationalism in China** Ying Jiang,2012 The prevailing consumerism in Chinese cyberspace is a growing element of Chinese culture and an important aspect of this book Chinese bloggers who have strongly embraced consumerism and tend to be apathetic about politics have nonetheless demonstrated political passion over issues such as the Western media's negative coverage of China In this book Jiang focuses upon this passion Chinese bloggers' angry reactions to the Western media's coverage of censorship issues in current China in order to examine China's current potential for political reform A central focus of this book then is the specific issue of censorship and how to interpret the Chinese characteristics of it as a mechanism currently used to maintain state control While *Cyber Nationalism in China* examines fundamental questions surrounding the political implications of the Internet in China it avoids simply predicting that the Internet does or does not lead to democratization Applying a theoretical approach based on the Foucauldian notion of governmentality the book builds on current scholarship that has attempted to move beyond examining the dynamics of the socio cultural and political use of new media technologies Instead this book's more

intricate theoretical approach does not only accommodate the kind of liberal apolitical or political use observed on the Internet in China but indicates that desires for political change such as they are are implicitly embedded in the relationship between China's online communities and state apparatus noting however that the latter claims total governance over the Internet in the name of the people

Social Media and e-Diplomacy in China Ying Jiang, 2017-08-09 As with many spheres of public life public diplomatic communication is being transformed by the boom of social media More than 165 foreign governmental organisations in China have embarked on the use of Weibo a hybrid of Facebook and Twitter in China to engage with Chinese citizens and reach out to youth populations one of the major goals of current public diplomacy efforts This exciting new pivot based on systemic research of Weibo usage by embassies in China explores the challenges and the limits that the use of Chinese Weibo and Chinese social media in general poses for foreign embassies and considers ways to use these or other tools It offers a systematic study of the effectiveness and challenges of using Weibo for public diplomatic communication in and with China Addressing the challenges of e diplomacy it considers notably the occurrence of cyber nationalism on Weibo and encourages a critical look at its practice arguing how it can contribute to the goals of public diplomacy

Health and Development Iris Borowy, Bernard Harris, 2023-01-30 Health and development require one another there can be no development without a critical mass of people who are sufficiently healthy to do whatever it takes for development to occur and people cannot be healthy without societal developments that enable standards of health to be maintained or improved However the ways in which health and development interact are complex and contested This volume unites eleven case studies from nine countries in three continents and two international organizations since the late nineteenth century Collectively they show how different actors have struggled to reconcile the sometimes contradictory nature of health and development policies and the subordination of these policies to a range of political objectives

Broadcasting in the Modernist Era Matthew Feldman, Henry Mead, Erik Tønning, 2014-05-22 The era of literary modernism coincided with a dramatic expansion of broadcast media throughout Europe which challenged avant garde writers with new modes of writing and provided them with a global audience for their work Historicizing these developments

and drawing on new sources for research including the BBC archives and other important collections Broadcasting in the Modernist Era explores the ways in which canonical writers engaged with the new media of radio and television Considering the interlinked areas of broadcasting culture and politics in this period the book engages the radio writing and broadcasts of such writers as Virginia Woolf W B Yeats Ezra Pound T S Eliot James Joyce George Orwell E M Forster J B Priestley Dorothy L Sayers David Jones and Jean Paul Sartre With chapters by leading international scholars the volume s empirical based approach aims to open up new avenues for understandings of radiogenic writing in the mass media age *The Construction of Value Philosophy in Contemporary China* Deshun Li, 2025-03-11 This book approaches humanism in the new era in China by discussing the nature of value philosophy and by analyzing in depth the significance of value research for China s modernization and future development The author expounds his own point of view on the value of human beings as the foundation of value philosophy and subsequently applies it to understanding conflicting values between China and the West universal values etc In addition he discusses the cultural value concept in China e g the craze for traditional Chinese culture value choices in socialism with Chinese characteristics and Deng Xiaoping s great practice Combining the fields of academic study political affairs cultural communication and social life the book offers a valuable resource for scholars researchers politicians diplomats university students and those who want to study and understand value philosophy Chinese value research and Chinese culture In addition it seeks to realize the value of human beings in culture Lastly its discussions on the value concept can facilitate understanding and respect among people s all over the world **Rethinking China's Rise** Jilin Xu, 2018-07-05 China s rise to power is the signal event of the twenty first century and this volume offers a contemporary view of this nation in ascendancy from the inside Eight recent essays by Xu Jilin a popular historian and one of China s most prominent public intellectuals critique China s rejection of universal values and the nation s embrace of Chinese particularism the rise of the cult of the state and the acceptance of the historicist ideas of Carl Schmitt and Leo Strauss Xu s work is distinct both from better known voices of dissent and also from the New Left perspectives offering instead a liberal reaction to the complexity of China s rise Yet this work is not a shrill denunciation of Xu s intellectual enemies but rather a subtle and heartfelt call for China to accept its status as a great power and join the world as a force for good **The Journey of Liu Xiaobo** Democratic China, 2020-04-01 As a fearless poet and prolific essayist and critic Liu Xiaobo became one of the most important dissident thinkers in the People s Republic of China His nonviolent activism steered the nation s prodemocracy currents from Tiananmen Square to support for Tibet and beyond Liu undertook perhaps his bravest act when he helped draft and gather support for Charter 08 a democratic vision for China that included free elections and the end of the Communist Party s monopoly on power While imprisoned for inciting subversion of state power Liu won the 2010 Nobel Peace Prize He was granted medical parole just weeks before dying of cancer in 2017 The Journey of Liu Xiaobo draws together essays and reflections on the Nelson Mandela of China The Dalai Lama artist and activist Ai Weiwei and a

Powers,Michael Jablonski,2015-03-15 Contemporary discussion surrounding the role of the internet in society is dominated by words like internet freedom surveillance cybersecurity Edward Snowden and most prolifically cyber war Behind the rhetoric of cyber war is an on going state centered battle for control of information resources Shawn Powers and Michael Jablonski conceptualize this real cyber war as the utilization of digital networks for geopolitical purposes including covert attacks against another state s electronic systems but also and more importantly the variety of ways the internet is used to further a state s economic and military agendas Moving beyond debates on the democratic value of new and emerging information technologies *The Real Cyber War* focuses on political economic and geopolitical factors driving internet freedom policies in particular the U S State Department s emerging doctrine in support of a universal freedom to connect They argue that efforts to create a universal internet built upon Western legal political and social preferences is driven by economic and geopolitical motivations rather than the humanitarian and democratic ideals that typically accompany related policy discourse In fact the freedom to connect movement is intertwined with broader efforts to structure global society in ways that favor American and Western cultures economies and governments Thought provoking and far seeing *The Real Cyber War* reveals how internet policies and governance have emerged as critical sites of geopolitical contestation with results certain to shape statecraft diplomacy and conflict in the twenty first century **Books in Print** ,1991 **Tribal**
