Misguiding Philosophies And Millennium Police:

Misguiding Philosophies and Millennium Police James Vadackumchery, 2003-01-01 This Book Offers Clarification On Several Issues Faced By The Police When They Go About Doing Their Job It Will Be Of Immense Help To Police Officers Judges Jurists Politicians Among Other People

Advanced Criminology or the WHY of Crimes James Vadackumchery, 2017-01-01 Push Pull Ego Factor Theory of Crime Causation my Eureka is fully and elaborately exposed in this book Heredity interacts with environments to form the Personality Ego The Animality Spirituality Morality Ethics and Intelligence form the Push Factors which along with the Ego interact with the environment otherwise known as the Pull Factors As a result a crime comes into being and the Ego Factor formed out of the interactions between the Push and Pull Factors are etiologically connected or related to crimes This is not a theory of causality rather is a theory of Crime Causation An individual commits or desists from committing a crime depending upon the ego state from which he interacts or transacts Crimes can never be eliminated in society They can be reduced nevertheless the energy behind the commission of a crime is not destroyed but is converted to another energy This is called the Quota Theory of Crime Anyone interested to study the causation of crimes will find the book extremely useful enlightening and educative Crimes are reduced only by an Ego Factor uprightly formed in the right direction

Advanced Criminology for Crime Control and Reduction James Vadackumchery, 2021-01-01 ENERGY to commit crimes can never be destroyed but be altered to another ENERGY Total prevention or eradication of crimes on earth is an impossibility Commission of crimes is a continuous process Crime control reduction is possible by the application of PUSH PULL EGO FACTOR theory of crime causation The author says that ONE S CRIME IS HIS CHOICE and NO ONE ELSE S Precisely therefore no one can or will prevent crimes if the crime doer is not prepared to control him and his behaviour SELF CONTROL is the BEST and the ONLY control to reduce crimes in society The crime control reduction too becomes a continuous process till the consummation of the world The book ADVANCED CRIMINOLOGY for Crime Control and Reduction is the other side of author s book titled ADVANCED CRIMINOLOGY or The WHY of Crime 13 978 93 5125 265 8 published by the CONCEPT Anyone keenly interested in crime control and reduction will find this book extremely useful and rewarding

United Nations and Prison Justice James Vadackumchery, 2014-01-01 The U N Standard Minimum Rules for the Treatment of Prisoners 1957 have nearly a century of history behind It was indeed humanitarian in approach to prisoners Nearly 60 years have elapsed since the Rules were accepted by the United Nations Certainly the Rules need a revision now because of 1 a long lapse of six decades and 2 developments in the fields of correction reformation resocialization rehabilitation and reintegration of the inmates in a Centre of Personality Development as the Prisons are now called to society back This book contains a complete revision of the existing UNSMR for the Treatment of Prisoners from 1970 as an international debate discussion is going on ever since The book will be of great interest for anyone concerned with the protection of human dignity to exclude cruelty neglect and degradation to the inmates

in a Centre of Personality Development and in particular to minimize the effect and impact of isolation or segregation from the community whatever be the offence committed

Human Rights James Vadackumchery, 2019-01-01 A wholistic revision of the two International Covenants ICCPR and ICESCR of Human Rights adopted by the UNITED NATIONS is given in the light of regional Conventions Declarations and Charters The African Arab ASEAN Asian American European are important as they bring many civil political economic social and cultural rights which are not seen in the International Covenants There are strong criticisms against the Covenants regionally and the book brings them out United Nations a world body does not seem to take into account the changing and the changed socio political cultural and economic civil scenario and make necessary amendments and changes in the Covenants which are more than 50 years of age This book takes note of such changes and brings them for International debate and discussion Written by an eminent Criminologist of international repute who has already revised eleven UN documents including UDHR will interest anyone who loves Human Rights and a new world order

Contemporary Indian Criminology James Vadackumchery, 2015-01-01 The root cause of any crime is a drive instinct plus intelligence and rationality or a combination of drives in man This activating force is further strengthened by many factors found operating outside a crime doer Hence a search for identifying the etiological factors of crime besides and beyond the drives is a futile exercise The author explains this by his PUSH PULL EGO FACTOR Theory of crime causation The book exposes the ineffectiveness of the cause effect relationship in criminology when he applies his theory to many issues in crime and justice areas and the author makes an attempt to analyze them in the light of his new approach Push Factors are the Drives Pull Factors are the Environment and they interact to form an EGO which will contain the Do s and Don ts in human behaviour The formation of the EGO in an upright way in the right direction is the only way to reduce crimes in society Though prevention of crime is an impossibility the author says emphatically that reduction of crimes is quite possible if the EGO is developed uprightly in the right direction Such an EGO will experience guilt feelings whenever it violates a norm law rule or regulation Anyone interested to reduce crime in society will find the book extremely useful

Perspectives on the Arts, Religion, and Ideology Joseph Carroll,John Anthony Johnson,Valerie van Mulukom,Emelie Jonsson,Rex Eugene Jung,2022-10-11 **Public Diplomacy** Nicholas J. Cull,2019-04-15 New technologies have opened up fresh possibilities for public diplomacy but this has not erased the importance of history On the contrary the lessons of the past seem more relevant than ever in an age in which communications play an unprecedented role Whether communications are electronic or hand delivered the foundations remain as valid today as they ever have been Blending history with insights from international relations communication studies psychology and contemporary practice Cull explores the five core areas of public diplomacy listening advocacy cultural diplomacy exchanges and international broadcasting He unpacks the approaches which have dominated in recent years nation branding and partnership and sets out the foundations for successful global public engagement Rich with case studies and examples drawn from ancient times through to our own digital age the book shows the true capabilities and limits of emerging platforms and technologies as well as drawing on lessons from the past which can empower us and help us to shape the future This comprehensive and accessible introduction is essential reading for students scholars and practitioners as well as anyone interested in understanding or mobilizing global public opinion *The American Printer* ,1919 *Advancing Equity Planning Now* Norman Krumholz,Kathryn Wertheim Hexter,2019-01-15 What can planners do to restore equity to their craft Drawing upon the perspectives of a diverse group of planning experts *Advancing Equity Planning Now* places the concepts of fairness and equal access squarely in the center of planning research and practice Editors Norman Krumholz and Kathryn Wertheim Hexter provide essential resources for city leaders and planners as well as for students and others interested in shaping the built environment for a more just world *Advancing Equity Planning Now* remind us that equity has always been an integral consideration in the planning profession The historic roots of that ethical commitment go back more than a century Yet a trend of growing inequality in America as well as other recent socio economic changes that divide the wealthiest from the middle and working classes challenge the

notion that a rising economic tide lifts all boats When planning becomes mere place making for elites urban and regional planners need to return to the fundamentals of their profession Although they have not always done so planners are well positioned to advocate for greater equity in public policies that address the multiple objectives of urban planning including housing transportation economic development and the removal of noxious land uses in neighborhoods Thanks to generous funding from Cleveland State University the ebook editions of this book are available as Open Access volumes from Cornell Open cornellpress.cornell.edu/cornell-open and other repositories
