## **Majangir Ecology And Society Of A Southwest Ethiopian People:**

The Majangir Jack Stauder, 2007-09-17 The Majangir live on the thickly forested slopes of the south western edge of the Ethiopian plateau between the Anuak of the plains and the Galla of the highlands Their way of life is markedly different from that of their neighbours and is well adapted to their habitat They are agriculturalists and the structure of their society is loose and simple They have no political leaders the only individuals of any authority being ritual leaders whose influence is restricted Domestic groups tend to farm plots adjacent to those of friends or kin but the settlements remain small and constantly change in composition as well as in location In addition to farming in which the men and women share the work the men make occasional hunting and fishing trips as well as spending quite a considerable amount of time tending and making bee hives Dr Stauder examines the various social and spatial groupings of Majang society and demonstrates the intimate ecological relationship between these groupings and the system of slash and burn cultivation practised by the Majangir *The Majangir* Jack Stauder, 1971 *Oromo Nationalism and the Ethiopian Discourse* Asafa Jalata, 1998

The Languages and Linguistics of Africa Tom Güldemann,2018-09-10 This innovative handbook takes a fresh look at the currently underestimated linguistic diversity of Africa the continent with the largest number of languages in the world It covers the major domains of linguistics offering both a representative picture of Africa's linguistic landscape as well as new and at times unconventional perspectives The focus is not so much on exhaustiveness as on the fruitful relationship between African and general linguistics and the contributions the two domains can make to each other This volume is thus intended for readers with a specific interest in African languages and also for students and scholars within the greater discipline of linguistics

The Blue and the Green Jack Stauder,2016-03-22 In The Blue and the Green anthropologist Jack Stauder analyzes how large scale political social and environmental processes have transformed ranching and rural life in the West Focusing on the community of Blue Arizona Stauder details how the problems of overgrazing erosion and environmental stresses on the open range in the early twentieth century coincided with a push by the newly created US Forest Service to develop fenced grazing allotments on federal lands Later in the twentieth century with the enactment of the Endangered Species Act and other laws the growing power of urban based environmental groups resulted in the reduction of federal grazing leases throughout the West The author combines historical research with oral interviews to explore the impact of these transformations on the ranchers residing in the Blue River Valley of eastern Arizona Stauder gives voice to these ranchers along with Forest Service personnel environmental activists scientists and others involved with issues on the Blue shedding light on how the ranchers rural way of life has changed dramatically over the course of the past century This is a fascinating case study of the effects of increasing government regulations and the influence of outsiders on ranching communities in the American West      **The Political Economy of an African Society in Transformation: the Case of**

**Macca Oromo (Ethiopia)** Tesema Ta'a,2006 The official historiography of the Ethiopian Empire as well as the majority of the publications on Ethiopian history by European authors used to view the country as a single cultural whole and to deal only with the history of the Christian empire The different historical experiences of the Ethiopian multiethnic society and culture used to be usually ignored In contrast to such one sided approach this book deals with the Macca Oromo activities social transformation and historical experiences in the western part of Central Ethiopia focusing on the political economy of the region The sources for the book include 1 written documents in Ethiopian languages Amharic and Ge'ez e.g. archival materials 2 reports by European travellers and missionaries 3 recent secondary literature and 4 traditions and oral history

collected mainly in Wallagga in 1972-73 and 1979-80. In that region the Macca states had played an important political and economical role until they were subjugated by the order of Menelik II and incorporated into the Ethiopian Empire at the end of the 19th century. Tesema Ta'a belongs to the first generation of the Ethiopian historiographers who graduated from Addis Ababa University in the seventies and later formed the teaching staff of the History department in Addis Ababa.

**Studies in African Linguistic Typology** F. K. Erhard Voeltz, 2006-03-22. The twenty one papers that make up this volume reflect the broad perspective of African linguistic typology studies today. Where previous volumes would present language material from a very restricted area and perspective the present contributions reflect the global interest and orientation of current African linguistic studies. The studies are nearly all implicational in nature. Based upon a detailed survey of a particular linguistic phenomenon in a given language or language area conclusions are drawn about the general nature about this phenomenon in the languages of Africa and beyond. They represent as such a first step that may ultimately lead to a more thorough understanding of African linguistic structures. This approach is well justified. Taking the other road attempting to pick out linguistic details from often fairly superficially documented languages runs the risk that the data and its implications for the structure investigated might be misunderstood. Consequentially only very few studies of this nature giving the very broad perspective the overview of a particular structure type covering the whole African continent are represented here.

*The Law's Beginnings* Ferdinand J.M. Feldbrugge, 2021-09-13. Law as we know it with its rules and rituals its procedures and professionals has not been around forever. It came into being it emerged at different places and different times. Sources which allow us to observe the processes of law's beginnings have survived in some cases. In this book scholars from various disciplines linguists lawyers historians anthropologists present their findings concerning the earliest legal systems of a great variety of peoples and civilizations from Mesopotamia and Ancient India to Greece and Rome from the early Germanic Celtic and Slavic nations but also from other parts of the world. The general picture is complemented by an investigation into the Indo European roots of a number of ancient legal systems contributions from the point of view of legal philosophy and theory and an overview of the insights gained.

**The Southern Marches of Imperial Ethiopia** Donald Donham, Wendy James, 1986. This international collection of essays offers a unique approach to

the understanding of imperial Ethiopia out of which the present state was created by the 1974 revolution After the 1880s Abyssinia under Menilek II expanded its ancient heartland to incorporate vast new territories to the south Here for the first time these regions are treated as an integral part of the empire The book opens with an interpretation of nineteenth century Abyssinia as an African political economy rather than as a variant on European feudalism and with an account of the north s impact on peoples of the new south Case studies from the southern regions follow four by historians and four by anthropologists each examining aspects of the relationship between imperial rule and local society In revealing the region s diversity and the relationship of the periphery to the centre the volume illuminates some of the problems faced by post revolutionary Ethiopia

*Understanding Contemporary Ethiopia* Gérard Prunier,Éloi Ficquet,2015-09-15 When we think of Ethiopia we tend to think in clichés Solomon and the Queen of Sheba the Falasha Jews the epic reign of Emperor Haile Selassie the Communist Revolution famine and civil war Among the countries of Africa it has a high profile yet is poorly known How ever all clichés contain within them a kernel of truth and occlude much more Today s Ethiopia and its painfully liberated sister state of Eritrea are largely obscured by these mythical views and a secondary literature that is partial or propagandist Moreover there have been few attempts to offer readers a comprehensive overview of the country s recent history politics and culture that goes beyond the usual guidebook fare *Understanding Contemporary Ethiopia* seeks to do just that presenting a measured detailed and systematic analysis of the main features of this unique country now building on the foundations of a magical and tumultuous past as it struggles to emerge in the modern world on its own terms

**Historical Dictionary of Ethiopia** David H. Shinn,Thomas P.
