*Asia in the Making of Europe* Donald F. Lach,1993      The Role of Religions in the European Perception of Insular and Mainland Southeast Asia Monika Arnez,Jürgen Sarnowsky,2016-08-17 For people nowadays the constant exchange of people goods and ideas and their interaction across wide distances are a part of everyday life However such encounters and interregional links are by no means only a recent phenomenon although the forms they have taken in the course of history have varied It goes without saying that travel to distant regions was spurred by various interests first and foremost economic and imperialist policies which reached an initial climax around 1500 with the European expansion to the Americas and into the Indian Ocean The motivations of European travellers for venturing to the regions of maritime and mainland Southeast Asia which are the focus of the studies presented here were manifold ranging from the pursuit of power commercial exploitation intellectual curiosity and the aspiration to proselytize among indigenous people This book adds to existing

knowledge on travel travel experiences and travel writing by Europeans in mainland and insular Southeast Asia from the 16th to the 21st century based on specific case studies Moreover it demonstrates how Europeans perceived religion in the region presently known as Southeast Asia Working on the assumption that many of the European traders seafarers explorers and administrators arriving in Southeast Asia came as Christians convinced of the superiority of their religion the contributors to this volume analyse their encounters with Muslims who had been their long standing enemies in the Mediterranean and with Hindus Buddhists and adherents of local religions They involve themselves closely with the travelogues and the role of religions therein and in doing so reveal the ways in which religion influenced the travellers understanding of societies in maritime and mainland Southeast Asia The volume explores a number of questions including How did European travellers perceive religion in different regions of Southeast Asia in different historical periods How did the administrators the missionaries the natural historians and the explorers position themselves vis vis Islam and Buddhism on Java and in Siam And what do travel accounts tell us about the way Southeast Asian people perceived the Europeans

A. Halikowski Smith, 2011-05-25 The Indian Ocean World was an idea borne out by researchers in economic history and trade in the 1980s in response to the compartmentalization of specific area studies within the wider rubric of Asian civilisations and culture Professor Kirti N Chaudhuri s books Trading World of Asia and the English East India Company 1978 and then Trade and Civilization in the Indian Ocean 1985 figured amongst the forefront of this new movement in historical thinking undertaking detailed historical analysis first of the English East India Company and then a comparative cultural history of Asian material life and civilisation Today historians continue to hold on to the idea of an Indian Ocean world although studies now follow a number of different threads from themes like linguistics and creolization to the seeds of national consciousness By presenting

**Strange Parallels: Volume 1, Integration on the Mainland** Victor Lieberman, 2003-05-26 This ambitious work has two novel goals to overcome the extreme fragmentation of early Southeast Asian historiography and to connect Southeast Asian to world history Combining careful local research with wide ranging theory Lieberman argues that over a thousand years each of mainland Southeast Asia's great lowland corridors experienced a pattern of accelerating integration punctuated by recurrent collapse These trajectories were synchronized not only between corridors but most curiously between the mainland as a whole much of Europe and other sectors of Eurasia He describes in detail the nature of mainland consolidation which was simultaneously territorial religious ethnic and commercial and dissects the mix of endogenous and external factors responsible Here then is a fundamentally original analysis not only of Southeast Asia but of the pre modern world
