Minting Of Antoniniani Ad 238249 And The Smyrna Hoard:

The Minting of Antoniniani A.D. 238-249 and the Smyrna Hoard Samuel Kennedy Eddy, 1947 **Recent Turkish Coin Hoards and Numismatic Studies** C. S. Lightfoot, 2017-10-01 Twelve new studies of Greek and Roman coins from Anatolia

Coinage in the Roman Economy, 300 B.C. to A.D. 700 Kenneth W. Harl, 1996-07-12 In *Coinage in the Roman Economy* 300 B C to A D 700 noted classicist and numismatist Kenneth W Harl brings together these two fields in the first comprehensive history of how Roman coins were minted and used *Coining Images of Power* Erika Manders, 2012-01-06 Current scholarship on Roman imperial representation addresses both the ways in which individual rulers presented themselves to their subjects and how particular aspects of imperial representation developed over time This book combines these two approaches It examines the diachronic development of the representation of Roman imperial power as a whole in one medium over a longer period of time Through a quantitative and qualitative analysis of coin types issued between A D 193 and 284 patterns in the representation of third century Roman emperors on imperial coinage are made visible The result is a new perspective on the development of imperial ideology in times of crisis **Roman Coins and Their Values Volume 2** David Sear, 2002-12-31 Volume II now extends coverage of the Imperial series from Nerva the thirteenth Caesar and first of the Adoptive emperors down to the overthrow of the Severan dynasty in 235 It encompasses what may justifiably be termed the golden age of the Roman imperial coinage The full development of the Augustan system of coin denomination and perfection of the method by which government propaganda was communicated to the citizenry through the medium of coinage both reached their peak during these fourteen decades Roman Coins and Their Values Volume 4 David Sear, 2011-12-31 This fourth volume contains a comprehensive listing of the Roman coinage of the period AD 284-337 together with background information on the history of each reign and the principal characteristic of its coinage The catalogue is organized primarily by ruler with the issues then subdivided by denomination and by reverse legend and type

Roman Coins and Their Values Volume 5 David Sear, 2014-12-31 The current revision of this popular work marks a radical departure from the envisioned aims of the original edition This fifth and final volume of the Millennium edition contains a comprehensive listing of the Roman coinage of the period AD 337-491 together with background information on the history of each reign and the principal characteristics of its coinage The catalogue is organized primarily by ruler with the issues then subdivided by denomination and by reverse legend and type Roman Coins and Their Values Volume 1 David Sear, 2000-12-31 The original edition of Sear's *Roman Coins and Their Values* was published by Seaby thirty six years ago and has been through four revisions 1970 1974 1981 and 1988 However the publication of the Millennium Edition of this popular work makes a radical departure from previous editions **Ancient Greece and Rome** Keith Hopwood, 1995 Sir Thomas Fairfax not Oliver Cromwell was creator and commander of Parliament's New Model Army from 1645 to 1650 Although Fairfax emerged as England's most successful commander of the 1640s this book challenges the orthodoxy that he

was purely a military figure showing how he was not apolitical or disinterested in politics The book combines narrative and thematic approaches to explore the wider issues of popular allegiance puritan religion concepts of honour image reputation memory gender literature and Fairfax s relationship with Cromwell Black Tom delivers a groundbreaking examination of the transformative experience of the English revolution from the viewpoint of one of its leading yet most neglected participants It is the first modern academic study of Fairfax making it essential reading for university students as well as historians of the seventeenth century Its accessible style will appeal to a wider audience of those interested in the civil wars and interregnum more generally

AD 200-700 Richard Hobbs,2006 This monograph examines the deposition of precious metal artefacts in the late Roman and early Byzantine periods from c AD 200 to AD 700 within and beyond the frontiers of the Roman Empire and its successor states The primary foci of the study are the size date range and spatial distribution of these finds with less emphasis on

specific aspects of artefacts themselves and the specific contexts in which individual deposits were found The immense chronological and regional scope allows broad changes in deposition patterns to be presented and examined And a variety of possible interpretations of these patterns are offered in the final chapter
