**MetroGreen** Donna Erickson,2012-09-26 In metropolitan areas across the country you can hear the laments over the loss of green space to new subdivisions and strip malls But some city residents have taken unprecedented measures to protect their open land and a growing movement seeks not only to preserve these lands but to link them in green corridors Many land use and urban planning professionals along with landscape architects and environmental advocates have joined in efforts to preserve natural areas MetroGreen answers their call for a deeper exploration of the latest thinking and newest practices in this growing conservation field In ten case studies of U S and Canadian cities paired for comparative analysis Toronto and Chicago Calgary and Denver and Vancouver and Portland among them Erickson looks closely at the motivations and objectives for connecting open spaces across metropolitan areas She documents how open space networks have been successfully created and protected while also highlighting the critical human and ecological benefits of connectivity MetroGreen s unique focus on several cities rather than a single urban area offers a perspective on the political economic cultural and environmental conditions that affect open space planning and the outcomes of its implementation Special Places Betty Roots,Donald Chant,Conrad Heidenreich,2011-11-01 High Park Scarborough Bluffs the Humber Valley the Port Lands These are among the special places of Toronto Each is a unique ecosystem within the busy urban region Even though

Torontonians think of the city as almost entirely built up savannah or wetlands are only a subway ride away Special Places explores the changing ecosystems of the Toronto area over this century looking at the environmental conditions that influence the whole region and at the surprising range of plants and animals you can still find in many of its natural spaces Special Places explores the changing ecosystems of the Toronto area over this century looking at the environmental conditions that influence the whole region and at the surprising range of plants and animals you can still find in many of its natural spaces In Special Places a group of science professionals show how actions in one location produce ripples in every direction Changes in forest cover for example affect not only the organisms that live in the forest but also those that use it from time to time such as migrating birds and those that live in watersheds fed by water husbanded by forest cover Changes in bird populations cause changes in the populations of insects on which they feed changes in insect populations affect the plants on which they feed and so on As a new millennium arrives it is time to take stock of our effect on the world around us and to consider the consequences Special Places assesses how we can minimize the impact of human activity on the environment and even remedy some of the harm we have already done One way is to bridge the gap between scientists and decision makers by making the natural sciences more accessible to everyone Special Places was written at the initiative of the Royal Canadian Institute which is the oldest active scientific society in Canada and is dedicated to bringing the natural sciences to the public Richly illustrated and written for a general audience this book celebrates the glory and fragility of these interlocking ecosystems and helps us appreciate the uniqueness of the special places

*Landscapes and Landforms of Eastern Canada* Olav Slaymaker, Norm Catto, 2020-02-13 This critical book focuses on the geomorphological landscapes of eastern Canada and provides a companion volume to *Landscapes and Landforms of Western Canada* 2017 There are a number of unique characteristics of eastern Canada's landscapes notably its magnificent coastlines the extraordinary variety and extent of wetlands the huge Great Lakes St Lawrence basin the high incidence of meteorite craters the spectacular Niagara Falls urban karst in Montreal and Ottawa youthful glaciated karst in Ontario Newfoundland Quebec and Nova Scotia the ubiquitous permafrost terrain of Nunavut Labrador and northern Quebec and the magnificent arctic fjords and glaciers Looking at coastlines the tidal extremes of the Bay of Fundy are world renowned the structural complexity of the island of Newfoundland is less well known but produces an astounding variety of coastlines in close succession the arctic fjordlands of Baffin and Ellesmere islands and the extravagant raised beaches of Hudson Bay bear comparison with the classic fjords of Norway and the Baltic Sea raised beaches As for wetlands there are distinctive Arctic Subarctic Boreal Eastern Temperate and Atlantic wetlands and their extent is second only to those of Russia In the Hudson and James Bay regions between 75 100% of the terrestrial surface is comprised of wetlands One of North America's largest river basins the Great Lakes St Lawrence basin has its source in Minnesota straddles the USA Canada border and debouches into Quebec as the St Lawrence River and evolves through its estuary into the Gulf of St Lawrence a journey of almost 5 000 km As far as meteorite

craters are concerned 10% of the world's total are located in eastern Canada including some of the largest and most complex landforms They are preserved preferentially in the ancient Shield terrain of Quebec Finally the three million km<sup>2</sup> of permafrost controlled relief in eastern Canada serves as a reminder of the vulnerability of eastern Canada's landscapes to climate change Effects of warming are expressed through thawing of the permafrost disruption of transportation corridors and urban construction problems ever present geomorphic hazards

Tending Nature Nathalie Gravel, 2024-10-25 This book aims to enhance understanding of the foundational principles and ethical considerations of citizen engagement in environmental conservation through an examination of successful cases of shared environmental governance in the Americas It seeks to inform policymaking on strategies for fostering behavioral change and advancing towards co management of national public resources and the commons These cases are analyzed through a geographical lens to provide a framework for reimagining eco citizenship grounded in bioregionalism This perspective diverges from the notion of eco citizenship as a universal culture advocating instead for its integration within the collective habitats of citizen groups Readers will gain insights into fostering reconciliation between nature and humanity by empowering diverse stakeholders to lead Blue Green Bee conservation initiatives Emphasizing community learning environmental awareness and citizen participation the book enriches decision making processes and promotes environmental justice for all living organisms The selected case studies from Brazil Canada Costa Rica Mexico and the United States highlight pioneering innovations in Blue Green Bee policy planning across urban periurban and rural settings These initiatives propose empathetic and respectful approaches to nurturing our natural surroundings including methods for co management networked urban gardening wild native bee conservation water source protection community based water management river revitalization and metropolitan green space stewardship This book will be invaluable to students urban and rural planners researchers academics networking professionals policymakers international development practitioners environmental organization personnel and enthusiasts of the natural world alike

**Borders, Culture, and Globalization** Victor Konrad, Melissa Kelly, 2021-05-18 Border culture emerges through the intersection and engagement of imagination affinity and identity It is evident wherever boundaries separate or sort people and their goods ideas or other belongings It is the vessel of engagement between countries and peoples assuming many forms exuding a variety of expressions changing shapes but border culture does not disappear once it is developed and it may be visualized as a thread that runs throughout the process of globalization Border culture is conveyed in imaginaries and productions that are linked to borderland identities constructed in the borderlands These identities underlie the enforcement of control and resistance to power that also comprise border cultures Canada's borders in globalization offer an opportunity to explore the interplay of borders and culture identify the fundamental currents of border culture in motion and establish an approach to understanding how border culture is placed and replaced in globalization Published in English
