Superintendent of Documents,1896 *The Whole Works of the Late Reverend Thomas Boston ... Now First Collected, and Reprinted Without Abridgment; Including His Memoirs, Written by Himself. Edited by the Rev. Samuel McMillan* Thomas BOSTON (the Elder.),1849 *The Age of Selfies* Adam J. MacLeod,2020-02-03 This book diagnoses an unexamined cause of the incivility in our public discourse Our most contentious controversies today are moral We disagree not only about questions of efficiency and democracy and civil liberties but also about what is right to do and who we are becoming as a people We have not yet understood the implications of this shift in public reasoning from discourse about political ideals to debates about moral imperatives The book prescribes a way to educate ourselves and our young people how to disagree well We are not able to engage in moral discourse effectively because our educational programs are still organized around obsolete principles of political neutrality Meanwhile our young people have learned to bend moral claims in service to self authorship Also different groups of us look to different sources of moral truth Further complicating our efforts different generations use the same language to refer to different moral ideas The book suggests principles for a practical education that is robustly moral that will enable us to understand and overcome these new challenges And it lays out a framework for flourishing together in society despite our radical differences **Memoir and Remains of the Rev. Robert Murray M'Cheyne** Bonar,1872 **Current Perspectives on Sexual Selection** Thierry Hoquet,2015-01-28 This root and branch re evaluation of Darwin s concept of sexual selection tackles the subject from historical epistemological and theoretical perspectives Contributions from a wealth of disciplines have been marshaled for this volume with key figures in behavioural ecology philosophy and the history of science adding to its wide ranging relevance Updating the reader on the debate currently live in behavioural ecology itself on the centrality of sexual selection and with coverage of developments in the field of animal aesthetics the book details the current state of play while other chapters trace the history of sexual selection from Darwin to today and inquire into the neurobiological bases for partner choices and the comparisons between the hedonic brain in human and non human animals Welcome space is given to the social aspects of sexual selection particularly where Darwin drew distinctions between eager males and coy females and

rationalized this as evolutionary strategy Also explored are the current definition of sexual selection as opposed to natural selection and its importance in today s biological research and the impending critique of the theory from the nascent field of animal aesthetics As a comprehensive assessment of the current health or otherwise of Darwin s theory 140 years after the publication of his *Descent of Man* the book offers a uniquely rounded view that asks whether sexual selection is in itself a progressive or reactionary notion even as it explores its theoretical relevance in the technical biological study of the twenty first century
