Moral Rights And Political Freedom

Bryan-Paul Frost, Jeffrey Sikkenga

Moral Rights And Political Freedom:

Moral Rights and Political Freedom Tara Smith, 1995 Part I Rights *Essays on Ayn Rand's Atlas Shrugged* Robert Mayhew, 2009-01-01 While the fiction of novelist philosopher Ayn Rand is extremely popular and enduring little has been written on it so far This book consists of essays most of which are new by top Rand scholars on Atlas Shrugged her magnum opus The essays deal with historical literary and philosophical topics surpassing related writings in breadth and depth of analysis The historical essays cover the writing of Atlas Shrugged its publication history and its reception The literary essays cover analysis of the novel's plot theme and characterization comparisons with other works such as the novels of Hugo Dostoevsky and Joyce and the proper approach to adapting Atlas Shrugged to film The philosophical essays cover a vast range of topics including the place of John Galt's speech in the novel the role of the mind in human life and the evil of non objective law Some of the essays make use of previously unpublished material from the Ayn Rand Archives Book jacket

Covenantal Rights David Novak, 2009-11-02 Covenantal Rights is a groundbreaking work of political theory a comprehensive philosophically sophisticated attempt to bring insights from the Jewish political tradition into current political and legal debates about rights and to bring rights discourse more fully into Jewish thought David Novak pursues these aims by presenting a theory of rights founded on the covenant between God and the Jewish people as that covenant is constituted by Scripture and the rabbinic tradition In doing so he presents a powerful challenge to prevailing liberal and conservative positions on rights and duties and opens a new chapter in contemporary Jewish political thinking For Novak covenantal rights are rooted in God's primary rights as creator of the universe and as the elector of a particular community whose members relate to this God as their sovereign The subsequent rights of individuals and communities flow from God's covenantal promises which function as irrevocable entitlements This presents a sharp contrast to the liberal tradition in which rights flow above all from individuals It also challenges the conservative idea that duties can take precedence over rights since Novak argues that there are no covenantal duties that are not backed by correlative rights Novak explains carefully and clearly how this theory of covenantal rights fits into Jewish tradition and applies to the relationships among God the covenanted community and individuals This work is a profound and provocative contribution to contemporary religious and political theory

Handbook of Political Theory Gerald F Gaus, Chandran Kukathas, 2004-07-15 This volume combines remarkable coverage and distinguished contributors The inclusion of thematic conceptual and historical chapters will make it a valuable resource for scholars as well as students Professor George Klosko Department of Politics University of Virginia This major new Handbook provides a definitive state of the art review to political theory past and present It offers a complete guide to all the main areas and fields of political and philosophical inquiry today by the world's leading theorists The Handbook is divided into five parts which together serve to illustrate the diversity of political theorizing the substantive theories that provide an overarching analysis of the nature or justification of the state and political life the political theories

that have been either formulated or resurgent in recent years the current state of the central debates within contemporary political theory the history of western political thought and its interpretations traditions in political thought outside a western perspective The Handbook of Political Theory marks a benchmark publication at the cutting edge of its field It is essential reading for all students and academics of political theory and political philosophy around the world *The Routledge Companion to Social and Political Philosophy* Gerald Gaus, Fred D'Agostino, Ryan Muldoon, 2024-11-26 The Routledge Companion to Social and Political Philosophy Second Edition is a comprehensive definitive reference work providing an up to date survey of the field charting its history and key figures and movements and addressing enduring questions as well as contemporary research Features unique to the Companion are as follows Extensive coverage of the history of social and political thought including separate chapters on the development of political thought in the Islamic world India and China as well as in modern Germany France and Britain A focus on the core concepts and the normative foundations of social and political theory A section devoted exclusively to distributive justice the central issue of political philosophy since Rawls Theory of Justice Several chapters on global justice and international issues The Companion's 74 commissioned chapters by leading scholars from throughout the world are divided into eight thematic sections The History of Social and Political Theory Political Theories and Ideologies Normative Foundations Distributive Justice The National State and Beyond Political Concepts Approaches and Issues in Social and Political Philosophy Expanded updated and revised throughout this Second Edition includes new chapters on Politics Philosophy and Economics PPE Political Epistemology Race and Ethnicity Power Foucault and New Diversity Theory **History of American Political Thought** Bryan-Paul Frost, Jeffrey Sikkenga, 2003-07-14 Revised and updated this long awaited second edition provides a comprehensive introduction to what the most thoughtful Americans have said about the American experience from the colonial period to the present The book examines the political thought of the most important American statesmen activists and writers across era and ideologies helping another generation of students scholars and citizens to understand more fully the meaning of America This new second edition of the book includes new essays on Walt Whitman Lyndon Baines Johnson Ronald Reagan and Barack Obama Significant revisions and additions have also been made to many of the original essays increasing the breadth and depth of the collection **Reason and Justice** Richard Dien Winfield, 1988-07-08 This is a finely argued detailed and comprehensive systematic theory of justice brilliantly extending Hegelian ethics much as Rawls's Theory of Justice rehabilitated and extended classical Liberalism Winfield argues that justice like reason must be self grounding and that to achieve this it must be self determined The theory of justice must therefore abandon its appeal to metaphysically given or transcendently constituted norms and instead determine the institutions of freedom In pursuit of this task Winfield offers insightful discussions of property relations morality the family capital and commodity relations economic and social justice and the state In contrast to Liberalism which sees the state as instrumental to non political ends Winfield defends the democratic

state as the just realization of freedom Throughout it is argued that justice is defined interactively where one's freedom is determined by how one's interactions respect and foster the institutional freedom of others Although the author's arguments proceed systematically at each stage he deals adroitly with the relevant major thinkers in the Western tradition not only with Hegel but with the ancients the classical liberals Marx and contemporaries such as Rawls

Freedom of Association Amy Gutmann, 2020-10-06 Americans are joiners They are members of churches fraternal and sororal orders sports leagues community centers parent teacher associations professional associations residential associations literary societies national and international charities and service organizations of seemingly all sorts Social scientists are engaged in a lively argument about whether decreasing proportions of Americans over the past several decades have been joining secondary associations but no one disputes that freedom of association remains a fundamental personal and political value in the United States Nothing Alexis de Tocqueville argued deserves more attention Yet the value and limits of free association in the United States have not received the attention they deserve Why is freedom of association valuable for the lives of individuals What does it contribute to the life of a liberal democracy This volume explores the individual and civic values of associational freedom in a liberal democracy as well as the moral and constitutional limits of claims to associational freedom Beginning with an introductory essay on freedom of association by Amy Gutmann the first part of this timely volume includes essays on individual rights of association by George Kateb Michael Walzer Kent Greenawalt and Nancy Rosenblum and the second part includes essays on civic values of association by Will Kymlicka Yael Tamir Daniel A Bell Sam Fleischacker Alan Ryan and Stuart White

Steven Spielberg and Philosophy Dean A. Kowalski, 2008-11-21 This lively collection of essays on the ideas underpinning his films enriches and enlarges our understanding of Spielberg's complex body of work Joseph McBride author of *Steven Spielberg: A Biography* Few directors have had as powerful an influence on the film industry and the movie going public as Steven Spielberg Whatever the subject dinosaurs war extra terrestrials slavery the Holocaust or terrorism one clear and consistent touchstone is present in all of Spielberg's films an interest in the human condition In movies ranging from *Jaws* to *Schindler's List* to *Amistad* to *Jurassic Park* he has brought to life some of the most popular heroes and most despised villains of all time In *Steven Spielberg and Philosophy* Dean A. Kowalski and some of the nation's most respected philosophers investigate Spielberg's art to illuminate the nature of humanity The book explores rich themes such as cinematic realism fictional belief terrorism family ethics consciousness virtue and moral character human rights and religion in Spielberg's work Avid moviegoers and deep thinkers will discover plenty to enjoy in this collection

Political Economy of Human Rights Bas de Gaay Fortman, 2011-06-15 The plethora of literature produced over the past decade in response to the perceived failure of the human rights project to deliver results for billions of people living in adverse environments has usually focused on international legal standards and mechanisms with little regard for the root structural realities that constrain their implementation Hence a text that primarily focuses on the major challenge of realisation of human rights in

the context of diverse realities is urgently needed This book then provides an analytical as well as inspirational text on human rights from a contextual perspective it offers a reconceptualisation of human rights as not merely legal resources but political tools as well After an introduction that familiarizes the reader with some of the key concepts used throughout the book is divided into six chapters The first two combine a critique of the overly legal use of human rights with a reconceptualisation of their potential as powerful tools outside of the legal context The next two chapters examine the nature of the structural challenges that face realisation both on the global and on the local level The last two chapters analyse two major areas of the human rights deficit the structural non implementation of the rights of the poor and the failing protection of non dominant collectivities Finally a concluding chapter elaborates on the main findings and insights gained The book combines rigorous juridical study with a focus on political economic analysis of rights in context Hence it aims at an interdisciplinary treatment of human rights as opposed to current texts that have a tendency to be monodisciplinary The book should be of interest to students of human rights political economy law and conflict studies as well as those who work or research in these areas

Whispering the Strategies of Language: An Psychological Quest through **Moral Rights And Political Freedom**

In a digitally-driven earth where monitors reign supreme and quick connection drowns out the subtleties of language, the profound techniques and mental nuances hidden within words frequently move unheard. Yet, nestled within the pages of **Moral Rights And Political Freedom** a fascinating fictional prize pulsing with raw thoughts, lies an exceptional journey waiting to be undertaken. Written by an experienced wordsmith, this wonderful opus invites visitors on an introspective journey, delicately unraveling the veiled truths and profound influence resonating within ab muscles cloth of every word. Within the emotional depths of the poignant review, we will embark upon a heartfelt exploration of the book is primary styles, dissect their captivating publishing type, and succumb to the effective resonance it evokes deep within the recesses of readers hearts.
