Postcards Museum Natu American,2015-10 The American Museum of Natural History s Rare Book Collection contains some
of the most extraordinary vivid images from the natural world and this beautiful gift box is perfect for any nature enthusiast
It features 60 stunning postcards printed with the best selections from the museum s Research library divided into six
categories each with ten cards The selections include Fish Mollusks and Other Animals Insects Reptiles and Amphibians
Birds and Mammals An informative ten page accordion style booklet provides additional details about the pictures and
collection and the box itself can be used for storing stationery and mementos **Postcard America** Jeffrey L.
Meikle,2016-01-20 This illustrated history of the colorized linen postcards of the 1930s and 40s is an incredible tour A
veritable treasure trove of American culture Crave Online From the Great Depression through the early postwar years any
postcard sent in America was more than likely a linen card Colorized in vivid often exaggerated hues and printed on card
stock embossed with a linen like texture linen postcards celebrated the American scene with views of majestic landscapes
modern cityscapes roadside attractions and other notable features These colorful images portrayed the United States as
shimmering with promise quite unlike the black and white worlds of documentary photography or Life magazine Linen
postcards were enormously popular with close to a billion printed and sold Postcard America offers the first comprehensive
study of these cards and their cultural significance Drawing on the production files of Curt Teich Co of Chicago the originator
of linen postcards Jeffrey L Meikle reveals how photographic views were transformed into colorized postcard images often by
means of manipulation adding and deleting details or collaging bits and pieces from several photos He presents two
extensive portfolios of postcards landscapes and cityscapes that comprise a representative iconography of linen postcard
views For each image Meikle explains the postcard s subject describes aspects of its production and places it in social and
cultural contexts In the concluding chapter he shifts from historical interpretation to a contemporary viewpoint considering
nostalgia as a motive for collectors and others who are fascinated today by these striking images **CRM** ,1995
Postcards Lydia Pyne,2021-10-13 A global exploration of postcards as artifacts at the intersection of history science
technology art and culture Postcards are usually associated with banal holiday pleasantries but they are made possible by
sophisticated industries and institutions from printers to postal services When they were invented postcards established what
is now taken for granted in modern times the ability to send and receive messages around the world easily and inexpensively
Fundamentally they are about creating personal connections links between people places and beliefs Lydia Pyne examines

postcards on a global scale to understand them as artifacts that are at the intersection of history science technology art and culture In doing so she shows how postcards were the first global social network and also here in the twenty first century how postcards are not yet extinct Postcards from the Anthropocene.
