novel *She Would Be King* reimagines the dramatic story of Liberia's early years through three unforgettable characters who share an uncommon bond. Gbessa, exiled from the West African village of Lai, is starved, bitten by a viper, and left for dead but still she survives. June Dey, raised on a plantation in Virginia, hides his unusual strength until a confrontation with the overseer forces him to flee. Norman Aragon, the child of a white British colonizer and a Maroon slave from Jamaica, can fade from sight when the earth calls him. When the three meet in the settlement of Monrovia, their gifts help them salvage the tense relationship between the African American settlers and the indigenous tribes as a new nation forms around them. Moore's intermingling of history and magical realism finds voice not just in these three characters but also in the fleeting spirit of the wind who embodies an ancient wisdom. If she was not a woman, the wind says of Gbessa, she would be king. In this vibrant story of the African diaspora, Moore, a talented storyteller and a daring writer, illuminates with radiant and exacting prose the tumultuous roots of a country inextricably bound to the United States. *She Would Be King* is a novel of profound depth set against a vast canvas and a transcendent debut from a major new author.

**Managing and Interpreting D-Day's Sites of Memory** Geoffrey Bird, Sean Claxton, Keir Reeves, 2016-03-02 More than seventy years following the D-Day Landings of 6 June 1944, Normandy's war heritage continues to intrigue visitors and researchers. Receiving well over two million visitors a year, the Normandy landscape of war is among the most visited cultural sites in France. This book explores the significant role that heritage and tourism play in the present day with regard to educating the public as well as commemorating those who fought. The book examines the perspectives, experiences, and insights of those who work in the field of war heritage in the region of Normandy where the D-Day landings and the Battle of Normandy occurred. In this volume, practitioner authors represent a range of interrelated roles and responsibilities. These perspectives include national and regional governments and coordinating agencies involved in policy planning and implementation; war cemetery commissions managers who oversee particular museums and sites; and individual battlefield tour guides whose vocation is to research and interpret sites of memory. Often interviewed as key informants for scholarly articles, the day-to-day observations, experiences, and management decisions of these guardians of remembrance provide valuable insight into a range of issues and approaches that inform the meaning of tourism, remembrance, and war heritage as well as implications for the management of war sites elsewhere. Complementing the Normandy practitioner offerings, more scholarly investigations provide an opportunity to compare and debate what is happening in the management and interpretation at other World War II related sites of war memory such as at Pearl Harbor, Okinawa, and Portsmouth, UK. This innovative volume will be of interest to those interested in remembrance, tourism, war heritage, dark tourism, battlefield tourism, commemoration, D-Day, and World War II.

**Shtetl Tales** Eleanore Smith, 2022-02-02 This collection of stories takes place in the fictional shtetl of Patchentuch, located somewhere in the backwater of Eastern Poland in the late nineteenth and twentieth centuries. The stories, which transcend the grim reality of shtetl life to another geography, tell of the lighthearted adventures and misadventures of the town's residents. My hope is that

these tales will provide the same pleasure for the reader that I derived from creating them      **When We Were Young**
