Designing the French Interior Anca I. Lasc, Georgina Downey, Mark Taylor, 2015-10-22 Designing the French Interior traces France's central role in the development of the modern domestic interior from the pre-revolutionary period to the 1970s and addresses the importance of various media including drawings, prints, pattern books, illustrated magazines, department store catalogs, photographs, guidebooks, and films in representing and promoting French interior design to a wider audience. Contributors to this original volume identify and historicize the singularity of the modern French domestic interior as a generator of reproducible images, a site for display of both highly crafted and mass-produced objects, and the direct result of widely circulated imagery in its own right. This important volume enables an invaluable new understanding of the relationship between architecture, interior spaces, material cultures, mass media, and modernity. **Le Monde de Michel Tremblay** André Brochu, 1993 Vingt-cinq collaborateurs G. David, S. L. Pine, L. Mailhot, P. Popovic, etc. Etudes de pi ces tudes du cycle romanesque essais bibliographie p 447-448 Selon l'auteur il s'agit de la première exploration en profondeur de l'écriture du prolifiquecrivain montréalais. Une cinquantaine d'illustrations. Recommandé SDM. Your Private Sky Richard Buckminster Fuller, 2001 This title, which complements the volume *Your Private Sky: The Art of Design Science* (see page 44), gives an authentic insight into the development of Fuller's architectonic, technical, anthropological concepts. Fuller was the epitome of the poet as engineer, the thinker as designer, the artist as researcher. He left behind a voluminous quantity of writing, including texts of visionary importance, penetrating linguistic force, as well as of urgent topicality. The book documents various aspects of Fuller's widely respected texts. These testaments were intended to be shared with the whole world, or as Fuller coined it in 1950 with *Spaceship Earth* 3 7643 6072 0. **La maison suspendue** Paul Nelson, 1939

The Modern Steel House Neil Jackson, 2016-03-23 This book provides a comprehensive survey of Modern Movement houses constructed with steel frames. Arranged chronologically and thematically, it traces the development over the last seventy years of steel houses in Europe, Australia, and the United States, with special reference to London, Paris, Sydney, and Los Angeles, and to the work elsewhere of Mies van der Rohe, Philip Johnson, and Jean Prouvé. Examples of steel houses from around the world demonstrate that steel structures can provide a better quality of life within a cleaner, lighter home environment. *Buried Astrolabe* Craig Stewart Walker, 2001 Over the last two decades, Canadian drama has emerged as an important presence in international theatre. In *The Buried Astrolabe*, Craig Walker offers a critical introduction to contemporary Canadian playwriting, providing a context for the study of Canadian drama and showing how it developed from Western European philosophical, literary, and dramatic traditions. Outside Belongings Elspeth Probyn, 2015-12-22 *Outside Belongings* argues against a psychological depth model of identity, one in which individuals possess an intrinsic quality that guarantees authentic belonging. Instead, Probyn proposes a model of identity that takes into account the desires of individuals and groups of individuals to belong. The main ideas she considers: the outside, the surface, and belonging, allow her to

articulate in concrete terms her precise concerns about sexuality and nationality
