Natural Products Pharmacology and Phytochemicals for Health Care

Debarshi Kar Mahapatra, Cristóbal Noé Aguilar, A. K. Haghi, 2021-02-21 Medicinal chemistry and pharmacology are closely associated fields and the use of natural products for their medicinal properties is ever growing. The study of drugs from natural products and their effects on the living body are explored in this volume. The book looks into the research, discovery and characterization of chemicals that exhibit biological effects. Providing an informative compilation of research, valuable case studies and reviews of existing literature in the area, the book focuses on the ethnobotanical uses of natural products and phytochemicals for health care, including applications for diabetes, ulcers, wound healing, chronic alcoholism, hemorrhoidal treatment, cancer mitigation, pain management, immunotherapy and more.

**Discovery** Singh, Ajeet, 2022-06-24 A great deal of interest has been generated recently in the isolation, characterization and biological activity of phytochemicals. Phytochemicals have the potential to enhance pharmaceuticals and drug discovery. As such, there is an urgent need for current research in the global scope of phytochemicals, including the chemical and physical characteristics, analytical procedures, biological activity, safety and industrial applications. The Handbook of Research on Advanced Phytochemicals and Plant Based Drug Discovery examines the applications of bioactive molecules from a health perspective, examining the pharmacological aspects of medicinal plants, the phytochemical and biological activities of different natural products and ethnobotany and medicinal properties. Moreover, it presents a novel dietary approach for human disease management. Covering topics such as computer aided drug design, government regulation and medicinal plant taxonomy, this major reference work is beneficial to pharmacists, medical practitioners, phytologists, hospital administrators, government officials, faculty and students of higher education, librarians, researchers and academicians.
